**Fascism Past and Present, West and East** Roger Griffin, Werner Loh, Andreas Umland, 2006-04-27  
In the opinion of some historians the era of fascism ended with the deaths of Mussolini and Hitler Yet the debate about its nature as a historical phenomenon and its value as a term of historical analysis continues to rage with ever greater intensity each major attempt to resolve it producing different patterns of support dissent and even hostility from academic colleagues Nevertheless a number of developments since 1945 not only complicate the methodological and definitional issues even further but make it ever more desirable that politicians journalists lawyers and the general public can turn to experts for a heuristically useful and broadly consensual definition of the term These developments include the emergence of a highly prolific European New Right the rise of radical right populist parties the flourishing of ultra nationalist movements in the former Soviet empire the radicalization of some currents of Islam and Hinduism into potent political forces and the upsurge of religious terrorism Most monographs and articles attempting to establish what is meant by fascism are written from a unilateral authoritative perspective and the intense academic controversy the term provokes has to be gleaned from reviews and conference discussions The uniqueness of this book is that it provides exceptional insights into the cut and thrust of the controversy as it unfolds on numerous fronts simultaneously clarifying salient points of difference and moving towards some degree of consensus Twenty nine established academics were invited to engage with an article by Roger Griffin one of the most influential theorists in the study of generic fascism in the Anglophone world The resulting debate progressed through two rounds of critique and reply forming a fascinating patchwork of consensus and sometimes heated disagreement In a spin off from the original discussion of Griffin s concept of fascism a second exchange documented here focuses on the issue of fascist ideology in contemporary Russia This collection is essential reading for all those who realize the need to provide the term fascism with theoretical rigor analytical precision and empirical content despite the complex issues it raises and for any specialist who wants to participate in fascist studies within an international forum of expertise The book will change the way in which historians and political scientists think about fascism and make the debate about the threat it poses to infant democracies like Russia more incisive not just for academics but for politicians journalists and the wider public

*The Balkans and Caucasus* Ivan Biliarsky, Ovidiu Cristea, Anca Oroveanu, 2012-01-17 The overall character of the Black Sea region has been defined over time in various ways For specialists in economy and trade it has represented a region at the crossroads of the trade routes between Europe and Asia for political scientists and historians it has been a space of confrontation between the great terrestrial and naval powers for the scholars attentive to its cultural dimensions it has been a contact zone a space of interaction between different peoples religions and cultures These attempts at a definition all revolve around an essential and ambivalent feature of the Black Sea as a factor of connection a bridge and at the same time a border a dividing line between Europe and Asia between the Baltic and the Mediterranean region In this fluctuation between the two the predominance of one over the other bridge or border has depended on a number of factors first among them the distribution of power relations in the region This volume which originated in a symposium hosted by the New Europe College Institute for Advanced Study in Bucharest brings together contributions coming from scholars within the Black Sea region and outside it in an attempt to look at the Balkans and Caucasus from a comparative and multi disciplinary perspective highlighting their differences as well as their common features The overarching question this volume and the papers included in it address and leave open is to what extent we are dealing with a coherent zone whose past present and future can legitimately be considered as being traversed by meaningful interrelations suggesting a shared destiny

Kempf,2006 Contains papers that illustrate the balanced dichotomy between terrorism and counter terrorism against the background of the liberal state How to establish the equilibrium of combating terrorism while preserving the liberties of the open society This book begins with this question and tackles different aspects and dimensions of this dilemma      Afrocentrism Stephen Howe,1999-08-17 For centuries racist colonial and Eurocentric bias has blocked or distorted knowledge of Africans their histories and cultures resulting in a counter mythology claiming the innate superiority of African descended peoples In this provocative study historian Stephen Howe challenges this Afrocentric rewriting of African history 16 photos Copyright Libri GmbH All rights reserved      The End of Racism Dinesh D'Souza,1996-09-30 The first comprehensive inquiry into the history nature and ultimate meaning of racism      *Biblical Events from Assyria to America: Nathanyel Ben Israel*,2025-04-01 In Biblical Events from Assyria to America author Nathanyel Ben Israel uncovers the longstanding patterns of omission and distortion that have plagued Black history      **Russia's Skinheads** Hilary Pilkington,Al'bina Garifzianova,Elena Omel'chenko,2010-05-11 Russia s Skinheads Exploring and Rethinking Subcultural Lives provides a thorough examination of the phenomenon of skinheads explaining its nature and its significance and assessing how far Russian skinhead subculture is the lumpen end of the extreme nationalist ideological spectrum There are large numbers of skinheads in Russia responsible for a significant number of xenophobic attacks including 97 deaths in 2008 alone making this book relevant to Russian specialists as well as to sociologists of youth subculture It provides a practical example of how to investigate youth subculture in depth over an extended period in this case through empirical research following a specific group over six years and goes on to argue that Russian skinhead subculture is not a direct import from the West and that youth cultural practices should not be reduced to expressions of consumer choice It presents an understanding of the Russian skinhead as a product of individuals whole and evolving lives and thereby compels sociologists to rethink how they conceive the nature of subcultures      Der Donaulimes in der Spätantike und im Frühmittelalter Andreas Schwarcz,Peter Soustal,Antoaneta Tcholakova,2016      **Metascience and Politics** A. James Gregor,2020-03-25 A central problem in political inquiry is the conceptual and linguistic informality of political science For most of its history the discipline has been largely pursued with the analytic and logical machinery of ordinary language Likewise there has been little effort to standardize how language is used or to systematize theoretical procedures to insure methodological uniformity In an effort to better understand and defend the research processes that attend sustain and foster the systematic credibility of political science Gregor argues a special conceptual language is needed to enhance the rigor replicability articulation and interpretation of political science s empirical findings Gregor reviews the conceptual inventory of the social sciences in general with particular emphasis on distinctions between descriptive theoretical and normative language He analyzes what might count as objectivity and truth in a given set of circumstances in

