Chilcote,2017-10-20 Praying in the Spirit of Christ offers contemporary readers a compelling and holistic vision of what life in Christ can mean for them It draws from the broad array of spiritual and theological literature that John Wesley considered most significant for growth in Christian discipleship In this volume author Paul Chilcote utilizes the same method or approach of his earlier devotional work Praying in the Wesleyan Spirit He has transposed brief excerpts from Wesley's fifty volume Christian Library into fluid prayers that are written in contemporary language yet faithful to the spiritual insights of the classical sources A hymn by Charles Wesley accompanies each prayer and a passage of Scripture frames the topic for each devotional reading The prayers help readers ponder themes like the desire of the heart liberty in Christ thirst for God resurrection joy and unbounded love These devotions engage head and heart and seek to shape the lives of those who pray in the spirit of Christ      **The metropolitan catholic almanac and Laity's directory** ,1854      *A selection from the spiritual letters of s. Davis,2022 The book highlights a common discourse running through the sources that underpinned this collective representation of how human beings experienced the divine and it demonstrates a continual effort across large swathes of English religion to prepare an individual s soul for an encounter with the divine through different spiritual disciplines and devotional practices Over a period of several centuries this discourse and the larger culture of revelation provided an essential structure and legitimacy both to contemporary claims of divine revelation and the biblical precedents that contemporary experiences were modelled after This discourse detailed the physical metaphysical and epistemological features of how a human being was understood to experience divine revelation providing a means to delimit and define what happened when an individual was raptured by God

Campion,2022-01-15 This book represents the first full length study of the prevalence of domestic imagery in late medieval religious literature It examines as yet understudied patterns of household imagery and allegory across four fifteenth century spiritual texts all of which are Middle English translations of earlier Latin works These texts are drawn from a range of popular genres of medieval religious writing including spiritual guidance texts Lives of Christ and collections of revelations received by visionary women All of the texts discussed in this book have identifiable late medieval readers which further enables a discussion of the way in which these book users might have responded to the domestic images in each one This is a hugely important area of enquiry as the literal late medieval household was becoming increasingly culturally important during the fourteenth and fifteenth centuries and these texts frequent recourse to domestic imagery would have been especially pertinent

*Print and Protestantism in Early Modern England* Ian Green,2000-11-02 In this highly innovative study Ian Green examines the complete array of Protestant titles published in England from the 1530s to the 1720s These range from the large specialist volumes at the top to cheap tracts at the bottom

from radical on one wing to conservative on the other and from instructive and devotional manuals to edifying cum entertaining works such as religious verse and cautionary tales Wherever possible the author adopts a statistical approach to permit a focus on those works which sold most copies over a number of years and in an annotated Appendix provides a brief description of over seven hundred best selling or steady selling religious titles of the period A close study of these texts and the forms in which they were offered to the public suggests a rapid diversification of both the types of work published and of the readerships at which they were targeted It also demonstrates shrewd publishers frequent attempts to plug gaps in a rapidly expanding market Where previous studies of print have tended to focus on the polemical and the sensational this one highlights the didactic devotional and consensual elements found in most steady selling works It is also suggested that in these works there were at least three Protestantisms on offer an orthodox clerical version a moralistic rational version favoured by the educated laity and a popular version that was barely Protestant at all and that the impact of these probably varied both within and between different readerships These conclusions shed much light not only on the means by which English Protestantism was disseminated but also on the doctrinally and culturally diffused nature of English Protestantism by the end of the Stuart period Both the text and the appendix should prove invaluable to anyone interested in the history of the Reformation or in printing as a medium of education and communication in early modern England     The American Catholic Quarterly Review ... ,1922     **The Living Church** ,1945
