The well respected textbook *Pathophysiology: Concepts of Altered Health States* has now been fully adapted for Canadian undergraduate nursing and health professions students. Like the original text, this Canadian edition includes a review of anatomy and physiology and treatment information for commonly occurring disease states. Pediatric, geriatric, and pregnancy deviations are integrated throughout and highlighted with icons for easy identification. Canadian content includes Canadian healthcare statistics regarding incidence, cultural variations with a focus on native population and largest immigrant populations, Canadian research and researchers, Canadian treatment protocols and guidelines, and commonly occurring disease concerns based on Canadian statistics.

Psychiatric and Mental Health Nursing Phil Barker, 2017-07-20

The concept of the craft of caring dictates that the basis of good nursing practice is a combination of both art and science, encouraging nurses to take a holistic approach to the practice of psychiatric and mental health nursing. Supported by relevant theory, research, policy, and philosophy, this volume reflects current developments in nursing practice and the understanding of mental health disorders. The book includes case studies of patients with anxiety, schizophrenia, and bipolar disorder, as well as victims of sexual abuse, those with an eating disorder, homeless patients, and those with dementia and autism.
