Directory ,1993 Implementing an Inclusive and Equitable Pension Reform Cheolsu Kim,2012-05-31 India is ageing One
response of Indian policy makers has been introduction of the New Pension Scheme NPS a defined contribution pension
scheme which is mandatory for civil servants and voluntary for the rest of the population Given the size of the target
population even if take up is modest NPS savings may soon provide huge amounts of capital to the Indian economy However
challenges are abound What governance structure will best achieve the ultimate policy goal of serving the needs of savers
What business processes and information technology design will serve members best How effectively will the NPS attack the
problem of old age poverty In this book a multi disciplinary international team comprised of economists lawyers pension
management experts and capital market experts attempt to answer these and other questions The book proposes significant
legal regulatory and governance reforms for the NPS and other existing pension schemes as well It finds that current NPS
business practices cannot keep pace with potential growth of the system and makes suggestions on how to take better
advantage of information technology Based on review of experience elsewhere and state of the art economic demographic
modelling it warns that the NPS in its current form does not address the retirement income needs of the lifelong very poor
suggesting that it is only one in a range of responses needed to cope with the challenges of population ageing in India
