Preston, 2011-09-05 The ancient world served as an unconventional source of inspiration for a generation of modernists Drawing on examples from literature dance photography and film Modernism's Mythic Pose argues that a strain of antimodern classicism permeates modernist celebrations of novelty shock and technology The touchstone of Preston's study is Delsartism the popular transnational movement which promoted mythic statue posing poetic recitation and other hybrid solo performances for health and spiritual development Derived from nineteenth century acting theorist Francois Delsarte and largely organized by women Delsartism shaped modernist performances genres and ideas of gender Even Ezra Pound a famous promoter of the new made ancient figures speak in the old genre of the dramatic monologue and performed public recitations Recovering precedents in nineteenth century popular entertainments and Delsartism's hybrid performances this book considers the canonical modernists Pound and T S Eliot lesser known poets like Charlotte Mew the Russian filmmaker Lev Kuleshov Isadora Duncan the international dance star and H D as poet and film actor Preston's interdisciplinary engagement with performance poetics modern dance and silent film demonstrates that studies of modernism often overemphasize breaks with the past Modernism also posed myth in an ambivalent relationship to modernity a halt in the march of progress that could function as escapism skeptical critique or a figure for the death of gods and civilizations

Dual Narrative Dynamics Dan Shen, 2022-12-30 Combining narratological and stylistic methods this book theorizes dual narrative dynamics consisting of plot development and covert progression and demonstrates the consequences for the interpretation of literary works In narratives with such dynamics writers work simultaneously with overt and covert trajectories of signification establishing a range of relationships between them The two parallel narrative movements may complement contradict or even subvert each other and these relationships significantly influence readers understanding not just of events but also of characters themes and aesthetic values The book provides a systematic theoretical account of such previously neglected dual narrative dynamics substantiated and enriched by the textual analysis of works by Ambrose Bierce Kate Chopin Franz Kafka and Katherine Mansfield The study explores the many ways that these authors have used dual dynamics to increase the power of their narratives In addition the book identifies the challenges such dual dynamics present not only for narratology but also for stylistics and translation studies and it develops sound and provocative proposals for meeting those challenges In taking an interdisciplinary approach this book will appeal to scholars and students in the fields of narrative and literary theory literary criticism literary stylistics and translation studies **The Encyclopedia of Epic**
