Class And Economic Change In Kenya:

Class and Economic Change in Kenya G. N. Kitching, 1980-01-01 This historical analysis is followed by a theoretical discussion of its implications for such issues as the mode of production operative in Kenya the type of class analysis which is appropriate for the country the role of the state in capital accumulation and class formation and the possible relevance of Marxist value theory to the analysis of exploitation in Kenya This book sets new standards for the study of the process of drift into dependency and of the role of the state in the direction of a political economy It will be invaluable not only to Africanists but to all those involved in the study of the social political and economic structure of Third World countries *Macht und Ohnmacht politischer Institutionen* NA Hartwich, 2013-03-09 Die politikwissenschaftliche Auseinandersetzung mit politischen Institutionen weist bemerkenswerte Schwankungen in bezug auf Intensität Interpretation und Bewertung auf Die Fragestellung geht zu den wahrhaft klassischen dieser Disziplin Im Deutschland des 20. Jahrhunderts bestimmte vor allem die Suche nach einer angemessenen Deutung und Popularisierung der für Deutschland neuen demokratischen Institutionen das Denken in den rudimentär bleibenden Ansätzen zu einer Politikwissenschaft nach 1918 anlässlich der inneren Transformation der demokratischen Institutionen zwischen 1930 und 1933 und dann nach dem Kriegsende von 1945 als die Politikwissenschaft unter kräftiger Nachhilfe der Besatzungsmächte allmählich zu einer relativ breit verankerten Universitätsdisziplin heranwuchs Die Intensität der Institutionenkunde in den fünfziger Jahren die fehlende theoretische Tiefe und ihr zu unreflektiert ausschließlicher Bezug auf die Institution als Ausgangspunkt von legitimer Politikdefinition und Entscheidungsbildung rief eine wissenschaftliche Kritik hervor die in den sechziger Jahren immer grundsätzlicher wurde Als sich dann Gesellschaftstheorien durchsetzten nach denen ökonomische Bewegungsgesetze die Politik determinierten gesellschaftliche Strukturen und machtbestimmte Prozesse allenfalls eine relative Autonomie der Politik zuliezen erschienen die politischen Institution kaum noch als relevanter Ort legitimer Entscheidung und damit als lohnendes Objekt politikwissenschaftlichen Fleißes Die sozial und gesellschaftswissenschaftliche Prägung der Politikwissenschaft die ab Ende der sechziger Jahre hervortrat bestand indes unnachlässiglicher auf einer Klärung dessen was unter dem Begriff der Institution denn nun zu verstehen sei Institutionen so darf heute konstatiert werden sind neben den bekannten verfassungsrechtlichen und gesetzlichen Einrichtungen auch rechtliche Gestaltungsprinzipien und rechtlich normierte gesellschaftliche Verhaltensmuster wie etwa das Mehrheitsprinzip **Kenyan Capitalists, the State, and Development** David Himbara, 1994 *Economic Development of Africa, 1880-1939 vol 2* David Sunderland, 2024-10-28 One of the main motives for British imperialism in Africa was economic gain This collection examines the ways in which Britain developed Africa and in so doing benefited her own economy **Development and Modes of Production in Marxian Economics** A. Richards, 2013-09-27 By exploring the strengths and weaknesses of a Marxist approach to economic development this book presents a balanced treatment of development issues within the area of rational choice Marxism Economic Development

Human Development in the Era of Globalization J. K. Boyce,Keith B. Griffin,James K. Boyce,2006 This volume provides a very high quality set of papers on the relationship between globalization and human development any one with interest in this wide ranging subject matter would find the volume an interesting and engaging read Global Business Review Honoring Keith Griffin s more than 40 years of fundamental contributions to the discipline of economics the papers in this volume reflect his deep commitment to advancing the well being of the world s poor majority and his unflinching willingness to question conventional wisdom as to how this should be done Four overarching themes recur in Keith Griffin s work and this book the need to both eradicate poverty and redress inequalities in the distribution of wealth within and among nations the impact of growth on inequality and conversely inequality s impact on growth the political economy of policy making and the need for openness to heterogeneity in both analytic tools and in policy recommendations The volume begins with an introduction by the editors followed by a paper by Keith Griffin In succeeding chapters the contributors explore strategies for reducing poverty and inequality and provide perspectives on issues such as human development the rural urban divide in China and biodiversity and sustainability Students researchers policymakers and NGO analysts exploring issues in development economics development studies alternative economic systems globalization environmental sustainability inequality and well being will find this book of great interest

The Economies of Africa and Asia in the Inter-war Depression (Routledge Revivals) Ian Brown,2014-11-13 The great inter war depression has long been seen as an unprecedented economic disaster for the peoples of the non European world This book with its detailed assessment of the impact of the depression on the economies of Africa and Asia challenges the orthodox view and is essential reading for those with a teaching or research interest in the modern economic history of those continents Established specialists in the modern economic history of parts of Africa or Asia put forward a number of revisionist arguments They show that some economies were left essentially unscathed by the depression and that for many export dependent peasant communities which did face a severe drop in cash income as world commodity prices collapsed from the late 1920s there was a range of important responses and reactions by which they could defend their economic welfare For many peasant communities the depression was not a disaster but an opportunity

