Musik und Migration Wolfgang Gratzter, Nils Grosch, Ulrike Präger, Susanne Scheiblhofer, 2023-06-05 Musik und Migration bedingen einander substantiell Musik selbst ist beweglich als Kunstform als Ware auf Datenspeichern als Wissen und Können migrierender Musiker_innen und als Erinnerungsanker von Menschen mit Migrationserfahrungen Das in den Kultur und Kunstwissenschaftlichen Disziplinen schon seit Langem existierende Interesse für das Wechselverhältnis zwischen den Kunst und Migrationsphänomenen wurde durch aktuelle Fluchtbewegungen neu angefacht und inspiriert Das vorliegende Handbuch stellt theoretische und methodische Grundlagen des Forschungsfeldes Musik und Migration gebündelt dar und lotet deren Potenzial für zukünftige Projekte aus

Corporate Strategy in the Age of Responsibility Mr Peter McManners, 2014-09-28 As the era of ever expanding markets and ample resources ends governments and business will have to behave differently The world is facing weak economic growth limits to affordable resources and increasing concerns about environmental consequences During the boom times governments championed deregulation and business responded by adopting an anything goes attitude In these straitened times strategic analysis has to engage with the challenges that society faces to create resilient corporations fit for the 21st century In Corporate Strategy in the Age of Responsibility Peter McManners who has for nine years run strategy workshops on the Henley MBA focusing on the global business environment sets about providing a strategic framework for navigating the new economic environment Chief Sustainability Officers CSOs now exist but they struggle to find the strategic rationale for the improvements they champion The author argues that their good intentions often lack traction partly because others in management don't get it but also because they are not ambitious enough The book is not about preaching semi-charitable behaviour or how to enhance the reputation of the corporation instead it is about surviving and thriving in a challenging and changing environment A corporate audience familiar with strategy books will relate to this book but will find it steers them towards radically new strategic thinking suitable for a turbulent period of transition

The New Natural Resource Professor Hans Christian Garmann Johnsen, 2014-06-28 Increasingly in the public discourse there are references to the knowledge economy knowledge society knowledge workers and knowledge organisations The argument is that knowledge is becoming the main economic resource replacing the natural resources that drove the industrial revolution The new knowledge economy is driven by knowledge development innovation and highly skilled employees Increasing investment in higher education and in universities is in line with this strategy and understanding In an earlier book Creating Collaborative Advantage edited with Richard Ennals Professor Hans Christian Garmann Johnsen argued that it is knowledge that links social and economic processes He believes that what is missing in the current discussion on innovation is a conceptualisation of exactly what knowledge is In The New Natural Resource he digs deeper into what it is and how it develops and subsequently leads to widespread change The author argues that knowledge is inherently a social phenomenon That is why social processes are closely linked to economic development and

why this relationship becomes even more apparent in the new knowledge economy Knowledge is not an objective entity established once and for all Knowledge development is interrelated with values norms perceptions and interpretations We need to know what the mechanisms are by which knowledge becomes legitimate true and relevant *Repair* Markus Berger, Kate Irvin, 2022-09-30 A collection of timely new scholarship *Repair Sustainable Design Futures* investigates repair as a contemporary expression of empowerment agency and resistance to our unmaking of the world and the environment *Repair* is an act metaphor and foundation for opening up a dialogue about design s role in proposing radically different social environmental and economic futures Thematically expansive and richly illustrated with over 125 visuals this volume features an international interdisciplinary group of contributors from across the design spectrum whose voices and artwork speak to how we might address our broken social and physical worlds Organized around reparative thinking and practices the book includes 30 long and short chapters photo essays and interviews that focus on multiple responses to fractured systems relationships cities architecture objects and more *Repair* will encourage students academics researchers and practitioners in art design and architecture practice and theory cultural studies environment and sustainability to discuss engage and rethink the act of repair and its impact on our society and environment **Corporate Governance and Investment Management** Roger M. Barker, Iris H.-Y. Chiu, 2017-12-29 Shareholder engagement with publicly listed companies is often seen as a key means to monitor corporate malpractices In this book the authors examine the corporate governance roles of key institutional investors in UK corporate equity including pension funds insurance companies collective investment funds hedge and private equity funds and sovereign wealth funds They argue that institutions corporate governance roles are an instrument ultimately shaped by private interests and market forces as well as law and regulatory obligations and that policy makers should not readily make assumptions regarding their effectiveness or their alignment with public interest or social good Lenguaje y pensamiento Carlos Reynoso, 2015-09-21 El relativismo ling stico sostiene la hip tesis de que la lengua determina u orienta el pensamiento Desde sus or genes se ha convertido en una de las mayores usinas de mitos urbanos y malentendidos de la antropolog a leyendas que aseveran que los Esquimales poseen cientos de palabras para nombrar la nieve o que sostienen que los Hopi no tienen un concepto del tiempo semejante al nuestro Este libro narra la historia del relativismo desde sus or genes hasta nuestros d as y plantea una cr tica radical de un movimiento que tambi n ha sabido justificar buena parte de los nacionalismos y etnocentrismos del ltimo siglo desde las ideolog as culturales del Tercer Reich hasta los recientes movimientos contrarios a la idea de la unidad radical del pensamiento humano
