Documents 12 The Nativist Response To Immigration:

Document-based Assessment Activities for U.S. History Classes Kenneth Hilton,1999 Covers significant eras in U S history Encourages students to analyze evidence documents and other data to make informed decisions Includes guidelines for students answer prompts and a scoring rubric Develops essential writing skills **Right-Wing Populism in Europe** Ruth Wodak,Brigitte Mral,Majid KhosraviNik,2013-05-23 This volume offers a comparative survey of Far Right parties across Europe examining in particular their changing political rhetoric The contributors look at the development of two distinct forms of party development and discourse The Haiderization and The Berlusconization model Immigrants Out! Juan F. Perea,1997 Juan Perea has here assembled a truly interdisciplinary group of contributors to highlight the changing relationship between citizens and immigrants and the effects of economics history and demographics on that relationship Immigrants Out provides a needed antidote to the often poisonous attacks on America s most vulnerable The Immigration Crisis Armando Navarro,2008-11-16 Immigration remains one of the most pressing and polarizing issues in the United States In The Immigration Crisis the political scientist and social activist Armando Navarro takes a hard look at 400 years of immigration into the territories that now form the United States paying particular attention to the ways in which immigrants have been received The book provides a political historical and theoretical examination of the laws personalities organizations events and demographics that have shaped four centuries of immigration and led to the widespread social crisis that today divides citizens non citizens regions and political parties As a prominent activist Navarro has participated broadly in the Mexican American community s responses to the problems of immigration and integration and his book also provides a powerful glimpse into the actual working of Hispanic social movements In a sobering conclusion Navarro argues that the immigration crisis is inextricably linked to the globalization of capital and the American economy s dependence on cheap labor **The Politics of Blame** Jessica LeAnn Urban,2004 Nativism, Discrimination, and Images of Immigrants George E. Pozzetta,1991 **The Immigration History Newsletter** ,1974 Guide to the Records of the United States Senate at the National Archives, 1789-1989 United States. National Archives and Records Administration,1989 **Why They Hate Us** Lindsay P[rez Huber,Susana M. Mu[oz,2021 This book examines how racist political rhetoric has created damaging and dangerous conditions for Students of Color in schools and higher education institutions throughout the United States The authors show how the election of the 45th president has resulted in a defining moment in U S history where racist discourses reinforced by ideologies of white supremacy have affected the educational experiences of our most vulnerable students This volume situates the rhetoric of the Trump presidency within a broader historical narrative and provides recommendations for those who seek to advocate for anti racism and social justice As we enter the uncharted waters of a global pandemic and national racial reckoning this will be invaluable reading for scholars educators and administrators who want to be part of the solution Book Features Uses Donald Trump s presidency as a case study to show how and why racist

rhetoric can be used to mobilize large numbers of U S voters Examines how the current administration has changed perspectives on contemporary racism that will have a lasting impact throughout the K 16 educational system Demonstrates how the current discourses around race and immigration are resulting in increased racism and violence in schools and universities Provides strategies for how anti racist social justice efforts in education will need to shift to respond to the new landscape Contributors John Rogers Michael Ishimoto Silvia Rodriguez Vega Carolina Valdivia Marisol Clark Ib ez Josefina Espino Carolina Diana Lopez Darsella Vigil Valerie Gomez Tanya J Gaxiola Serrano Naruro Hassan Saskias Casanova Keon M McGuire *Managing Diversity -- The Courage to Lead* Elsie Y. Cross, 2000-04-30 White women and people of color now constitute the majority of the U S workforce yet ninety seven percent of senior managers of Fortune 500 and Fortune 1 000 industrial companies remain white men It s clear that leaders of American organizations are required to play key roles in a world that has become strange to them says Cross To succeed in an increasingly competitive global environment our organizational leaders must have the courage to act outside their comfort zones to try to understand interact with motivate develop and retain a work force that is alien to them Cross book provides the practical assistance they need Because racism sexism and other forms of oppression are not rational help cannot be found wholly in rationalism Such biases arise from emotional and psychological bases Our leaders are thus forced to confront their barriers within barriers that exist at every level of their organization Cross uses her own experiences as an African American woman and as an experienced and recognized management consultant to demonstrate how oppression functions at the individual group and systems levels but her book is not a memoir Rather it is a sophisticated explication of a complex and complete system of organizational change with case studies and other useful aids which if fully grasped will enable courageous leaders to succeed in understanding and dealing effectively with the urgent crosscultural and gender issues in the workplace **Entrepreneurship in schwierigen Zeiten** Peter Eigner, Herbert Matis, Andreas Resch, 2013 Japan's Nationalist Right in the Internet Age Jeffrey J. Hall, 2021-04-07 Japan s nationalist right have used the internet to organize offline activism in increasingly visible ways Hall investigates the role of internet mediated activism in Japan s ongoing historical and territorial disputes He explores the emergence of two right wing activist organizations Nihon Bunka Channel Sakura and Ganbare Nippon which have played a significant role in pressure campaigns against Japanese media outlets campaigns to influence historical memorials and campaigns to assert Japan s territorial claim to the Senkaku Diaoyu Islands Taking a multi disciplinary approach he analyses how activists maintained cohesion raised funds held protests that regularly drew hundreds to thousands of participants and used fishing boats to land activists on disputed islands Detailing events that took place between 2004 and 2020 he demonstrates how skilled social actors built cohesive grassroots protest organizations through the creation of shared meaning for their organization and its supporters A valuable read both for scholars seeking insight into the dynamics surrounding Japan s history disputes and territorial issues as well as those seeking to compare Japanese right wing internet