The Palgrave Handbook of Kenyan History Wanjala S. Nasong'o,Maurice N. Amutabi,Toyin Falola,2023-01-25 This volume covers Kenya s history society culture economics politics and environment from precolonial times through the first years of independence The book comprises twenty one chapters divided into two parts Part I focuses on the long precolonial moment detailing the nature of precolonial Kenyan societies and their economics politics gender dynamics and social organization Part II examines Kenyan societies encounters with British colonialism critically outlining the impact and implications of these encounters The volume concludes with an examination of political

consolidation after the country's attainment of political independence and the subsequent foundations for political authoritarianism

The Rise of a Party-State in Kenya Jennifer A. Widner, 2023-04-28 Although Kenya is often considered an African success story its political climate became increasingly repressive under its second president Daniel arap Moi Widner charts the transformation of the Kenya African National Union KANU from a weak loosely organized political party under Jomo Kenyatta into an arm of the president's office with watchdog youth wings and strong surveillance and control functions under Moi She suggests that single party systems have an inherent tendency to become party states or single party regimes in which the head of state uses the party as a means of control The speed and extent of these changes depend on the countervailing power of independent interest groups such as business associations farmers or professionals Widner's study offers important insights into the dynamics of party systems in Africa Although Kenya is often considered an African success story its political climate became increasingly repressive under its second president Daniel arap Moi Widner charts the transformation of the Kenya African National Union KANU from a weak loosely

Institutions and Norms in Economic Development Mark Gradstein, Kai Andreas Konrad, 2006 Experts address the development puzzle unprecedented growth coupled with unequal distribution of that growth across different countries and focus on the importance of institutional arrangements and norms and culture

The Politics of Transition in Africa Giles Mohan, Tunde Zack-Williams, 2004 Part of a series of studies that examine political issues confronting African peoples societies and states this text explores theories of the state the transition to democracy and economic development Published in association with ROAPE North America Africa World Press

Ostafrika-Bibliographie Hans Karl Hecklau, 1996

The African State in Transition Zaki Ergas, 1987-10-20 In the first twenty five years of African independence the behaviour of the African state elites has not been with a few notable exceptions conducive to self sustained development What are the reasons for this sorry state of affairs What can be done to reverse that unfortunate trend These are the two overarching questions with which this book attempts to grapple

The Development of Capitalism in Africa John Sender, Sheila Smith, 2013-05-13 First published in 1986 this work challenges underdevelopment analyses of Africa's past experiences and future prospects and builds upon a very wide range of recent historical research to argue that the impact of Capitalism has resulted in economic progress and significant improvements in living standards In marked contrast to the dependency approach they propose that the important political and economic differences between the experiences of developing countries should be stressed and analysed The argument is supported by a detailed look at the emergence since 1900 of capitalist social relations of production in nine different countries

Multi-Ethnic Coalitions in Africa Leonardo R. Arriola, 2013 Africa's long ruling incumbents stay in power because opposition politicians struggle to secure the finances required to build electoral coalitions

Political Development and the New Realism in Sub-Saharan Africa David Ernest Apter, Carl Gustav Rosberg, 1994 Since the 1950s David Apter and Carl Rosenberg have been among the leading American scholars in African Studies In this volume

they along with other major specialists in the field explore the new configurations of African politics With tentative efforts at a revival of democracy now taking place it seems appropriate to reassess the theoretical debates and empirical themes that have characterized postwar Sub Saharan African politics Focusing on new realism that has emerged among Africanists since the dismantling of colonial rule the essays are presented as a corrective both to the initial euphoria informing African studies and to the later tendency to place blame for all Africa's political and economic difficulties on the receding specter of colonial oppression *Black Africa 1945-1980* D K Fieldhouse, 2012-08-21

In what ways did economic considerations affect the decision by Britain and France to make their Black African colonies independent Why were early expectations that independence would lead to rapid and sustained economic development in Africa for the most part disappointed This title originally published in 1986 seeks to tackle these two important and strongly debated issues The main aim and value of the book is to take a broad view of this huge subject pulling together material on most parts of Black Africa south of the Sahara and north of the Limpopo so that the problem can be seen as a whole It takes account of a wide range of possible and actual factors which have influenced African economic development weaving them into a single analysis including the colonial inheritance the impact of the fluctuating international economy policies adopted by African governments and indigenous factors such as climate drought and human resources The book is written to be understood without difficulty by non specialists and is intended to act as an introduction to its subject for university students

Economic Change and Political Liberalization in Sub-Saharan Africa Jennifer A. Widner, 1994 Aims to establish the nature of the relationship between the economic challenges of the 1980s and the steps toward greater political openness taken by governments at the end of that decade **Inequality, Socio-cultural Differentiation and Social Structures in Africa** Dieter

Neubert, 2019-06-25 This book contends that conventional class concepts are not able to adequately capture social inequality and socio cultural differentiation in Africa Earlier empirical findings concerning ethnicity neo traditional authorities patron client relations lifestyles gender social networks informal social security and even the older debate on class in Africa have provided evidence that class concepts do not apply yet these findings have mostly been ignored For an analysis of the social structures and persisting extreme inequality in African societies and in other societies of the world we need to go beyond class consider the empirical realities and provincialise our conventional theories This book develops a new framework for the analysis of social structure based on empirical findings and more nuanced approaches including livelihood analysis and intersectionality and will be useful for students and scholars in African studies and development studies sociology social anthropology political science and geography
