Clash Civilizations Remaking World Order:

An Analysis of Samuel P. Huntington's The Clash of Civilizations and the Remaking of World Order Riley Quinn, 2017-07-05 The end of the Cold War which occurred early in the 1990s brought joy and freedom to millions But it posed a difficult question to the world's governments and to the academics who studied them how would world order be remade in an age no longer dominated by the competing ideologies of capitalism and communism Samuel P Huntington was one of the many political scientists who responded to this challenge by conceiving works that attempted to predict the ways in which conflict might play out in the 21st century and in The Clash of Civilizations he suggested that a new kind of conflict one centred on cultural identity would become the new focus of international relations Huntington's theories greeted with scepticism when his book first appeared in the 1990s acquired new resonance after 9 11 The Clash of Civilizations is now one of the most widely set and read works of political theory in US universities Huntington's theories have also had a measurable impact on American policy In large part this is a product of his problem solving skills Clash is a monument to its author's ability to generate and evaluate alternative possibilities and to make sound decisions between them Huntington's view that international politics after the Cold War would be neither peaceful nor liberal nor cooperative ran counter to the predictions of almost all of his peers yet his position the product of an unusual ability to redefine an issue so as to see it in new ways has been largely vindicated by events ever since

Der andere Orientalismus Andrea Polaschegg, 2012-01-02 Das Buch bietet erstmals eine systematische Gesamtschau der Entstehung und Gestalt dessen was als deutscher Orientalismus in der Forschung seit längerem diskutiert wird Mit historischem Fokus auf dem frühen 19. Jahrhundert werden die literarischen wissenschaftlichen und politischen Bedingungen skizziert unter denen sich das deutsche Orientbild der Neuzeit konstituiert hat Das Schlüsselwerk der Orientalismus-Forschung Edward Saids Orientalism erfährt dabei eine grundlegende theoretische Revision die den analytischen Blick auf die Regeln orientalistischer Imagination frei macht Gestützt auf eine breite Materialbasis zeigt die Studie den Paradigmenwechsel des deutschen Orientalismus um 1800 auf und zeichnet das diskursive Spielfeld nach auf dem er sich seither bewegt Detaillierte Einzelstudien zu Goethes West-östlichem Divan zu Hauffs Märchen und zu orientalistischen Phantasien des preussischen Hofes loten die Möglichkeiten der orientalistischen Ästhetik aus

Aufstieg und Fall westlicher Herrschaft Martin Sebaldt, Andreas Friedel, Sabine Fütterer, Sarah Schmid, 2015-07-20 Der Sammelband analysiert Aufstieg und Fall westlicher Herrschaft als globales Grundproblem Durch die Vorstellung von zwölf modernen Klassikern zu diesem Thema die sich durch besonderen theoretischen und empirischen Mehrwert auszeichnen wird die Vielfalt der Erklärungsansätze erschlossen Diese setzen sowohl bei geographischen und natürlichen Ressourcen an wie auch bei kulturellen Errungenschaften und Werten Wieder andere stellen Institutionen und Organisationsmuster als entscheidende Determinanten heraus Letztlich wird damit deutlich dass Aufstieg und Fall westlicher Herrschaft nur multikausal zu begreifen sind Die vergleichende Abschlussbetrachtung liefert dafür einen systematischen Ansatz

Francis Fukuyama and the End of History Howard Williams, E Gwynn Matthews, David Sullivan, 2016-07-20 Fukuyama's concept of the End of History has been one of the most widely debated theories of international politics since the end of the Cold War This book discusses Fukuyama's claim that liberal democracy alone is able to satisfy the human aspiration for freedom and dignity and explores the way in which his thinking is part of a philosophical tradition which includes Kant Hegel and Marx Two new chapters in this second edition discuss the ways in which Fukuyama's thinking has developed they include his celebrated and controversial criticism of neoconservatism and his complex intellectual relationship to Samuel Huntington whose Clash of Civilization thesis he rejects but whose notion of political decay is central to his more recent work The authors here argue that Fukuyama's continuing fundamental contributions to debates concerning the spread of democracy and threat of global terror mark him out as one of the most important thinkers of the twenty first century

Umstrittenes Abendland Alexandra Lason, 2021 Der Begriff Abendland ist umstritten Im Blick auf die Herausforderungen denen Europa gegen bersteht hat er dennoch Entscheidendes zur Frage nach der Identit t und Zukunft Europas beizutragen Denn er ist nicht nur politischer Kampfbegriff der auf Spaltung Ablehnung des Anderen sowie kulturelle und religi se Homogenisierung zielt und so dem Anliegen eines geeinten und pluralen Europas diametral gegen bersteht Er kann ebenso nicht zuletzt in den p pstlichen Verlautbarungen als Wert und Appellbegriff identifiziert werden Als solcher dient er dazu die Offenheit f r den Anderen und die dialogische Auseinandersetzung als gemeinsame Wahrheitssuche und damit eine nicht totalit re Bestimmung von Universalit t und Partikularit t sowie Identit t zu f rdern Die vorliegende Arbeit tr gt auch hinsichtlich der Frage der Neuevangelisierung zur differenzierten Wahrnehmung und reflektierten Verwendung des umstrittenen Begriffs Abendland und der ber ihn transportierten Ideen bei Die vorliegende Dissertation besticht durch ihre Akribie ihre analytische Sch rfe und durch ihre intellektuelle Souver nit t J rgen Manemann

