Jakob de Haan,Sander Oosterloo,Dirk Schoenmaker,2015-06-18 Now in its third edition this successful textbook insightfully analyses the global financial system from a European perspective The Local Economy Solution Michael

Shuman,2015-06-09 Reinventing economic development as if small business mattered In cities and towns across the nation economic development is at a crossroads A growing body of evidence has proven that its current cornerstone incentives to attract and retain large globally mobile businesses is a dead end Even those programs that focus on local business through buy local initiatives for example depend on ongoing support from government or philanthropy The entire practice of economic development has become ineffective and unaffordable and is in need of a makeover The Local Economy Solution suggests an alternative approach in which states and cities nurture a new generation of special kinds of businesses that help local businesses grow These cutting edge companies which Shuman calls pollinator businesses are creating jobs and the conditions for future economic growth and doing so in self financing ways Pollinator businesses are especially important to communities that are struggling to lift themselves up in a period of economic austerity when municipal budgets are being slashed They also promote locally owned businesses that increase local self reliance and evince high labor and environmental standards The book includes nearly two dozen case studies of successful pollinator businesses that are creatively facilitating business and neighborhood improvements entrepreneurship local purchasing local investing and profitable business partnerships Examples include Main Street Genome which provides invaluable data to improve local business performance Supportland which is developing a powerful loyalty card for local businesses and Fledge a business accelerator that finances itself through royalty payments It also shows how the right kinds of public policy can encourage the spread of pollinator businesses at virtually no cost **Innovation in Financial Services** Lech Gąsioriewicz,Jan Monkiewicz,2020-10-29 This

book delves into the many innovative changes that the financial industry has undergone in recent years The authors investigate these developments in a holistic manner and from a wide range of perspectives both public and private business and consumer regulators and supervisors Initially they set the framework of their analysis by discussing innovation cycles in financial services Thereafter they tackle the issue of financial innovations and their consequences for financial stability They then review the new approaches to financial consumers protection which emerged in the aftermath of the global financial crisis The authors underline the fact that this new approach is heavily influenced by the recent innovative drive in the financial industry Next they switch their attention to the public sector examining the innovative processes in monetary policy

and central banks structural innovations in the supervisory models and systems and they assess some specific supervisory challenges regarding blockchain and the application of mathematics in the supervisory capacity Additionally the book examines a range of issues related to the private sector such as recent developments regarding risk transferring mechanisms on the financial market artificial intelligence and natural language processing for regulatory filings the development of process management in insurance companies and other innovative products on the market Finally Innovation in Financial Services discusses how the digital transformation of the financial system impacts the interaction between the public and private sectors The book is intended for graduate and postgraduate level students researchers public sector officers as well as financial sector practitioners

*The Digital Revolution in Banking, Insurance and Capital Markets* Lech Gąsioriewicz, Jan Monkiewicz, 2023-02-22 The digital transformation of finance and banking enables traditional services to be delivered in a more effective and efficient way but at the same time presents crucial issues such as fast growing new asset classes new currencies datafication and data privacy algorithmization of law and regulation and last but not least new models of financial crime This book approaches the evolution of digital finance from a business perspective and in a holistic way providing cutting edge knowledge of how the digital financial system works in its three main domains banking insurance and capital markets It offers a bird's eye view of the major issues and developments in these individual sectors The book begins by examining the wider framework of the subsequent analysis and over the next three parts discusses the opportunities risks and challenges facing the digitalization of these individual financial subsectors highlighting the similarities and differences in their digitalization agenda as well as the existing linkages and dependencies among them The book clarifies the strategic issues facing the development of digital finance in these major subsectors over the coming years The book has three key messages that digital transformation changes fundamentally the way financial businesses operate that individual trades have their own digitalization agenda and that the state with its regulatory power and central banking and money has a particularly important role to play It will be of interest to scholars students and researchers of finance and banking as well as policymakers wishing to understand the values and limitations of new forms of digital money

*The Digitalisation of African Agriculture Report 2018-2019* Tsan, Michael, Totapally, Swetha, Hailu, Michael, Addom, Benjamin K., 2019-06-30 An inclusive digitally enabled agricultural transformation could help achieve meaningful livelihood improvements for Africa's smallholder farmers and pastoralists It could drive greater engagement in agriculture from women and youth and create employment opportunities along the value chain At CTA we staked a claim on this power of digitalisation to more systematically transform agriculture early on Digitalisation focusing on not individual ICTs but the application of these technologies to entire value chains is a theme that cuts across all of our work In youth entrepreneurship we are fostering a new breed of young ICT agripreneurs In climate smart agriculture multiple projects provide information that can help towards building resilience for smallholder farmers And in women empowerment we are supporting digital platforms to drive greater inclusion for women
