E. J. Josey Renate L. Chancellor, 2020-02-07 This work provides a comprehensive examination of the life and professional career of E J Josey within the broader historical and political landscape of the civil rights movement In the era of Jim Crow Josey rose to prominence in the library profession by challenging the American Library Association ALA to live up to its creed of equality for all This was not easy during the 1950s and 1960s during segregation Using interviews with Josey and his contemporaries as well as several archival sources library educator Renate Chancellor analyzes Josey's leadership particularly within modern day racial currents During his professional career spanning over fifty years 1952 2002 Josey worked as a librarian 1953 1966 an administrator of library services 1966 1986 and as a professor of library science 1986 1995 He also served as President of the American Library Association and perhaps his most notable achievement he successfully drafted a resolution that prevented state library associations from discriminating against African American librarians This essentially ended

segregation in the ALA Josey's transformative leadership provides a model to tackle today's civil rights challenges both in and outside the library profession. This authoritative work, copublished by the Association for Library and Information Science Education (ALISE), documents for the historical record a significant period of history that is underexplored in the scholarly literature. The target audience for this book are researchers, historians, LIS educators, and students interested in understanding the complex struggle for civil and human rights in professional organizations.

Pioneers in Librarianship
 Christian A. Nappo, 2024-02-28
Pioneers in Librarianship profiles sixty notable librarians who made significant contributions to the field. Librarians chosen for inclusion in this volume met one or more of these three criteria: The librarian conceived a new method for improving library services; invented their own method of book cataloging; or devised an administrative system for libraries to operate under. The librarian is historically famous because he/she was notable historically. The librarian was the first woman or minority to make significant achievements within the field of LIS. The achievements of the librarians profiled here are important because they shaped the field. Many of their theories, ideas, and contributions are still being utilized in libraries today. Librarians profiled here include Melvil Dewey, Carla Hayden, S. R. Ranganathan, Justin Winsor, Charles Coffin Jewett, Katharine Sharp, Pura Belpré, Allie Beth Martin, and John Cotton Dana.

Introduction to Information Science
 David Bawden, Lyn Robinson, 2015-06-10
 This landmark textbook takes a whole subject approach to Information Science as a discipline. Introduced by leading international scholars and offering a global perspective on the discipline, this is designed to be the standard text for students worldwide. The authors' expert narrative guides you through each of the essential building blocks of information science, offering a concise introduction and expertly chosen further reading and resources. Critical topics covered include foundations, concepts, theories, and historical perspectives; organising and retrieving information; information behaviour; domain analysis; and digital literacies, technologies, digital libraries, and information management; information research methods and informetrics; changing contexts; information society; publishing, e-science, and digital humanities; the future of the discipline. Readership: Students of information science; information and knowledge management; librarianship; archives and records management; worldwide. Students of other information-related disciplines such as museum studies, publishing, and information systems; and practitioners in all of these disciplines.

Library Information Management: Principles, Practices, and Future Trends
 Dr. Savita Mittal, *Library Information Management: Principles, Practices, and Future Trends* is a comprehensive, well-structured guide that explores the core principles, practical methods, and emerging trends in managing information within library settings. Designed for students, librarians, educators, and information professionals, this book addresses the changing landscape of library services in the digital era. It covers essential topics such as information organization, collection development, digital resource management, user services, policy formulation, and the integration of new technologies. The book also discusses future-focused themes like artificial intelligence, data analytics, and user-centric service models. Clear, relevant, and up-to-date, this book serves as a valuable resource for

understanding applying and advancing best practices in modern library and information management *Library and Information Science* Michael F.
