[Africa's trade facilitation preparedness & ethical property rights](#) Gbadebo Odularu, Bamidele Adekunle, Caiphas Chekwoti, 2024-05-01 With the AfCFTA in force and several regional integration initiatives ongoing in Africa effective

implementation promises an economic growth and development trajectory that defines the Africa we want as posited by the African policymakers within the context of the African Union's Agenda 2063. This is more evident with emerging dynamics characterised by unprecedented shocks and fast paced evolution in the digital space. The implications of these dynamics beckon a rethinking of the strategies for riding on and above the wave. This book delves into some of the policy intricacies and generates both insights on emerging shocks, digitalisation, intellectual property rights and raises interesting issues for further reflection. It is a great read that illuminates critical trade issues with important policy implications. *Strategic Optionality* Surja Datta, Tobias Kutzewski, 2023-01-18. This book offers a fresh approach to strategy by examining the idea of Optionality. Optionality is the right but not the obligation to take an action. Built on historic military tactics, static engineering principles and equilibrium seeking economics, conventional strategic thinking suffers some weaknesses, principal of which is its inability to deal with conditions of high uncertainty. This book begins by dividing the business landscape into three distinct domains: 1. Fragile, 2. Robust and 3. Long shot. FRL which alert us to the context specificity of strategy tools before suggesting that theoretical lenses are required to understand and implement strategy in VUCA (Volatile, Uncertain, Complex and Ambiguous) domains. The authors explore the concept and methodology of Optionality in order to demonstrate how it can be used in conjunction with existing strategy tools in order to achieve competitive success. It will be of great interest to academics and students of strategy and innovation. Marketing Strategy and Competitive Positioning Graham J.

Hooley, John A. Saunders, Nigel Piercy, 2004. *Marketing Strategy and Competitive Positioning* deals with the process of developing and implementing a marketing strategy. The third edition focuses on competitive positioning at the heart of marketing strategy and includes in depth discussion of the processes used in marketing to achieve competitive advantage.

Transfer Pricing and Value Creation Raffaele Petruzzi, Romero J.S. Tavares Esq., 2019-09-02. Value Creation and its effects on Transfer Pricing and tax law. Emerging from the OECD G20 BEPS Project, a new somewhat fuzzy notion of Value Creation came to permeate not only Transfer Pricing language but also wider allocation rules and anti abuse provisions in international tax law. The notion of Value Creation reframes the interpretation and application of the Arm's Length Principle (ALP) that is embedded in Articles 7 and 9 of the OECD Model Convention. This new Value Creation notion and approach assist in understanding key enterprise functions while different industry sectors manifest these concepts in various ways. Situating such notions and this approach within the law of tax treaties and analyzing terms of the OECD Transfer Pricing Guidelines alongside their factual context is the aim of this book. Here law students address Transfer Pricing and Value Creation in sectors as varied as commodities, trade, automotive, consumer products, food and beverages, pharmaceutical and life sciences, telecommunications and the key topic of value creation in a digitalized economy. Our LL.M students were required to address issues not explored in legal research and to discuss factual topics relevant for Transfer Pricing. All students focused on topics that are new to the international tax debate that keep evolving and on factual matters that often escape legal research.

Global Business Riad A. Ajami, G. Jason Goddard, 2017-10-12 Globalization has been under extreme pressure in the wake of the financial crisis. Multinational firms are weighing the costs and benefits of international scale and scope and are increasingly under pressure to hire local to source local and to pay taxes domestically. At the same time, global competitive pressures have intensified. This book reviews international business practices from the multinational firm perspective and provides pathways forward concerning competitiveness and sustainability in global markets. What sets this book apart from others is that the benefits and pitfalls of globalization are addressed. Chapter coverage focuses on the functional areas of the business and how they are impacted by international expansion. Practical case studies supplement chapter coverage and highlight both positive and negative developments in the global business arena. Readers should expect to be challenged on what will be the limits of the multinational firm in the future and how multinational firms can continue to prosper while at the same time adhere to sustainable business initiatives. Equally useful to both undergraduate and graduate students of international business as well as professional development programs, *Global Business: Competitiveness and Sustainability* provides a necessary tonic for dealing with today's troubled seas of globalization.
