Dust The Archive And Cultural History Encounters:

Dust Carolyn Steedman, 2001 In this witty engaging and challenging book Carolyn Steedman has produced a highly original and sometimes irreverent investigation into the development of modern history writing *Dust* is about the practice and writing of history *Dust* considers the immutable stubborn set of beliefs about the material world past and present inherited from the nineteenth century with which modern history writing attempts to grapple Drawing on over five years worth of her own published and unpublished writing the author has produced a sustained argument about the way in which history writing belongs to the currents of thought shaping the modern world Steedman begins by looking at the attention paid to the archive by those working in the humanities and social sciences in recent years what has become known as the practice of archiving By definition the archive is the repository of that which will not go away and the book goes on to suggest that just like dust the matter of history can never go away or be erased Historians who want to think about what it is they do will find this work enlightening and this book is essential reading for all undergraduates and postgraduates studying historiography and history and theory *Dust* Carolyn Steedman, 2002 *Intersectional Encounters in the Nineteenth-Century Archive* Rachel Bryant Davies, Erin Johnson-Williams, 2022-08-11 Rachel Bryant Davies and Erin Johnson Williams lead a cast of renowned scholars to initiate an interdisciplinary conversation about the mechanisms of power that have shaped the nineteenth century archive to ask What is a nineteenth century archive broadly defined This landmark collection of essays will broach critical and topical questions about how the complex discourses of power involved in constructions of the nineteenth century archive have impacted and continue to impact constructions of knowledge across disciplinary boundaries and beyond academic confines The essays written from a range of disciplinary perspectives grapple with urgent problems of how to deal with potentially sensitive nineteenth century archival items both within academic scholarship and in present day public facing institutions which often reflect erotic colonial and imperial racist sexist violent or elitist ideologies Each contribution grapples with these questions from a range of perspectives Musicology Classics English History Visual Culture and Museums and Archives The result is far reaching historical excavation of archival experiences *Schriftordnungen im Wandel* Tobias Hodel, 2020-06-25 Kl ster gelten als wichtige Produzenten und Konsumenten von Schrift im Mittelalter Im Kloster K nigsfelden 1309 durch die Habsburger gegr ndet war der Schriftgebrauch von Beginn an zentral sei es f r den geistlichen Betrieb der beiden Konvente der Klarissen und Franziskaner f r die Verwaltung der zahlreichen G ter oder aber zur Demonstration von Ordnungsmacht wie sie die Stifterin Agnes von Ungarn durch Schriftst cke vornahm Aufgrund der sich wandelnden Einfl sse von au en ver nderte sich das schriftliche Ordnungssystem im Kloster Mithilfe von Abschriftensammlungen und durch Dorsualnotizen r ckten Dokumente in neuen Kontext und wurden zu Vermittlern von Rechtsanspr chen Im Zuge der Reformation und der Aufl sung des Klosters verfolgte Bern schlie lich mit der erstmaligen Zusammenf hrung des Bestandes eine Neuordnung des Schriftguts um sich als

Housing, Neoliberalism and the Archive Kathleen Flanagan, 2019-09-09 From the mid 1940s state housing authorities in Australia built large housing estates to enable home ownership by working class families but the public housing system they created is now regarded as broken Contemporary problems with the sustainability effectiveness and reputation of the Australian public housing system are usually attributed to the influence of neoliberalism Housing Neoliberalism and the Archive offers a challenge to this established rise and fall narrative of post war housing policy Kathleen Flanagan uses Foucauldian archaeology to analyse archival evidence from the Australian state of Tasmania Through this she reveals that the difference between past and present knowledge about the value role and purpose of public housing results from a significant discontinuity in the way we think and act in relation to housing policy Flanagan describes the complex system of ideas and events that underpinned policy change in Tasmania while telling a story about state housing policy neoliberalism and history that has resonance for many other places and times In the process she shows that the story of public housing is more complicated than the taken for granted neoliberal narrative and that this finding has real significance for the dilemmas in public housing policy that face us in the here and now

Saving Cinema Caroline Frick,2011-01-21 The importance of media preservation has in recent years achieved much broader public recognition From the vaults of Hollywood and the halls of Congress to the cash strapped museums of developing nations people are working to safeguard film from physical harm But the forces at work aren t just physical The endeavor is also inherently political What gets saved and why What remains ignored Who makes these decisions and what criteria do they use Saving Cinema narrates the development of the preservation movement and lays bare the factors that have influenced its direction Archivists do more than preserve movie history they actively produce and codify cinematic heritage At the same time digital technologies have produced an entirely new reality one that resists the material artifact driven approach that is the gold standard of preservation in the Western world As it has become increasingly easy to capture and access moving images increasing evidence of something many archivists have known for years has emerged industrial and training films amateur travel diaries and even family videos are critical public resources It has also raised question about the role of the profession Is access equivalent to preservation and if it is how should archivists alter their

activities The time is ripe for a reconsideration of the politics and practices of preservation Saving Cinema is the book to guide that conversation