an effort to standardize how political scientists make such distinctions How theory and explanation might be assessed in less rigorous disciplines is also considered Gregor is opposed to the postmodernist tendency to use language games in the social sciences that purport to close the gaps separating the discourses of knowledge ethics and politics but do so at the expense of clarity rigor and objectivity In Gregor's view these alternative perspectives have exploited vagueness and ambiguity in order to accomplish what they consider to be their political tasks A substantial postscript to this edition traces some of the postmodernist perspectives to their origins in the works of particular individuals and to their history in the thought of twentieth century Europe Metascience and Politics attempts to address all these issues with brevity and seriousness of purpose in order to provide a defensible rationale for the scientific character of social and political studies It will be of interest to political scientists sociologists philosophers and intellectual historians A James Gregor is professor of political science at the University of California at Berkeley and an adjunct professor at Command and Staff College U S Marine Corps University at Quantico Virginia He has also been awarded the Order of Merit by the President of the Italian Republic for his contribution to Italy as a nation through his published works He is the author of Giovanni Gentile Philosopher of Fascism Interpretations of Fascism Phoenix Fascism in Our Time and Marxism China and Development all published by Transaction

*THE TRUTH ABOUT FREEMASONS, ILLUMINATI, AND NEW WORLD ORDER* S.D.S C.M.W,2012-03-19 Two Books In One The New World Order's Letter to Every Citizen of the World warning Resistance is Futile According to this letter addressed to everybody in America it's useless to resist a one world takeover as the program is in its final stages The Very word secrecy is repugnant in a free and open society and we are as people inherently and historically opposed to secret societies to secret oaths and to secret proceedings We decided long ago that the dangers of excessive and unwarranted concealment of pertinent facts far outweighed the dangers which are cited to justify If you have the privilege to know you have the duty to act **Nietzsche: The Gay Science** Friedrich Nietzsche,2001-08-23 Nietzsche wrote The Gay Science which he later described as perhaps my most personal book when he was at the height of his intellectual powers and the reader will find in it an extensive and sophisticated treatment of the philosophical themes and views which were most central to Nietzsche's own thought and which have been most influential on later thinkers These include the death of God the problem of nihilism the role of truth falsity and the will to truth in human life the doctrine of the eternal recurrence and the question of the proper attitude to adopt toward human suffering and toward human achievement This volume presents the work in a new translation by Josefine Nauckhoff with an introduction by Bernard Williams that elucidates the work's main themes and discusses their continuing philosophical importance **Ghetto Religiosity II** Khalil Amani,2001-08 The primary focus of this book is our religious understanding of sex It is the author's premise that the sexual attitudes of today were erroneously and maliciously set up by men whose ultimate aim was to control the sexual practices of the ancient Jews and the rights of women Most controversial is our present view of homosexuality and how the Bible has thoroughly

misshaped our ideas about homosexual love The case is made that homosexuality is not a sin against God but rather a conspiracy conjured up by the machinations of the ancient Levitical priests It s high time someone came along with a voice that speaks the truth about our Western brainwashing without trying to proselytize to a particular brand of religion Someone that doesn t skirt the issues because of denominational ties I cannot be excommunicated defrocked or untenured Neither am I bound by the Masonic sword I speak freely Many preachers merely parrot the party line to keep their congregation in a religious coma extracting thousands and millions of dollars to feed their ostentatious lifestyle If you want to know the truth here it is Peep it and recognize The Author      **Disperse** Nelo Dadd,2010-06-10 Jesus said in John 16 4 I am the way the truth Jesus came to this world to destroy the works of the Devil because Satan is a liar and the father of it John 8 44 when the truth is revealed to us we do not have or display any excitement about it and much less do we develop or acquire a mental capacity and ability to relate understand and to accept anything as an absolute truth The Bible is the sacred inspiration of God which contains divine and infinite truths      The Jewish Onslaught Tony Martin,1993 A defense of the Nation of Islam s publication The secret relationship between Blacks and Jews      Black Books Bulletin Institute of Positive Education (Chicago, Ill.),1994      Russia's Islamic Threat Gordon M. Hahn,2007-01-01 Why contemporary Russia is a dangerous seedbed for radicalized Islam and what we should be doing about it The notion that the Chechen led jihad in the North Caucasus is an indigenous affair far removed from the global Islamist jihad is perhaps comforting to Americans and other Westerners but it is a myth Moreover the North Caucasus jihad may be the harbinger of a much larger Muslim challenge to Russia s political stability and state integrity So concludes Gordon M Hahn in this meticulously researched analysis of Russia s emerging Islamic threat Hahn draws an explicit picture of an already sophisticated and effective Chechen jihadist network that is expanding the territorial scope of its operations with inspiration and some assistance from the global jihadist movement Given its proximity to large stockpiles of diverse weapons the expanding population of Russian based Islamist terrorists is particular cause for alarm the author warns The book lifts the veil on the Muslim challenge to Russia s political stability national security and state integrity as well as the potentially grave threat to international and U S security Hahn shows that many of the demographic historical socioeconomic political and religious factors sparking jihadi revolution in Muslim countries are extant in Russia and are driving revolutionary Islamist terrorism there In a penetrating conclusion to the book the author analyzes the policies that have fueled the rise of militant Islam and offers a series of important recommendations for policymakers
