Washington, 2015-03-02 Sociological Perspectives on Sport The Games Outside the Games seeks not only to inform students about the sports world but also to offer them analytical skills and the application of theoretical perspectives that deepen their awareness and understanding of social processes linking sports to the larger social world With six original framing essays linking sport to a variety of topics including race class gender media politics deviance and globalization and 37 reprinted articles this text reader sets a new standard for excellence in teaching sports and society **Sociological Understandings of Teachers' Emotions: A Short Introduction, Critical Review, and the Way Forward** Kwok Kuen Tsang, 2015-02 Teachers emotions have been issues drawing the attentions of educational scientists Since teachers emotions has been regarded as a psychological phenomenon the educational scientists explain how teachers feel and how their feelings affect educational process with psychological theories However more and more

educational scientists note that teachers emotions are socially constructed and the social construction of teachers emotions is not explained by the psychological theories As a result they switch their theoretical perspectives from psychology to sociology In the literature the sociological theories they have employed include the labor process theory theory of bureaucracy emotional labor theory post structuralism theory of emotional geographies and identity theory Nevertheless each of the theories has some limitations Therefore the goals of this book is to 1 introduce and review the sociological theories which are applied to explain teachers emotions critically and 2 propose a sociological framework and research agenda for further studies based on the critically review

Critical Theories of Anti-Semitism Jonathan Judaken, 2024-06-04

Despite its persistence and viciousness anti-Semitism remains undertheorized in comparison with other forms of racism and discrimination How should anti-Semitism be defined What are its underlying causes Why do anti-Semites target Jews In what ways has Judeophobia changed over time What are the continuities and disconnects between medieval anti-Judaism and the Holocaust How does criticism of the state of Israel relate to anti-Semitism And how can social theory illuminate the upsurge in attacks on Jews today Considering these questions and many more this book is at once a philosophical reflection on key problems in the analysis of anti-Semitism and a history of its leading theories and theorists Jonathan Judaken explores the methodological and conceptual issues that have vexed the study of Judeophobia and calls for a reconsideration of the definitions categories and narratives that underpin overarching explanations He traces how a range of thinkers have wrestled with these challenges examining the theories of Jean-Paul Sartre the Frankfurt School Hannah Arendt and Jean-François Lyotard alongside the works of sociologists Talcott Parsons and Zygmunt Bauman and historians Leon Poliakov and George Mosse Judaken argues against claims about the uniqueness of Judeophobia demonstrating how it is entangled with other racisms Islamophobia Negrophobia and xenophobia Critical Theories of Anti-Semitism not only urges readers to question how they think about Judeophobia but also draws them into conversation with a range of leading thinkers whose insights are sorely needed in this perilous moment
