these works to meet readers in the West In this anthology the works of Turkish science fiction writers are brought together for the first time in English Contemporary science fiction writers have written short stories for this anthology Hence the resulting diversity of stories represents a contribution to science fiction literature An important feature of the anthology is that it includes examples showing how science and technology are perceived philosophically by authors outside of Europe and America Since literature is an indispensable resource to investigate the equivalent of science fiction which was born with modernism in post modern societies This anthology of Turkish science fiction will be an important Non Western SF source for both science fiction readers and researchers
