and his scientific mind his powerful fantasy and his need for order and rigor and clarifies Edward Kelly's role and creative participation in the scrying sessions regarding him as co author of the dramatic episodes reported in Dee's spiritual diaries Finally it connects the Enochian Angelic language to the myth of the Adamic language at the core of Italian philosophy and brings evidence that the Enochian is an artificial language originated by applying creatively the analytical instruments of text hermeneutics used in the Cabala The Life of Dr. John Dee (1527 - 1608) Charlotte Fell Smith, 2014-07-05 John Dee was a much respected mathematician astronomer astrologer occultist alchemist and adviser to Queen Elizabeth I but subsequently derided as a conjurer and a trickster Dee became Queen Elizabeth's trusted advisor on astrological and scientific matters choosing her coronation date himself From the 1550s through the 1570s he served as an advisor to England's voyages of discovery providing technical assistance in navigation and ideological backing in the creation of a British Empire Dee's library at 4000 volumes was the largest philosophical and scientific library collection in Elizabethan England Queen Elizabeth finally made him Warden of Christ's College Manchester in 1595
