EU s most important objectives in pursuing unification has been to develop a common historical narrative of Europe Across ten compelling case studies this volume examines the premises underlying such a project to ask Could such an uncontested history of Europe ever exist Combining studies of national politics supranational institutions and the fraught EU Mideast periphery with a particular focus on the twentieth century the contributors to History and Belonging offer a fascinating survey of the attempt to forge a post national identity politics *Economic Imperatives for Women's Writing in Early Modern Europe* ,2018-10-22 Economic Imperatives for Women s Writing in Early Modern Europe addresses the central

question of the professionalization of women s writing before the eighteenth century from a comparatist perspective offering intriguing case studies on as yet an underdeveloped area in early modern studies **Early Modern Disputations and**

**Dissertations in an Interdisciplinary and European Context** Meelis Friedenthal,Hanspeter Marti,Robert

Seidel,2021-01-25 From the sixteenth through to the eighteenth century printed disputations were the main academic output of universities This genre is especially attractive as it deals with the most significant cultural and scientific innovations of the early modern period such as the printing revolution and the development of new methods in philosophy education and

scholarly exchange via personal networks Until recently academic disputations have attracted comparatively little scholarly attention This volume provides for the first time a comprehensive study of the early modern disputation culture both through theoretical discussions and overviews and numerous case studies that analyze particular features of disputations in various European regions

*Everyday Chaos* David Weinberger, 2019-04-23 Make More Future Artificial intelligence big data modern science and the internet are all revealing a fundamental truth The world is vastly more complex and unpredictable than we've allowed ourselves to see Now that technology is enabling us to take advantage of all the chaos it's revealing our understanding of how things happen is changing and with it our deepest strategies for predicting preparing for and managing our world This affects everything from how we approach our everyday lives to how we make moral decisions and how we run our businesses Take machine learning which makes better predictions about weather medical diagnoses and product performance than we do but often does so at the expense of our understanding of how it arrived at those predictions While this can be dangerous accepting it is also liberating for it enables us to harness the complexity of an immense amount of data around us We are also turning to strategies that avoid anticipating the future altogether such as A/B testing Minimum Viable Products open platforms and user modifiable video games We even take for granted that a simple hashtag can organize unplanned leaderless movements such as MeToo Through stories from history business and technology philosopher and technologist David Weinberger finds the unifying truths lying below the surface of the tools we take for granted and a future in which our best strategy often requires holding back from anticipating and instead creating as many possibilities as we can The book's imperative for business and beyond is simple Make More Future The result is a world no longer focused on limitations but optimized for possibilities
