G20 High Level Principles On Beneficial Owner Transparency

Bartosz Makowicz

G20 High Level Principles On Beneficial Owner Transparency:

Beneficial Ownership and Legal Responsibility Paul Beckett, 2024-03-12 This book explores the connection between ownership on one hand and immunity from legal responsibility on the other. It presents a definition of the concept of beneficial ownership, the reasons for its concealment and failures in international legal structures and arrangements. Globally, states confront complex crimes such as corruption, tax evasion, doctrinal fanaticism, slave trafficking, terrorism, and war. At the personal level, men and women may seek to escape their creditors, to disinherit unwanted heirs, to cheat divorced partners, and to appear straightforward when this is not the case. The response of politicians and regulators has been a global state initiative to identify beneficial owners via public registers to promote transparency and accountability. Yet at the same time, there is an equally powerful global and personal counter initiative to promote beneficial ownership avoidance. Where there is no owner, there is no accountability. This book examines what ownership means in legal terms across multiple legal systems and explains why singling out ownership as being pivotal to state and personal accountability is a strategy both flawed and disingenuous. It is argued that an apparent lack of political will coupled with shape shifting definitions of ownership have resulted in tokenism. Particular attention is paid to those orphan structures which have evolved from standard models or which have been designed for the purpose in each case of facilitating ownership concealment and avoidance. The author explains how the virtual world of the blockchain, crypto assets, and cryptocurrency and virtual entities such as the Decentralised Autonomous Organisations (DAOs), all of which elude legal classification, have opened a new world of possibilities. Applicable across all jurisdictions and legal systems, the book will be a valuable resource for academics, researchers, and policy makers working in the areas of financial crime, regulation, compliance, business, and accountancy.

Ownership, Financial Accountability and the Law Paul Beckett, 2019-05-08 There is something visceral about ownership. This is mine, you can't have it. This is mine, you can share it. This is ours. Try to find it. Contemporary literature and investigative journalism are showing that the scale of the problem of tax evasion, money laundering, organised crime, terrorism, bribery, corruption, and gross human rights abuses is vast. Ownership, specifically the quest to identify beneficial owners, has been chosen by national and international regulators as the touchstone, the litmus test in the fight back. An owner, by definition, must possess something for which they are financially accountable. But what is meant by ownership? This book explains why ownership is pivotal to accountability and what ownership means in common law, civil law, and Shariah law terms. It looks in detail at State, regional, and international transparency strategies and at an equally powerful global private counter initiative to promote beneficial ownership avoidance through the use of so-called orphan structures. Where there is no owner, there is no accountability. The distinction between privacy and legitimate confidentiality on the one hand and concealment on the other is explained with reference to commercial and trade law and practice, principles of corporate governance, and applicable business, human rights. This book introduces one further counter initiative, the phenomenon of

transient ownership made possible through the use of cryptocurrency and the blockchain The study concludes with a blueprint for action with recommendations addressed to states international organisations practitioners and other stakeholders

Transparency of Stock Corporations in Europe Vassilios Tountopoulos, Rüdiger Veil, 2019-12-12 This edited collection explores transparency as a key regulatory strategy in European business law It examines the rationales limitations and further perspectives on transparency that have emerged in various areas of European law including corporate law capital markets law and accounting law as well as other areas of law relevant for European listed stock corporations This book presents a clear and accurate picture of the recent reforms in the European transparency regime In doing so it endorses a multi dimensional notion of transparency highlighting the need for careful consideration and contextualisation of the transparency phenomenon In addition the book considers relevant enforcement mechanisms and discusses the implications of disparate enforcement concepts in European law from both the private and public law perspectives Written by a team of distinguished contributors the collection offers a comprehensive analysis of the European transparency regime by discussing the fundamentals of transparency the role of disclosure in European business law and related enforcement questions

Beneficial Ownership Transparency in Asia and the Pacific Asian Development Bank, 2022-12-01 This publication examines beneficial ownership transparency in nine countries in Asia and the Pacific and explains how overcoming hurdles to ensure the full disclosure of company ownership is key to cracking down on crime and corruption Focusing on countries including Armenia Mongolia and the Philippines it offers a breakdown of relevant international standards and details challenges related to accurate data verification collection and disclosure It highlights best practices provides practical recommendations and shows why a multipronged approach to cross checking ownership information can help reduce money laundering terrorism financing tax evasion and other economic crimes

