

# FINANCIAL ACCOUNTING

*for MBAs*

Easton • Wild • Halsey • McAnally

Authored by leading academics, *Financial Accounting for MBAs* prepares today's MBA students to be informed consumers of financial accounting data so that they can make the best business decisions possible.

## KEY FEATURES

### **Written for the MBA student**

Unlike other financial accounting textbooks, *Financial Accounting for MBAs* is expressly written for MBAs and is written by professors who teach financial accounting and analysis to MBAs.

### **Uses real company and industry data throughout, including assignments**

*Financial Accounting for MBAs* draws on real company and industry data throughout, including the assignments. Excerpts from annual reports and footnotes are used generously, as are company comparisons both within and across industries.

### **Examines accounting from an analysis and decision-making perspective**

This textbook examines accounting from an analysis and decision usefulness perspective because today's MBAs must understand, analyze, and interpret financial reports for business decisions.

### **Limits accounting mechanics**

*Financial Accounting for MBAs* presents the accounting techniques that a business manager must know to succeed in business, and it avoids the detailed mechanics that a CPA must know.

### **Presents materials as independent modules for teaching flexibility**

The book is divided into twelve independent modules. Individual modules can be skipped or rearranged without disrupting the learning process.

*Critical Systems Thinking and the Management of Complexity* Michael C. Jackson, 2019-03-15 From the winner of the INCOSE Pioneer Award 2022 The world has become increasingly networked and unpredictable Decision makers at all levels are required to manage the consequences of complexity every day They must deal with problems that arise unexpectedly generate uncertainty are characterised by interconnectivity and

spread across traditional boundaries Simple solutions to complex problems are usually inadequate and risk exacerbating the original issues Leaders of international bodies such as the UN OECD UNESCO and WHO and of major business public sector charitable and professional organizations have all declared that systems thinking is an essential leadership skill for managing the complexity of the economic social and environmental issues that confront decision makers Systems thinking must be implemented more generally and on a wider scale to address these issues An evaluation of different systems methodologies suggests that they concentrate on different aspects of complexity To be in the best position to deal with complexity decision makers must understand the strengths and weaknesses of the various approaches and learn how to employ them in combination This is called critical systems thinking Making use of over 25 case studies the book offers an account of the development of systems thinking and of major efforts to apply the approach in real world interventions Further it encourages the widespread use of critical systems practice as a means of ensuring responsible leadership in a complex world The INCOSE Pioneer Award is presented to someone who by their achievements in the engineering of systems has contributed uniquely to major products or outcomes enhancing society or meeting its needs The criteria may apply to a single outstanding outcome or a lifetime of significant achievements in effecting successful systems Comments on a previous version of the book Russ Ackoff the book is the best overview of the field I have seen JP van Gigch Jackson does a masterful job The book is lucid well written and eminently readable Professional Manager Journal of the Chartered Management Institute Provides an excellent guide and introduction to systems thinking for students of management
