The Ashgate Research Companion to Modern Imperial Histories
John Marriott, 2016-03-23

Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the

scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire

Western and Eastern Perspectives on Religion and Religiosity Sarah Demmrich, Ulrich Riegel, 2020-12-23 The concept of religiosity is a highly individual aspect of religion The understanding of it was shaped in Protestant circles in the Western context and it has inspired a huge body of research and further developments in theology as well as in religious education However both charismatic movements within Christianity and orthopractic religious traditions such as Islam raise the question of whether an individualized account of religiosity is able to grasp the spectrum of lived religion comprehensively Furthermore with increasing globalization even Asian worldviews like Hinduism or Buddhism are part of daily experience and have expanded the notion of what can be perceived of as religion These changes were discussed at the international conference Religiosity in East and West Conceptual and Methodological Challenges at the University of Münster Germany from 25 to 27 June 2019 With this volume of conference proceedings we pay special attention to the most significant conference contributions relevant to religious education and practical theology

Buddhism and Politics in Twentieth Century Asia Ian Harris, 2010-07-15 In this study a team of international scholars assess the manner in which Buddhist organizations and individuals have resisted come to terms with or in some cases allied themselves with the forces of war modernity westernization nationalization capitalism communism and ethnic conflict By examining issues such as left right divisions in the monastic order the rise of organized lay movements Buddhist social activism as well as explicitly Buddhist inspired political activity this book seeks to demonstrate that the emphasis on meditation and mental training is only one strand in this richly complex world historical tradition

The Buddha's Teachings on Social and Communal Harmony Bodhi, 2016-12-13 In a world of conflict and strife how can we be advocates of peace and justice In this volume acclaimed scholar monk Bhikkhu Bodhi has collected and translated the Buddha's teachings on conflict resolution interpersonal and social problem solving and the forging of harmonious relationships The selections all drawn from the Pali Canon the earliest record of the Buddha's discourses are organized into ten thematic chapters The chapters deal with such topics as the quelling of anger good friendship intentional communities the settlement of disputes and the establishing of an equitable society Each chapter begins with a concise and informative introduction by the translator that guides us toward a deeper understanding of the texts that follow In times of social conflict intolerance and war the Buddha's approach to creating and sustaining peace takes on a new and urgent significance Even readers unacquainted with Buddhism will appreciate these ancient teachings always clear practical undogmatic and so contemporary in flavor The Buddha's Teachings on Social and Communal Harmony will prove to be essential reading for

anyone seeking to bring peace into their communities and into the wider world **Subalternity and Difference** Gyanendra Pandey, 2013-03 Focusing on concepts that have been central to investigation of the history and politics of marginalized and disenfranchised populations this book asks how discourses of subalternity and difference simultaneously constitute and interrupt each other The authors explore the historical production of conditions of marginality and minority and challenge simplistic notions of difference as emanating from culture rather than politics They return thereby to a question that feminist and other oppositional movements have raised of how modern societies and states take account of and manage social economic and cultural difference The different contributions investigate this question in a variety of historical and political contexts from India and Ecuador to Britain and the USA The resulting study is of invaluable interest to students and scholars in a wide range of disciplines including History Anthropology Gender and Queer and Colonial and Postcolonial Studies

Buddhismus in Europa Kurt Krammer, Martin Rötting, 2022 In Europa gibt seit dem 19. Jahrhundert eine erkennbare Bewegung hin zum Buddhismus Nachdem die ersten Kreise sich vor allem mit Texten auseinandergesetzt hatten folgte die Bewegung des Meditationsbuddhismus und in der Folge der Tibetische Buddhismus Christen entdeckten den Zen Mit der Achtsamkeitsbewegung erreichte der Buddhismus schließlich den Mainstream ein Wandel in der gesellschaftlichen Religionswahrnehmung sowie wichtige Persönlichkeiten wie Thich Nhat Hanh oder der Dalai Lama prägen das Bild Dieser Band bietet ein Bild der Facetten des gegenwärtigen europäischen Buddhismus Mit Beiträgen von Ursula Baatz Martin Baumann Bernadette Baumgartner Ajahn Chattamalo Bhikkhu Jamie Cresswell Francisco Diez de Velasco Tina Draszczyk Rose Drew Ron Eichhorn Erika Erber Karin Ertl Christian Hackbarth Johnson P. importance not only for the history of democracy in modern India but for the general discussion on the interferences of social inequalities and cultural exclusions The Caste Question goes beyond the usual antitheses of localism and globalism and illustrates a decisive notion of intensive universality Etienne Balibar A sustained and probing analysis of the modern history of caste in Western India connecting issues of gender personhood property and politics to facts of oppression and inequality This is the most politically and theoretically engaged book on caste to have come out in a long time Dipesh Chakrabarty author of *Habitations of Modernity* A profound reflection at once historically rich and theoretically nuanced on the nature of political modernity itself John Comaroff co-author with Jean Comaroff of *Of Revelation and Revolution* Rao is entirely convincing in this brilliant and audacious re-evaluation of political modernity in India through the perspective of anti-caste struggles Mrinalini Sinha author of *Specters of Mother India* The Global Re-Structuring of an Empire **Outside the Fold** Gauri Viswanathan, 2021-05-11 Outside the Fold is a radical reexamination of religious conversion Gauri Viswanathan

skillfully argues that conversion is an interpretive act that belongs in the realm of cultural criticism To that end this work examines key moments in colonial and postcolonial history to show how conversion questions the limitations of secular ideologies particularly the discourse of rights central to both the British empire and the British nation state Implicit in such questioning is an attempt to construct an alternative epistemological and ethical foundation of national community