An Anatomy of Tax Havens Paul R. Beckett, 2023-10-24 Tax havens in offshore lands like Switzerland the Cayman Islands and the Bahamas were once considered a rarity the preserve of the super rich Today they are big business available to the masses Their goal To avoid any form of accountability Own nothing Possess everything Be answerable to no one Where are these tax havens What forms can they take What future lies in store for them and why should we care An Anatomy of Tax Havens Europe the Caribbean and the United States of America answers these questions and more in the first comparative study in one volume of European Caribbean and United States tax havens It examines their simple origin to the extreme forms some take today delving into the murky subculture that has deliberately made them impenetrably obscure Uniquely it combines detailed technical expertise regulatory regimes financial crime legal and equitable structuring with an analysis of their impact on domestic and global political economic environmental and social concerns An Anatomy of Tax Havens is a fascinating informative read for a broad readership from legal accountancy and tax practitioners to compliance regulators law enforcement agencies and students and researchers interested in business studies taxation and crime

G20 Contribution to the 2030 Agenda

Progress and Way Forward OECD, United Nations Development Programme, 2019-09-07 As the world's premier forum for international economic co-operation the G20 plays a critical role in helping to achieve the 2030 Agenda for Sustainable Development Based on robust evidence and available data this report examines how the G20's contributions to the global goals across key sectors are already making a difference while also suggesting where it could go further in leading by example to support the global goals Collectively G20 members account for around 85% of global gross domestic product 75% of world trade and 80% of global carbon dioxide emissions to name just a few areas of the G20's influence This report commissioned by the Government of Japan in support of its 2019 G20 Presidency takes stock of the G20's progress to date against its Action Plan on the 2030 Agenda for Sustainable Development

Beneficial Ownership in Tax Law and Tax Treaties Pablo A Hernández González-Barreda, 2020-05-28 This book explores the concept of beneficial ownership in equity law the domestic tax laws of the United Kingdom Canada and the United States as well as its varied and increasing uses in international tax law By analysing the evolution of beneficiary rights in equity and the use of beneficial ownership wording in tax law the book draws a roadmap for dealing with beneficial ownership in both national and international tax law This approach highlights those common misconceptions that can be avoided by understanding the origins of the concept and its engagement with equity as well as the differences with tax law However the book does not limit itself to dealing with theoretical discussion but also offers an instructive and detailed practical case study Offering both academic commentary and a practitioner focus the book will be of the utmost interest to scholars and practitioners from common and civil law countries dealing with tax and estate law particularly given beneficial ownership's increasing relevance

[The Comparative Law Yearbook of International Business](#) Dennis Campbell, 2016-04-24 In this thirty ninth volume of the Comparative Law Yearbook of International Business practitioners and experts in various legal fields from Belgium Canada Germany the Isle of Man Japan New Zealand Romania South Africa and the United States examine issues from national and regional perspectives Authors from New Zealand and South Africa review matters pertaining to cybercrime and cybersecurity law and employee use of social networking sites Under the heading Corporate Law practitioners from the United States Canada the Isle of Man and Romania deal with issues such as transfer of business choice of law regarding intermediated securities beneficial ownership of companies and shareholder activism Finally authors from Belgium and Japan treat best efforts clauses and copyright protection of digital rights management

Terrorism and Transatlantic Relations Klaus Larres, Tobias Hof, 2021-11-27 This book explores the development of transatlantic policy on international terrorism and assesses the situation today It takes an interdisciplinary approach to terrorism and transatlantic relations bringing together experts from contemporary history political science military strategy psychology law and security Looking back to the roots of modern terrorism from the late 70s to 9/11 and beyond the volume evaluates how attitudes and approaches have changed over this period It analyses potential solutions for finding a shared philosophy to counter the threat of transnational terrorism in the

US and Europe against a rapidly changing political landscape Chapters cover a range of topics including the psychology of terrorism online propaganda domestic terrorism terrorism and finance and cyber security

The Transnationalization of Anti-Corruption Law Régis Bismuth, Jan Dunin-Wasowicz, Philip M. Nichols, 2021-05-27 The last twenty years have witnessed an astonishing transformation the fight against corruption has grown from a handful of local undertakings into a truly global effort Law occupies a central role in that effort and this timely book assesses the challenges faced in using law as it too morphs from a handful of local rules into a global regime The book presents the perspectives of a global array of scholars of policy makers and of practitioners Topics range from critical theoretical understandings of the global regime as a whole to regional and local experiences in implementing and influencing the regime including specific legal techniques such as deferred prosecution agreements addressing corruption issues in dispute resolution whistleblower protection civil and administrative prosecutions as well as blocking statutes The book also includes discussions of the future shape of the global regime the emergence of transnational compliance standards and discussions by leaders of international organizations that take a leading role in the transnationalization of anti corruption law The Transnationalization of Anti Corruption Law deals with the most salient aspects of the global anti corruption regime It is written by people who contribute to the structure of the regime who practice within the regime and who study the regime It is written for anyone interested in corruption or corruption control in general anyone with a general interest in jurisprudence or in international law and especially anyone who is interested in critical thinking and analysis of how law can control corruption in a global context

