Classics For Pleasure Michael Dirda:

Future War Christopher Coker, 2015-11-12 Will tomorrow's wars be dominated by autonomous drones and robots and warriors wired into a cybernetic network which can read their thoughts? Will war be fought with greater or lesser humanity? Will it be played out in cyberspace and further afield in Low Earth Orbit? Or will it be fought more intensely still in the sprawling cities of the developing world, the grim black holes of social exclusion on our increasingly unequal planet? Will the Great Powers reinvent conflict between themselves, or is war destined to become much smaller, both in terms of its actors and the beliefs for which they will be willing to kill? In this illuminating new book, Christopher Coker takes us on an incredible journey into the future of warfare. Focusing on contemporary trends that are changing the nature and dynamics of armed conflict, he shows how conflict will continue to evolve in ways that are unlikely to render our century any less bloody than the last. With insights from philosophy, cutting-edge scientific research, and popular culture, *Future War* is a compelling and thought-provoking meditation on the shape of war to come. *Books Are Made Out of Books* Michael Lynn

Crews, 2024-10-08 Cormac McCarthy told an interviewer for the *New York Times Magazine* that books are made out of books, but he was famously unwilling to discuss how his own writing draws on the works of other writers. Yet his novels and plays masterfully appropriate and allude to an extensive range of literary works, demonstrating that McCarthy was well aware of literary tradition and deliberately situating himself in a knowing relationship to precursors. In *Books Are Made Out of Books*, Michael Lynn Crews thoroughly mines McCarthy's literary archive to identify over 150 writers and thinkers that McCarthy referenced in early drafts, marginalia, notes, and correspondence. Crews organizes the references into chapters devoted to McCarthy's published works, the unpublished screenplay *Whales and Men*, and McCarthy's correspondence. This updated edition now examines McCarthy's final publications, the novel *The Passenger* and its play-like coda *Stella Maris*. For each work, Crews identifies authors, artists, or other cultural figures that McCarthy referenced, gives the source of the reference in McCarthy's papers, provides context for the reference as it appears in the archives, and explains the significance of the reference to the novel or play that McCarthy was working on. This groundbreaking exploration of McCarthy's literary influences vastly expands our understanding of how one of America's foremost authors engaged with the ideas, images, metaphors, and language of other thinkers and made them his own. **Volume 19, Tome II: Kierkegaard Bibliography**

Peter Šajda, Jon Stewart, 2017-03-16 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research. The large and ever-increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering, even for experienced scholars. The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications. The volume is divided into two large sections: Part I, which covers Tomes I-V, is dedicated to individual bibliographies organized according to specific language. This includes extensive bibliographies of works on Kierkegaard in

some 41 different languages Part II which covers Tomes VI VII is dedicated to shorter individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies **The Novel: An Alternative History** Steven Moore,2013-09-17

Encyclopedic in scope and heroically audacious The Novel An Alternative History is the first attempt in over a century to tell the complete story of our most popular literary form Contrary to conventional wisdom the novel did not originate in 18th century England nor even with Don Quixote but is coeval with civilization itself After a pugnacious introduction in which Moore defends innovative demanding novelists against their conservative critics the book relaxes into a world tour of the pre modern novel beginning in ancient Egypt and ending in 16th century China with many exotic ports of call Greek romances Roman satires medieval Sanskrit novels narrated by parrots Byzantine erotic thrillers 5000 page Arabian adventure novels Icelandic sagas delicate Persian novels in verse Japanese war stories even Mayan graphic novels Throughout Moore celebrates the innovators in fiction tracing a continuum between these pre modern experimentalists and their postmodern progeny Irreverent iconoclastic informative entertaining The Novel An Alternative History is a landmark in literary criticism that will encourage readers to rethink the novel **The Victorian Bookshelf** Jess Nevins,2016-05-05 This introductory

guide to the canon of Victorian literature covers 61 novels by authors from Jane Austen to Emile Zola Brief critical essays describe what each book is about and argue for its cultural historical and literary importance Literary canons remain a subject of debate but critics readers and students continue to find them useful as overviews and examinations of the great works within a given period or culture The Victorian canon is particularly rich with splendid novels that educate enlighten and entertain Instructors considering this book for use in a course may request an examination copy here [Kierkegaard Bibliography](#) Peter Šajda,Jon Bartley Stewart,2016 [99 Jumpstarts to Research](#) Peggy Whitley,Susan Williams
