1996 02 28 Paperback:**

Automobility and the City in Twentieth-Century Britain and Japan Simon Gunn, Susan C. Townsend, 2019-08-22
Automobility and the City in Twentieth Century Britain and Japan is the first book to consider how mass motorization reshaped cities in Japan and Britain during the 20th century Taking two leading motor cities Nagoya and Birmingham as their principal subjects Simon Gunn and Susan C Townsend show how cars changed the spatial form and individual experience of the modern city and reveal the similarities and differences between Japan and Britain in adapting to the motor age The book has three main themes the place of automobility in post war urban reconstruction the emerging conflict between the promise of mobility and personal freedom offered by the car and its consequences for the urban environment the M E dilemma and the extent to which the Anglo Japanese comparison can throw light on fundamental differences in cultural understanding of the environment urbanism and the self The result is the first comparative history of mass automobility and its environmental consequences between East and West

Internal Frontiers Jon Soske, 2017-12-01 In this ambitious new history of the antiapartheid struggle Jon Soske places India and the Indian diaspora at the center of the African National Congress s development of an inclusive philosophy of nationalism In so doing Soske combines intellectual political religious urban and gender history to tell a story that is global in reach while remaining grounded in the everyday materiality of life under apartheid Even as Indian independence provided black South African intellectuals with new models of conceptualizing sovereignty debates over the place of the Indian diaspora in Africa the also colonized other forced a reconsideration of the nation s internal and external boundaries In response to the traumas of Partition and the 1949 Durban Riots a group of thinkers in the ANC centered in the Indian Ocean city of Durban and led by ANC president and Nobel Peace Prize winner Albert Luthuli developed a new philosophy of nationhood that affirmed South Africa s simultaneously heterogeneous and fundamentally African character Internal Frontiers is a major contribution to postcolonial and Indian Ocean studies and charts new ways of writing about African nationalism
