 ,2006 Myths and Places Shonaleeka Kaul,2023-06-23 This volume explores the dialogic relationship between myths and
 places in the historically geographically and culturally diverse context of India Given its ambiguous relationship with facts
 and empirical reality myth has suffered an uncertain status in the field of professional history with the latter s preference for
 scientifism over more creative orders of representation Myths and Places rehabilitates myth not as history s primeval Other
 nor as an instrument of socio religious propagation but as communitarian mechanisms by which societies made sense of
 themselves and their world It argues that myths helped communities fashion their identities and their habitat habitus and
 were fashioned by these in turn This book explores diverse forms of territorial becoming and belonging in a grassroots
 approach from across India studying them in culturally sensitive ways to recover local life worlds and their self
 understanding Further challenging the stereotypical bracketing of the mythical with the sacred and the material with the
 historical the multidisciplinary essays in the book examine myth in relation to not only religion but other historical
 phenomena such as ecology ethnicity urbanism mercantilism migration politics tourism art philosophy performance and the
