Hi, my name is Darwin Watterson. I'm ten years old and I live in Elmore. I go to school from Monday to Friday but when I'm not at school I practice sports. My favorite sports are adventure sports, especially water sports. I practice white-water rafting, kayaking and canyoning.

I always go kayaking on Monday and on Wednesday. When I finish school and after I finish my homework I take my kayak and I go to the beach with my friend Tobias. On Tuesday and on Thursday I go white-water rafting. You need a group to do white-water rafting, it is difficult but it is really exciting. I go canyoning on Friday afternoon. Canyoning is my favorite sport; you have to go down a river canyon using your hands, legs and some ropes. You need some special equipment to practice canyoning; you need a helmet to protect your head, a wetsuit not to feel cold, ropes and harness to go down the canyon. Finally, I take a rest on the weekend to play some videogames with my brother, Gumball. He doesn't like practicing sports.

Hello, I'm Skips. I'm 300 years old and I live in the park. I have to work every day of the week, from Monday to Sunday, but, when I finish my work I have a lot of free time. In my free time I like to practice sports. I personally prefer adventure sports because those are risky. I like parachuting, bungee jumping and rock climbing.

I usually go rock climbing on Saturday or Sunday afternoon, I normally go on my own. I like climbing mountains and the solitude when you reach the top of the mountain; if you want to go climbing you need to be very strong. I go bungee jumping on Friday afternoon. You need to be very brave to jump of a cliff with just a rope attached to your feet. Finally, I have to say that my favorite sport is parachuting; I love parachuting. I always go parachuting on Thursday but, I never go at night, I always go in the morning. Parachuting is when you jump off a plane with a parachute on your back, you open it during the fall and you land gently on the floor after a couple of minutes. It feels like you were flying and I love that feeling. I went once with Mordecai but he got scared and he didn't jump. Do you want to try parachuting? You need to be very brave.

The Latest and Best of TESS ,1991 **Fachunterricht in Der Fremdsprache** British Council,1994 **Linguistics for Intercultural Education** Fred Dervin,Anthony J. Liddicoat,2013-04-24 The issue of intercultural learning has been tackled amongst others in the fields of education language education and applied linguistics In spite of the extensive literature on the subject there is still much which needs to be done to address the ways in which linguistics itself can contribute to intercultural education The 8 chapters by internationally renowned scholars highlight different ways of using it both in the classroom and in researching intercultural education The following approaches are covered Critical Discourse Analysis nonciation Conversation Analysis and Pragmatics The introduction to the volume also offers a useful and comprehensive survey of the debates around the polysemic notion of the intercultural The book will appeal to an international readership of students scholars and professionals across a wide range of disciplines interested in making intercultural education more effective [Learning a non-native language in a naturalistic environment: Insights from behavioural and neuroimaging research](#) Christos Pliatsikas,Vicky Chondrogianni,2015-09-02 It is largely accepted in the

relevant literature that successful learning of one or more non native languages is affected by a number of factors that are independent of the target language s per se these factors include the age of acquisition AoA of the target language s the type and amount of formal instruction the learners have received as well as the amount of language use that the learners demonstrate Recent experimental evidence suggests that one crucial factor for efficient native like performance in the non native language is the amount of naturalistic exposure or immersion that the learners receive to that language This can be broadly defined as the degree to which language learners use their non native language outside the classroom and for their day to day activities and usually presupposes that the learners live in an environment where their non native language is exclusively or mostly used Existing literature has suggested that linguistic immersion can be beneficial for lexical and semantic acquisition in a non native language as well as for non native morphological and syntactic processing More recent evidence has also suggested that naturalistic learning of a non native language can also have an impact on the patterns of brain activity underlying language processing as well as on the structure of brain regions that are involved expressed as changes in the grey matter structure This Research Topic brings together studies on the effects of learning and speaking a non native language in a naturalistic environment These include more efficient or native like processing in behavioural tasks tapping on language lexicon morphology syntax as well as changes in the brain structure and function as revealed by neuroimaging studies
