Deposits: Processes, Approaches and Environmental Significance Leonardo Piccini, Eleonora Regattieri, Andrea Zerboni, Aurel Perşoiu, 2022-03-29 Building and Remembering Chris Urwin, 2023-02-28 Building and Remembering is a multidisciplinary study of how memory works in relation to the material past Based on collaborative ethnoarchaeological research carried out in Orokolo Bay Papua New Guinea Chris Urwin explores oral traditions maintained and produced in relation to artifacts and stratigraphy He shows how cultivation and construction bring people from Orokolo Bay into regular contact with pottery sherds and thin layers of black sand Both the pottery and the sand are forms of material evidence that remind people of the movements and activities of their ancestors and they help sustain stories of origins and connections The sherds remind people of the layout of their ancestors' villages and of the annual maritime visits by Motu people who came from 400 km to the east The black sand evokes events of the distant past when their ancestors created the land through magic Villagers in Orokolo Bay have intimate knowledge of the contents of the subsurface and places where people work and dig more regularly are thought of as especially ancient Here people conduct their own form of archaeology as part of everyday life This book interweaves such community constructions of the past with the emergence of large coastal villages in Orokolo Bay and across a broader span of the south coast of Papua New Guinea The villages housed dense populations and hosted elaborate masked ceremonies that could span decades When Sir Albert Maori Kiki the former Deputy Prime Minister moved to Orokolo Bay in the mid 1930s he was mesmerized by the place which appeared like a modern metropolis buzzing with noise and activity Yet little is known of when these villages originated or how they developed In this book archaeological digs and radiocarbon dating are used to gain insight into how several Orokolo Bay sites developed focusing on the key origin and migration village of Popo Village elders share their understandings of ancestral places during surveys and through oral traditions People lived in Popo for some five hundred years moving to through and from the estates expanding and at times shifting the village to access the social and subsistence benefits of coastal village life Precision agriculture for sustainability Dr John Stafford, 2018-11-06 Comprehensive review of key technologies in precision agriculture from proximal and remote sensing to decision support systems and variable rate technologies Surveys key applications of precision agriculture from controlled traffic farming to site specific nutrient and water management Includes discussion of the economics of precision agriculture *Backpacker*, 2001-03 Backpacker brings the outdoors straight to the reader's doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure
