Palczewski, 2007-06-21 The purpose behind *Communicating Gender Diversity: A Critical Approach* is not to provide any final conclusions about communicating gender Because gender is a constantly evolving concept both in terms of individuals gender identity development and the larger culture's predominant notions of gender such absolute claims are not possible Instead the intent is to better equip readers with tools with which they can examine and make sense of the intersections of communication and gender The text covers the variety of ways in which communication of and about gender and sex enables and constrains people's intersectional identities The authors believe people are social actors and as such create meaning through their symbolic interactions Thus the book's emphasis is not on how gender influences communication but on how communication constitutes gender They also believe that people are capable of being self-reflective about communication processes and creative in generating new ways to play with symbols *Handbuch Qualitative Forschung in der Psychologie*
