Welchen Einfluss haben die Interessen einzelner Regierungsmitglieder auf die Formulierung der Mandate für Auslandseinsätze der Bundeswehr? Bei strukturalistischen Erklärungen deutscher Außenpolitik z.B. auf der Grundlage des Rollenkonzepts der Zivilmacht Deutschland geraten der Einfluss individueller Entscheidungsstrategien sowie innenpolitische Entscheidungsprozesse aus dem Blick. Dieser Band richtet hingegen die maßgeblichen Entscheidungsstrategien innerhalb der Bundesregierung, Bundeskanzler Außenminister und Verteidigungsminister und deren Zusammenspiel im Entscheidungsprozess in den Mittelpunkt der Untersuchung. Auf der Grundlage einer erweiterten Variante des von Graham Allison entwickelten Governmental Politics Modells werden die regierungsinternen Entscheidungsprozesse zu Einsätzen analysiert, die während der Großen Koalition unter Bundeskanzlerin Angela Merkel 2005-2009 neu beschlossen wurden. Hierzu gehören VN geführte Missionen vor der Küste des Libanon UNIFIL und im Sudan UNAMID sowie EU geführte Missionen in der Demokratischen Republik Kongo EUFOR RD Congo und am Horn von Afrika Atalanta.

Professionalization of Foreign Policy Michael Haas, 2023-10-16 This book identifies why presidents prime ministers and other leaders of countries often make blunders in foreign policy. Blunders have been recognized within the study of foreign policy but no central methodology or theory has developed to provide a way to avoid future disasters. Options are often presented to leaders of countries by advisers who do not always assess which policies will best serve national interests. Presidents prime ministers and other leaders of countries then have their legacy judged accordingly. Therefore the book reviews existing efforts at developing theories of foreign policy to determine why they have failed. Instead of allowing a discipline with a lot of competing theories to continue to flounder the book consolidates all approaches and develops a new professional format that will serve to professionalize foreign policy decision making so that fewer key decisions are ever again considered blunders.

Politische Entscheidungsprozesse und multinationale Militäreinsätze Nik Milosevic, 2018-06-11 Deutschland beteiligt sich ausschließlich an multinationalen Militäreinsätzen, die aber immer national entschieden werden. Der Autor analysiert vor diesem Hintergrund die sicherheitspolitischen Entscheidungsstrukturen Deutschlands und ausgewählte Verbündeter hinsichtlich multinationaler Militäreinsätze, vergleicht diese und bietet Handlungsmöglichkeiten zur Überwindung von ermittelten Hindernissen und Defiziten an, die zu asynchronen Entscheidungsprozessen mit den Verbündeten führen können.

**Iran's Foreign Policy** Masoud Kazemzadeh, 2020-11-25 This book analyzes both domestic and international factors that have influenced Iran's foreign policy since 1979. It looks not only at the perspectives of the ruling elite but also of civil society and opposition groups. Furthermore, it also analyzes the interactions among Iran's policies and those of regional and global powers. Since the 1979 revolution, Iran's foreign policy has appeared both threatening and puzzling. Some have described it as

ideological whereby the regime has been attempting to export its Islamist rule to neighbouring countries and challenging the international order Others consider Iran s foreign policy to be primarily pragmatic concerned with survival of the regime and expanding its power not unlike other powers in the system This book attempts to go deeper than most conventional analyses It demystifies Iran s foreign policy by describing in great detail foreign policy decision making in Iran Iran is not a one man dictatorship Rather it is rule by an oligarchy of Shia fundamentalists The regime s ideology has not been cohesive nor has it remained consistent in the past 41 years nor all members of the ruling oligarchy have articulated an identical version of it The book describes foreign policies of various factions and their leading figures as well as analysing their evolutions since 1979 It explains how various intra elite configurations of power have influenced the regime s foreign policy regarding the nuclear weapons program and the relations with the United States Iran s Foreign Policy Elite Factionalism Ideology the Nuclear Weapons Program and the United States adds fresh and critical perspectives on scholarly and policy debates on Iran s foreign policy The chapters in this book were originally published in the following journals Comparative Strategy American Foreign Policy Interests and the Terrorism Law Report Finding Faith in Foreign Policy Gregorio Bettiza,2019-06-04 Since the end of the Cold War religion has become an ever more explicit and systematic focus of US foreign policy across multiple domains US foreign policymakers for instance have been increasingly tasked with monitoring religious freedom and promoting it globally delivering humanitarian and development aid abroad by drawing on faith based organizations fighting global terrorism by seeking to reform Muslim societies and Islamic theologies and advancing American interests and values more broadly worldwide by engaging with religious actors and dynamics Simply put religion has become a major subject and object of American foreign policy in ways that were unimaginable just a few decades ago In Finding Faith in Foreign Policy Gregorio Bettiza explains the causes and consequences of this shift by developing an original theoretical framework and drawing upon extensive empirical research and interviews He argues that American foreign policy and religious forces have become ever more inextricably entangled in an age witnessing a global resurgence of religion and the emergence of a postsecular world society He further shows how the boundaries between faith and state have been redefined through processes of desecularization in the context of American foreign policy leading the most powerful state in the international system to intervene and reshape in increasingly sustained ways sacred and secular landscapes around the globe Drawing from a rich evidentiary base spanning twenty five years Finding Faith in Foreign Policy details how a wave of religious enthusiasm has transformed not just American foreign policy but the entire international system **Foreign Policy in the Twenty-First Century** Christopher Hill,2015-11-02 In the years since 9 11 followed by the wars in Iraq and Afghanistan public attention the world over has been on foreign policy From the United States to Yemen from China to Venezuela the quality of the decisions taken by politicians and diplomats has been under the closest scrutiny What is more with the increased personal mobility created by globalization many individuals and groups now focus as much on international events

as on affairs within their own state Diasporas company managers humanitarian volunteers and other non state actors are aware of the necessity for effective diplomacy to secure the outcomes they hope for This revised and retitled new edition of the author s acclaimed *The Changing Politics of Foreign Policy* provides the concepts and analysis needed to make sense of contemporary developments in this key site of political action It provides a clear and engaging synthesis of what foreign policy means in the twenty first century and shows how it can vary according to regime level of development and geopolitical position Stressing the interplay between context and shared dilemmas it examines how actors including the many non and sub state entities which have developed international strategies engage and attempt to manage their differences within a network of complex multilateral relationships Written by a leading scholar of international renown this new edition has been updated throughout with particular attention given to contemporary issues such as soft power transnational security challenges and the role of regional actors such as the European Union New to this Edition Substantially revised and updated new edition of an extremely influential acclaimed and widely used foreign policy text Updated coverage of events and theory
