therapy can be expanded to provide effective treatment in web based sessions This is a vital guide for any clinician working in play therapy in the 21st century *Cognitive-Behavioral Play Therapy* Susan M. Knell,1995-10-01 Cognitive Behavioral Play Therapy CBPT incorporates cognitive and behavioral interventions within a play therapy paradigm It provides a theoretical framework based on cognitive behavioral principles and integrates these in a developmentally sensitive way Thus play as well as verbal and nonverbal approaches are used in resolving problems CBPT differs from nondirective play therapy which avoids any direct discussion of the child s difficulties A specific problem solving approach is utilized which helps the child develop more adaptive thoughts and behaviors Cognitive behavioral therapies are based on the premise that cognitions determine how people feel and act and that faulty cognitions can contribute to psychological disturbance Cognitive behavioral therapies focus on identifying maladaptive thoughts understanding the assumptions behind the thoughts and learning to correct or counter the irrational ideas that interfere with healthy functioning Since their development approximately twenty five years ago such therapies have traditionally been used with adults and only more recently with adolescents and children It has commonly been thought that preschool age and school age children are too young to understand or correct distortions in their thinking However the recent development of CBPT reveals that cognitive strategies can be used effectively with young children if treatments are adapted in order to be developmentally sensitive and attuned to the child s needs For example while the methods of cognitive therapy can be communicated to adults directly these may need to be conveyed to children indirectly through play activities In particular puppets and stuffed animals can be very helpful in modeling the use of cognitive strategies such as countering irrational beliefs and making positive self statements CBPT is structured and goal oriented and intervention is directive in nature Creative Interventions with Traumatized Children Cathy A. Malchiodi,2008-01-08 Rich with case material and artwork samples this volume demonstrates a range of creative approaches for facilitating children s emotional reparation and recovery from trauma Contributors include experienced practitioners of play art music movement and drama therapies bibliotherapy and integrative therapies who describe step by step strategies for working with individual children families and groups The case based format makes the book especially practical and user friendly Specific types of stressful experiences addressed include parental loss child abuse accidents family violence bullying and mass trauma Broader approaches to promoting resilience and preventing posttraumatic problems in children at risk are also presented **Integrating Play Techniques in Comprehensive School Counseling Programs** Jennifer Curry,Laura Fazio-Griffith,2013-05-01 Play therapy interventions are critical elements of providing responsive services within the context of comprehensive school counseling programs However many school counselors are not trained in the use of play therapy techniques during their graduate training programs as Play Therapy is not a required course based on standards set by the Council for Accreditation of Counseling and Related Education Programs CACREP 2009 Indeed while there are over 400 school counseling programs in the U S there are only 11 certified play therapy training

centers Even more critically school counselors may not know which play therapy approaches and interventions are evidenced based for specific childhood concerns e g selective mutism social skills deficits parent deployment Play therapy is a structured theoretically based approach to counseling that builds on the normal communicative and learning processes of children as they may not have developed the complexities of language to accurately express their concerns Carmichael 2006 Gil 1991 Landreth 2002 O Connor yet many school counselors are unprepared to provide these vital resources The focus of this book is on various play techniques and the application of various play therapy theories i e Child Centered Play Therapy Solution Focused Play Therapy Cognitive Behavioral Play Therapy within comprehensive school counseling programs addressing various childhood concerns prevention and intervention Each chapter offers vignettes a literature review of a specific childhood concern e g homelessness separation anxiety pragmatic interventions for the school environment and a case study to demonstrate application of techniques
