medical specialties requires space for reflection and debate on the meaning of humanism and its impact on the quality of care This requirement is more pressing in this area because it has escaped inquiry by Medical Humanities and Narrative Medicine We believe that this is due to the nature of the surgical activity carried out in an enclosed place characterized by the use of sophisticated technologies including robotics and artificial intelligence and inaccessible to patients relatives In addition the patients own expectations about surgery reinforce the technological and highly specialized nature of this area often marked by the neglect of the relational context with clear prejudice to the parties involved and the activity itself Although this gap has been identified there has been no space for reflection on the humanization of care in surgery This book is therefore innovative precisely because it responds to the previously mentioned shortcomings offering its readers the opportunity to reflect on Humanism in Surgery The Restless School Roy Blatchford, 2014-02-01 What is the cocktail of successful schools and their leaders They are restless There is a paradox at their core they are very secure in their systems values and successes yet simultaneously seeking to change and improve These schools look inwards to secure wise development they look outwards to seize innovation which they can hew to their own ends and importantly make a difference to the children and students they serve This book is written with the certainty that whatever the quality of an education system and its schools at a given point in time we shall strive to improve them in the knowledge that perfection lies just around the corner That is the human condition That is the international imperative That is the restless school What is the cocktail of success in memorable classrooms and great schools What powers the engine of The Restless School Should we judge schools by their values added or their value added Why do schools falter and fail What might Excellence As Standard look like across global school systems What does the 21st century have in store for schools and school leaders Rooted in the experience of decades of education leadership Roy Blatchford answers these key questions as schools everywhere seek to be A Bed with a View Peter Bennett, 2024-07-15 It began life as Peter Bennett s journal a straight forward world class account of his experiences as a patient on the ward of a typical NHS hospital in the course of several extended visits starting in 2018 It gradually morphed into something rather different It became an ever more complex and interesting book emerging as a vivid unflinching by turns painful angry moving and hilarious memoir of this time This is a story filled with touching and comical memories and incidents It gives unblinking insights into the reality of the NHS today showing how it functions and sometimes fails to function It is partly a state of the nation piece but is also far more than this It is something richer and more substantive offering the reader a fragmentary autobiography a colourful recollection of Peter's life as a successful lawyer and failed comedian And ultimately it is a guide of sorts for those coming of age today and a source of wit and wisdom for anyone shrewd enough to seek out or fortunate enough to stumble upon this richly entertaining book It is a deeply personal accessible moving and wise piece of work ABC of Learning and Teaching in Medicine Peter Cantillon, Diana F.
