Drug Use for Grown-Ups Dr. Carl L. Hart, 2021-01-12 Hart's argument that we need to drastically revise our current view of illegal drugs is both powerful and timely when it comes to the legacy of this country's war on drugs we should all share his outrage The New York Times Book Review From one of the world's foremost experts on the subject a powerful argument that the greatest damage from drugs flows from their being illegal and a hopeful reckoning with the possibility of their use as part of a responsible and happy life Dr Carl L Hart Ziff Professor at Columbia University and former chair of the Department of Psychology is one of the world's preeminent experts on the effects of so called recreational drugs on the human mind and body Dr Hart is open about the fact that he uses drugs himself in a happy balance with the rest of his full and productive life as a researcher and professor husband father and friend In Drug Use for Grown Ups he draws on decades of research and his own personal experience to argue definitively that the criminalization and demonization of drug use not drugs themselves have been a tremendous scourge on America not least in reinforcing this country's enduring structural racism Dr Hart did not always have this view He came of age in one of Miami's most troubled neighborhoods at a time when many ills were being laid at the door of crack cocaine His initial work as a researcher was aimed at proving that drug use caused bad outcomes But one problem kept cropping up the evidence from his research did not support his hypothesis From inside the massively well funded research arm of the American war on drugs he saw how the facts did not support the ideology The truth was dismissed and distorted in order to keep fear and outrage stoked the funds rolling in and Black and brown bodies behind bars Drug Use for Grown Ups will be controversial to be sure the propaganda war Dr Hart argues has been tremendously effective Imagine if the only subject of any discussion about driving automobiles was fatal car crashes Drug Use for Grown Ups offers a radically different vision when used responsibly drugs can enrich and enhance our lives We have a long way to go but the vital conversation this book will generate is an extraordinarily important step

A Moral Defense of Recreational Drug Use Rob Lovering, 2015-08-12 Why does American law allow the recreational use of some drugs such as alcohol tobacco and caffeine but not others such as marijuana cocaine and heroin The answer lies not simply in the harm the use of these drugs might cause but in the perceived morality or lack thereof of their recreational use Despite strong rhetoric from moral critics of recreational drug use however it is surprisingly difficult to discern the reasons they have for deeming the recreational use of some drugs morally wrong In this book Rob Lovering lays out and dissects various arguments for the immorality of using marijuana cocaine heroin and other drugs recreationally He contends that by and large these arguments do not succeed Lovering's book represents one of the first works to systematically present analyze and critique arguments for the moral wrongness of recreational drug use Given this as well as the popularity of the morality based defense of the United States drug laws this book is an important and timely contribution to the debate on the recreational use of drugs
