Close Reading without Readings Stephen Booth, 2015-12-14 Dealing mainly with the works of William Shakespeare the essays in Close Readings without Readings reflect Stephen Booth's lifelong interest in uncovering the ways great literature works upon readers As the book's title suggests the author does not aim to create new or novel interpretations or to uncover the political agendas of literary works but to notice language patterns repetitions analogies correspondences echoes overtones and other ways in which the choice and the arrangement of words affect readers For Booth close reading is a practice of attentiveness He notices how why and in what ways Shakespeare's works affect his readers Whether readers agree with the premises of a literary work or not they subject themselves knowingly or not to its effects For Booth what we value in literature is the experience He has devoted his own work to recognizing the nature process and functions of reading literature and to teaching others to do the same Recent years have seen Booth's efforts recognized by volumes dedicated both to close reading and to his achievements as editor scholar critic and teacher