Sustainable History and Human Dignity Nayef R.F. Al-Rodhan, 2022-01-27 Sustainable History and the Dignity of Man is a new philosophy of history This volume outlines how sustainable history is propelled by good governance which balances the tension between the attributes of human nature emotionality amorality and egoisms and human dignity needs such as reason security human rights accountability transparency justice opportunity innovation and inclusiveness The author proposes minimum criteria for good governance that are sensitive to local cultures and histories but meet certain common global values to ensure maximum and sustainable moral and political cooperation Using an ocean model of a single collective human civilisation the author argues that we should think in terms of a common human story that is comprised of multiple geo cultural domains and sub cultures with a history of mutual borrowing and synergies The author argues that today all geo cultural domains must succeed if humanity as a whole is to triumph This collective triumph will also depend on reason and a recognition that a great deal of knowledge is indeterminate and may be temporally spatially and perhaps culturally constrained as is outlined in the author's new theory of knowledge Neuro rational Physicalism Dr Nayef R F Al Rodhan is Senior Scholar in Geostrategy and Director of the Programme on the Geopolitical Implications of Globalisation and Transnational Security at the Geneva Centre for Security Policy Geneva Switzerland This book is an exceptionally wide

The Islamic State in the Post-Modern World Louis D.

Hayes,2016-03-03 The Islamic State in the Post Modern World is a study of the political development of Pakistan This study consists of three parts The first addresses the concept of the state as it has evolved historically The approach is comparative and involves a brief review of Islamic political theory The second part of this section is the modern state i e the Westphalian model The territorial state is still the standard although it has been evolving in new directions for some time The second section focuses on the creation of Pakistan as an experiment in bridging the gulf between the demands of the modern state and the philosophical spiritual attraction of the Islamic model In addition to constitutional issues the discussion also includes political forms i e the machinery of daily government and the appropriateness of democratic methods elections legislative process and political parties to achieve Islamic ends The third part considers international issues from the beginning of the twenty first century especially the conflicts in Iraq and Afghanistan Despite its partnership role with the US in the war on terror Pakistan has been consistently marginalized Pakistan s problems are exacerbated by the conflict over Kashmir a vestigial remnant of Pakistan s continuous and largely unsuccessful efforts at self identification

Flashpoints in the War on Terrorism Derek S. Reveron,Jeffrey Stevenson Murer,2013-05-13 This volume offers a comprehensive overview of international political violence by bringing together foreign policy experts on several regions who examine conflicts in the Fertile Crescent the Balkans the Post Soviet Region the Himalayas Southeast Asia and sub Saharan Africa With cogent assessments of civil conflicts that threaten to be part of a global jihad each chapter both dissects the historical roots and socio economic causes that catalyze terrorism in those areas as well as posits ways for the United States to meet the myriad of foreign policy challenges posed by the growing threat of contemporary international terrorism

War, the State and International Law in Seventeenth-Century Europe Olaf Asbach,Peter Schröder,2016-02-17 One of the great paradoxes of post medieval Europe is why instead of bringing peace to a disorganised and violent world modernity instead produced a seemingly endless string of conflicts and social upheavals Why was it that the foundation and institutionalisation of secured peace and the rule of law seemed to go hand in hand with the proliferation of war and the violation of individual and collective rights In order to try to better understand such profound questions this volume explores the history and theories of political thought of international relations in the seventeenth century a period in which many of the defining features and boundaries of modern Europe were fixed and codified With the discovery of the New World and the fundamental impact of the Reformation the complexity of international relations increased considerably Reactions to these upheavals resulted in a

range of responses intended to address the contradictions and conflicts of the anarchical society of states. Alongside the emergence of modern international law, the equation of international relations with the state of nature and the development of the balance of power, diplomatic procedures and commercial customs arose which shaped the emerging and current international system of states. Employing a multidisciplinary approach to address these issues, this volume brings together political scientists, philosophers, historians of political thought, jurists and scholars of international relations. What emerges is a certain tension between the different strands of research which allows for a fruitful new synthesis. In this respect, the assembled essays in this volume offer a sophisticated and fresh account of the interactions of law, conflict and the nation-state in an early modern European context.

