Folk Fashion Amy Twigger Holroyd, 2017-05-23 A dynamic resurgence in sewing and knitting is under way with many people enjoying making and mending their own garments at home However stories abound of homemade clothes languishing at the back of the wardrobe Amy Twigger Holroyd draws on ideas of fashion culture and craft to explore makers lived experiences of

creating and wearing homemade clothes in a society dominated by shop bought garments Using the innovative metaphor of fashion as common land Folk Fashion investigates the complex relationship between making well being and sustainability Twigger Holroyd combines her own experience as a designer and knitter with first hand accounts from folk fashion makers to explore this fascinating yet under examined area of contemporary fashion culture Looking to the future she also considers how sewers and knitters might maximise the radical potential of their activities Classifying Fashion, Fashioning Class Katherine Appleford,2020-10-14 Drawing together theoretical ideas from across the social sciences Classifying Fashion Fashioning Class examines how the fashion class association has developed and using the experiences of middle and working class British women demonstrates how this relationship operates today Though increasingly academics argue that contemporary class distinctions are made through cultural practices and tastes few have fully explored just how individual s fashion choices mobilise class and are used in class evaluations Yet an individual s everyday dress is perhaps the most immediate marker of taste and thus an important means of class distinction This is particularly true for women as their performances of respectability femininity and motherhood are embodied by fashion and shaped by class In unpacking this fashion class relationship the book explores how fashion is used by British women to talk about class It offers important insights into the ways fashion mobilises class differences in understandings of dressing up performance and public space It considers how class identity shapes women s attitudes concerning fashion trends and classic styles and it draws attention to the pivotal role mothers play in cultivating these class distinctions The book will be of interest to students in sociology fashion studies cultural studies human geography and consumer behaviour The Material Child David
