Ross, Randolph W. Westerfield, Bradford D. Jordan, Joseph Lim, Ruth Tan, 2016 **EBOOK: Behavioral Corporate Finance, 2/e** SHEFRIN, 2018-05-18 **EBOOK Behavioral Corporate Finance 2 e Corporate Finance** Seohee Park, 2020-09-03. This book will help you gain a master of business administration MBA degree. Think you've got what it takes to become a future leader? An MBA could help you achieve those goals. Intensive, competitive, and highly respected, the Master of Business Administration MBA is an elite professional qualification. This book provides best reports with good grades. Reading the papers, you can get a sense of how to write a good paper to get good grades. This is a book that tells you how to get good grades on MBA courses in the U.S. For the MBA course, students have to take a total of 36 credits. Each class is worth 3 credits, and the students should take 12 classes. It's a series of 12 books, one book for each subject. This book is a collection of best answers for the Corporate Finance subject. **Fundamentals of Investment Appraisal** Martina Röhrich, 2010-10-01. How to make sound investment decisions. This book is based on long-term experience with students, especially at the School of International Business of Bremen University of Applied Sciences. For a better understanding, a case study is constructed to illustrate all methods discussed. Written in an easily understood style, it focuses on the reality of student life as well as of practitioners. The goal of the book is to pave a sure way through the variety of methods. Mathematical basics are specifically explained in detail. This book shows clearly why there are different methods in investment appraisal and on where to focus in a given situation. As all methods are introduced by the same case study, it is easy to compare and evaluate the results. The statements in the text are further consolidated by abstracts and evaluations of each of the methods. Exercises with extensive solutions will lead to the confidence which is necessary for an ease of handling the investment appraisal techniques and for a good preparation for students' exams. German and international students at universities and other institutions of higher education will find this book an excellent systematic preparation for their exams. It is also directed toward members of the general public who need expert guidance in making professional investment decisions. Due to the increasing mobility of students and the internationalisation of many economic or business curricula, not only do German students tend to study more abroad, but also foreign students tend to study more in Germany. In German universities, the number of courses in the English language is also increasing. That is why I have written this text in English. A companion volume in German entitled *Grundlagen der Investitionsrechnung Eine Darstellung anhand einer Fallstudie* is also available. In both textbooks, the pages are constructed identically. Using both textbooks simultaneously will help those

students who still lack the necessary business vocabulary in the respective language to reasonably follow a class in English or German This book clearly closes an existing gap in the literature This is the first book in English about capital expenditure budgeting in the sense as it is usually taught in German higher education institutions As a result international students now have literature covering the contents of a course in investment appraisal in the form of an easy to read case study with easily understood graphics and notations