Corruption in Commercial Enterprise Liz Campbell, Nicholas Lord, 2018-04-17 This edited collection analyses from multiple disciplinary perspectives the issue of corruption in commercial enterprise across different sectors and jurisdictions Corruption is commonly recognised as a major social bad and is seriously harmful to society in terms of the functioning and legitimacy of political economic systems and the day to day lives of individuals There is nothing novel about bribes in brown envelopes and dubious backroom deals ostensibly to grease the wheels of business Corrupt practices like these go to the very heart of illicit transacting in both legal markets such as kickbacks to facilitate contracts in international commerce and illegal markets such as payoffs to public officials to turn a blind eye to cross border smuggling Aside from the apparent pervasiveness and longevity of corruption in commercial enterprise there is now renewed policy and operational attention on the phenomenon prompting and meriting deeper analysis Corruption in commercial enterprise encompassing behaviours often associated with corporate and white collar crime and corruption in criminal commercial enterprise where we see corruption central to organised crime activities are major public policy issues This collection gives us insight into their nature organisation and governance and how to respond most appropriately and effectively

Unmasking Control International Monetary Fund, Francisca Fernando, Mr. Richard Berkhout, 2022-10-07 This book is a guide for practitioners policymakers and other researchers to establish comprehensive frameworks for holding beneficial ownership information

Offshore Financial

Centres and the Law Dominic Thomas-James, 2021-07-15 This book considers the ability of island jurisdictions with financial centres to meet the expectations of the international community in addressing the threats posed to themselves and others by their innocent or otherwise facilitation of the receipt of suspect wealth In the global financial architecture British Overseas Territories are of material significance Through their inalienable right to self determination many developed offshore financial centres to achieve sustainable economic development Focusing on Bermuda Turks and Caicos and Anguilla the book concerns suspect wealth emanating from financial crimes including corruption money laundering and tax evasion as well as controversial conduct like tax avoidance This work considers the viability of international standards on suspect wealth in the context of the territories how willing or able they are to comply with them and how their financial centres can better prevent receipt of suspect wealth While universalism is desirable in the modern approach to tackling suspect wealth a one size fits all approach is inappropriate for these jurisdictions On critically evaluating their legislative and regulatory regimes the book advances that they demonstrate willingness to comply with international standards However their abilities and levels of compliance vary In acknowledging the facilitatively harmful role the territories can play this work draws upon evidence of implication in transnational financial crime cases Notwithstanding this the book questions whether the degree of criticism that these offshore jurisdictions have encountered is warranted in light of apparent willingness to engage in the enactment and administration of internationally accepted laws and cooperate with international institutions **OECD Development**

Policy Tools Corruption in the Extractive Value Chain Typology of Risks, Mitigation Measures and Incentives

OECD, 2016-08-18 This report is intended to help policy makers law enforcement officials and stakeholders strengthen prevention efforts at both the public and private levels through improved understanding and enhanced awareness of corruption risk and mechanisms *Tax Havens and International Human Rights* Paul Beckett, 2017-10-02 This book sails in uncharted waters It takes a human rights based approach to tax havens and is a detailed analysis of structures and the laws that generate and support these It makes plain the unscrupulous or merely indifferent ways in which using tax havens businesses and individuals systematically undermine and for all practical purposes eliminate access to remedies under international human rights law It exposes as abusive of human rights a complex structural web of trusts companies partnerships foundations nominees and fiduciaries secrecy immunity and smoke screens It also lays bare the cynical manipulation by tax havens of traditional legal forms and conventions and the creation of entities so bizarre and chimeric that they defy classification Yet from the perspective of the tax havens themselves these are entirely legitimate the product of duly enacted domestic laws This book is not a work of investigative journalism in the style of the Pulitzer Prize winning authors of *The Panama Papers* exposing political or financial corruption money laundering or the financing of terrorism All those elements are present of course but the focus is on international human rights and how tax havens do not merely facilitate but actively connive at their breach The tax havens are compromising the international human rights legal

G20 High Level Principles On Beneficial Owner Transparency Introduction

In the digital age, access to information has become easier than ever before. The ability to download G20 High Level Principles On Beneficial Owner Transparency has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download G20 High Level Principles On Beneficial Owner Transparency has opened up a world of possibilities. Downloading G20 High Level Principles On Beneficial Owner Transparency provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading G20 High Level Principles On Beneficial Owner Transparency has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download G20 High Level Principles On Beneficial Owner Transparency. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading G20 High Level Principles On Beneficial Owner Transparency. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading G20 High Level Principles On Beneficial Owner Transparency, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download G20 High Level Principles On Beneficial Owner Transparency has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it

is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About G20 High Level Principles On Beneficial Owner Transparency Books

1. Where can I buy G20 High Level Principles On Beneficial Owner Transparency books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores.