activism with its counterparts elsewhere **Research Handbook on Irregular Migration** Ilse van Liempt, Joris Schapendonk, Amalia Campos-Delgado, 2023-03-02 Moving away from state categorizations on irregular migration this Research Handbook critically examines processes and dynamics that generate and reproduce irregularity and discusses who may count as an irregular migrant Theology in Motion Aimee Allison Hein, 2024-11-19 Christian responses to global migration are as loud as they are numerous With voices evoking either the injunction to love the stranger or a commitment to the rule of law this polarized cacophony has become yet another theater in the culture war But migration is not an idea It is not an abstraction Migration is about people present in our midst or encountered at our edges Their presence at our borders forces us to consider the core values we want most to uphold and the stories that taught us those values in the first place In the United States our most popular origin stories tell of a nation that fought off tyranny and committed itself to liberty democracy and the dream of an unencumbered pursuit of happiness of a life lived on one's own terms But is this the whole story Whose perspectives have shaped the stories we tell and which perspectives have been ignored Theology in Motion tracks the story of the United States how it formed and how it came to dominate the land that now rests between its borders to consider more fully what type of nation the US has been and the type of global neighbor it has chosen to be From a Christian moral perspective this history helps us look to the future by analyzing how our past choices have left us with present responsibilities Taking these responsibilities seriously and pursuing more just global relationships provides a way forward in which all people might participate and to which Christians are called Little 'Red Scares' Robert Justin Goldstein, 2016-05-13 Anti communism has long been a potent force in American politics capable of gripping both government and popular attention Nowhere is this more evident than the two great red scares of 1919-20 and 1946-54 the latter generally if somewhat inaccurately termed McCarthyism The interlude between these two major scares has tended to garner less attention but as this volume makes clear the lingering effects of 1919-20 and the gathering storm clouds of McCarthyism were clearly visible throughout the 20s and 30s even if in a more low key way Indeed the period between the two great red scares was marked by frequent instances of political repression often justified on anti communist grounds at local state and federal levels Yet these events have been curiously neglected in the history of American political repression and anti communism perhaps because much of the material deals with events scattered in time and space which never reached the intensity of the two great scares By focusing on this twenty five year interim period the essays in this collection bridge the gap between the two high profile red scares thus offering a much more contextualised and fluid narrative for American anti communism In so doing the rationale and motivations for the red scares can be seen as part of an evolving political landscape rather than as isolated bouts of hysteria exploding onto and then vanishing from the political scene Instead a much more nuanced appreciation of the conflicting interests and fears of government politicians organised labour free speech advocates employers and the press is offered which will be of interest to anyone wishing to better understand the

political history of modern America *Dispersing the Ghetto* Jack Glazier, 2018-10-18 In the early twentieth century the population of New York City's Lower East Side swelled with the arrival of vast numbers of eastern European Jewish immigrants. The teeming settlement whose inhabitants faced poverty and frequent unemployment provoked the attention of immigration restrictionists. Established American Jews, arrivals from the German states only a generation before, feared that their security might be threatened by the newcomers. They established the Industrial Removal Office (IRO) to assist in relocating the immigrants to the towns and cities of the nation's interior. *Dispersing the Ghetto* is the first book to describe in detail this important but little known chapter in American immigration history. Founded in 1901, the IRO for nearly two decades directed the resettlement of Jewish immigrants in New York and other port cities to hundreds of communities nationwide where the prospects of employment and rapid assimilation were brighter. Drawing on a variety of sources including the IRO archive, local records, first person accounts of resettlement, and the lively Jewish press, Jack Glazier recounts the operations of the IRO and the experiences of those it aided. He closely examines the complex relationship between the two sets of Jewish immigrants, emphasizing the mix of motives underlying the assistance the American Jews of German origin rendered the newcomers from eastern Europe.

Latino Immigrants and the Transformation of the U.S. South Mary E. Odem, Elaine Cantrell Lacy, 2009 The Latino population in the South has more than doubled over the past decade. The mass migration of Latin Americans to the U.S. South has led to profound changes in the social, economic, and cultural life of the region and inaugurated a new era in southern history. This multidisciplinary collection of essays written by U.S. and Mexican scholars explores these transformations in rural, urban, and suburban areas of the South. Using a range of different methodologies and approaches, the contributors present in-depth analyses of how immigration from Mexico and Central and South America is changing the South and how immigrants are adapting to the southern context. Among the book's central themes are the social and economic impact of immigration, the resulting shifts in regional culture, new racial dynamics, immigrant incorporation and place making, and diverse southern responses to Latino newcomers. Various chapters explore ethnic and racial tensions among poultry workers in rural Mississippi and forestry workers in Alabama, the Mexicanization of the urban landscape in Dalton, Georgia, the costs and benefits of Latino labor in North Carolina, the challenges of living in transnational families, immigrant religious practice and community building in metropolitan Atlanta, and the creation of Latino spaces in rural and urban South Carolina and Georgia.

The Sociocultural Context of Romantic Relationships Brian G. Ogolsky, 2023-10-25 Embedded within the sociocultural context of romantic relationships are features such as race, culture, neighborhoods, the legal system, and governmental policy. Due to the inherent difficulties with studying large structures and systems, little work has been done at the macro level in relationship science. This volume spotlights the complex interplay between romantic relationships and these structural systems, including varied insights from experts in the field. In turn, more diverse and generalizable research programs on the social ecology of relationships can be developed.