Strategy in the Contemporary World John Baylis, James J. Wirtz, Colin S. Gray, 2013. The fourth edition of this successful textbook has been revised and updated in light of recent events and includes a new chapter on the rise of cyberpower. Its comprehensive coverage of issues of war and peace such as terrorism,

intelligence and weapons of mass destruction makes it the major strategic studies textbook in the field.

War, Human Dignity and Nation Building Gary D. Badcock, 2010-08-11. Canada's involvement in Afghanistan is the longest martial conflict in its history, precipitated literally overnight by a world-changing event in the 2001 9/11 attack in New York City. In 2010, the Afghan Mission remains front-page news for Canadians, even threatening to undermine the Federal Government due to the so-called Detainee Scandal. The human cost, Canadian and Afghan financial burdens and impact on the self-perception of Canadians as a peace-keeping Middle Power are immense and likely will form a watershed in Canadian history. And yet the Mission remains little scrutinized by faith communities and further left as a non-conversation for many and the domain of a nebulous foreign policy and largely toothless Manley Report. This volume is the first such major attempt by the Centre for Public Theology to bring together theologians, philosophers, faith leaders, NGOs, politicians and other academics from sociology, politics and peace-keeping in order to dialogue about the impact of the Afghan Mission. These papers form much of the conversation of a conference held in May 2009 at the Centre for Public Theology. The papers offer reflections on the Manley Report, investigations on the theological and philosophical issues at play in Canada's response, interaction with Canada's shift from peace-keeping to war-fighting and the new NATO mandate, thoughts on the role of Islamic nations and analysis of the role of the Abrahamic faith communities in this wider Canadian conversation. The Centre for Public Theology is a federally funded research centre housed at Huron University College whose mandate is to bring into conversation academics, NGOs, media, Government and the public on issues of public policy and life with a particular attention to the role of religion in Canadian life. Its founding motto is intelligence not advocacy. It is not an advocacy or lobbying centre; instead, seeking only to facilitate dialogue across boundaries. Its webpage can be found at www.publictheology.org.

Handbook of Ethnic Conflict Dan Landis, Rosita D. Albert, 2012-02-14. Although group conflict is hardly new, the last decade has seen a proliferation of conflicts engaging intrastate ethnic groups. It is estimated that two-thirds of violent conflicts being fought

each year in every part of the globe including North America are ethnic conflicts Unlike traditional warfare civilians comprise more than 80 percent of the casualties and the economic and psychological impact on survivors is often so devastating that some experts believe that ethnic conflict is the most destabilizing force in the post Cold War world Although these conflicts also have political economic and other causes the purpose of this volume is to develop a psychological understanding of ethnic warfare More specifically Handbook of Ethnopolitical Conflict explores the function of ethnic religious and national identities in intergroup conflict In addition it features recommendations for policy makers with the intention to reduce or ameliorate the occurrences and consequences of these conflicts worldwide

The Shifting Global Economic

Architecture Jonathan Luckhurst, 2017-10-05 This book analyzes the shifting global economic architecture indicating the decentralizing authority in global economic governance since the Cold War and especially following the 2008-09 global financial crisis The author examines recent adjustments to the organizational framework contestation of policy principles norms and practices and destabilizing actor hierarchies particularly in global macroeconomic trade and development governance The study's analytical eclecticism includes a core constructivist IR approach but also incorporates insights from several international relations theories as well as political and economic theory The book develops a unique analytical matrix which analyzes effects of strategic political and cognitive authority in the organizational policy and actor contexts of the global economic architecture It concludes that despite concerns about potential fragmentation decentralizing authority has increased the integration of leading developing states and new actors in contemporary global economic governance

1989

as a Political World Event Jacques Rupnik, 2013-09-24 This book is not about the events of 1989 but about 1989 as a world event Starting with the fall of the Berlin Wall and the collapse of the Soviet bloc it examines the historical significance and the world brought about by 1989 When the Cold War ended in Europe it ushered in a world in which the international agenda is set outside Europe in America or Asia The book critically examines and moves beyond some of the conveniently simple paradigms proposed in the nineties by leading political scientists such as Fukuyama and Huntington to show how the events of 1989 meant different things to different parties This was an anti utopian revolution a symbol of the possibility of non violent transitions to democracy which raised the hopes of world wide democratic changes Contributors show how 1989 can be seen as the founding moment of a globalized world but equal attention should be given to the dispersion of its meanings and the exhaustion of some of its main trends associated with the post 1989 era Europe was reunited yet it is in crisis Twenty years on global markets have brought about a global financial crisis The fall of the Berlin Wall was celebrated as the advent of free movement in a world without borders Now however we can see that new borders walls fences have since been built With an introductory essay by Vaclav Havel 1989 as a Political World Event will be of interest to scholars of European Politics and International Relations
