**Discussions Volume 1** Liz Hoepfner, Adrian Wallwork, 2019-04-16

Who is it for Intermediate and advanced classes of English 16 as a foreign or second language EFL ESL in any part of the world How does it work Students discuss questions which are either in the form of a fun factual quiz or related to an authentic text quotation What is new The questions and texts break with the approach typically used in ESL EFL textbooks by presenting a new slant on some traditional topics and also offering topics that have never been found before in a discussion book Students will feel they are discussing something interesting and that the language of discussion just happens to be in English How controversial are the discussions Unlike Volume 2 and Volume 3 this volume contains no particularly risky exercises in terms of subject matter What preparation is involved for the teacher In around 90% of the exercises no preparation is required Students simply turn to the right page and away they go Details are outlined in the Teachers Introduction and the Students Introduction What is the duration of a typical exercise Depending on the students level of interest some exercises can be used as 10 minute warm ups or lesson fillers others may develop into full blown 60 minute discussions What else do I need to know The table of contents indicates which exercises might not be suitable with certain classes which require preparation by the teacher and which have a key Where can I find sample pages and the teacher's book [tefldiscussions.com](http://tefldiscussions.com)

**Elementary English Discussion Topics: Engaging ESL Activities to Develop Vocab, Confidence and Basic Conversational Skills** Nigel Mark Openshaw, 2019-03-18 The

lessons that follow can be adapted to run from 30 to 90 minutes They often start with about 5 10 minutes of free talking This can cover how the students are what they have been doing or plan to do as well as contributions from the teacher The structure of the lessons is modular with clear and obvious steps to take Everything starts with the teacher s preparation work Depending on the students ability topics might need a quick worksheet or short classroom activity at the start of the lesson and you will need to set aside time to devise this The purpose of each lesson is for students to gain confidence and increase their vocabulary by talking about different topics If they are unsure about what to do this might mean introductory work is needed first I have taught classes with anything up to twenty students using these materials The lessons are easy to adapt depending on your classroom size and level For example with a large class you can encourage smaller groups to discuss topics together and then ask students to share their ideas with the whole class Be aware of students sensitivities Some students may be a little nervous about expressing their opinions and emotions in front of the class However over time they will come to realize that everyone else feels the same and their confidence will improve