Viswanathan grounds her study in an examination of two simultaneous and she asserts linked events the legal emancipation of religious minorities in England and the acculturation of colonial subjects to British rule The author views these two apparently disparate events as part of a common pattern of national consolidation that produced the English state She seeks to explain why resistance in both cases frequently took the form of religious conversion especially to minority or alternative religions Confronting the general characterization of conversion as assimilative and annihilating of identity Viswanathan demonstrates that a willful change of religion can be seen instead as an act of opposition Outside the Fold concludes that as a form of cultural crossing conversion comes to represent a vital release into difference Through the figure of the convert Viswanathan addresses the vexing question of the role of belief and minority discourse in modern society She establishes new points of contact between the convert as religious dissenter and as colonial subject This convergence provides a transcultural perspective not otherwise visible in literary and historical texts It allows for radically new readings of significant figures as diverse as John Henry Newman Pandita Ramabai Annie Besant and B R Ambedkar as well as close studies of court cases census reports and popular English fiction These varying texts illuminate the means by which discourses of religious identity are produced contained or opposed by the languages of law reason and classificatory knowledge Outside the Fold is a challenging provocative contribution to the multidisciplinary field of cultural studies

The Spirit of the Buddha Martine Batchelor, 2010-07-27 In this slim enlightening volume internationally recognized Buddhist teacher Martine Batchelor presents the basic tenets and teachings of the Buddha through a selection of essential texts from the Pali canon the earliest Buddhist scriptures Viewed by scholars as the actual substance of the historical teachings and possibly even the words of the Buddha these texts are essential to an understanding of the Buddhist faith and Batchelor illuminates them with her lucid analysis and interpretations Both accessible to nonpractitioners and helpful to scholars The Spirit of the Buddha touches upon key themes including dharma compassion meditation and peace among others creating a panoramic view of one of the world's most widely practiced faiths that is deeply rooted in its most vital texts

Conversion to Modernities Peter van der Veer, 2014-01-14 Peter van der Veer has gathered together a groundbreaking collection of essays that suggests that conversion to forms of Christianity in the modern period is not only a conversion to modern forms of these religions but also to religious forms of modernity Religious perceptions of the self of community and of the state are transformed when Western discourses of modernity become dominant in the modern world This volume seeks to relate

Europe and its Others by exploring conversion both in modern Europe and in the colonized world **Engaged Buddhism**

Church in the Spiritual Marketplace Amy Slagle, 2011-09-01 Like many Americans the Eastern Orthodox converts in this study are participants in what scholars today refer to as the spiritual marketplace or quest culture of expanding religious diversity and individual choice making that marks the post World War II American religious landscape In this highly readable ethnographic study Slagle explores the ways in which converts clerics and lifelong church members use marketplace metaphors in describing and enacting their religious lives Slagle conducted participant observation and formal semi

structured interviews in Orthodox churches in Pittsburgh Pennsylvania and Jackson Mississippi Known among Orthodox Christians as the Holy Land of North American Orthodoxy Pittsburgh offers an important context for exploring the interplay of Orthodox Christianity with the mainstreams of American religious life Slagle s second round of research in Jackson sheds light on the American Bible Belt where over the past thirty years the Orthodox Church in America has marshaled significant resources to build mission parishes Relatively few ethnographic studies have examined Eastern Orthodox Christianity in the United States and Slagle s book fills a significant gap This lucidly written book is an ideal selection for courses in the sociology and anthropology of religion contemporary Christianity and religious change Scholars of Orthodox Christianity as well as clerical and lay people interested in Eastern Orthodoxy will find this book to be of great appeal

A History of Prejudice Gyanendra Pandey, 2013-03-25 This is a book about prejudice and democracy and the prejudice of democracy In comparing the historical struggles of two geographically disparate populations Indian Dalits once known as Untouchables and African Americans Gyanendra Pandey the leading subaltern historian examines the multiple dimensions of prejudice in two of the world s leading democracies The juxtaposition of two very different locations and histories and within each of them of varying public and private narratives of struggle allows for an uncommon analysis of the limits of citizenship in modern societies and states Pandey with his characteristic delicacy probes the histories of his protagonists to uncover a shadowy world where intolerance and discrimination are part of both public and private lives This unusual and sobering book is revelatory in its exploration of the contradictory history of promise and denial that is common to the official narratives of nations such as India and the United States and the ideologies of many opposition movements

Indigenous Identity in South Asia Tamina M. Chowdhury, 2016-11-10 In the immediate aftermath of the creation of Bangladesh in 1971 an armed struggle ensued in its remote south eastern corner The hill people in the Chittagong Hill Tracts more commonly referred to as paharis demanded official recognition and autonomy as the indigenous people of the Tracts This demand for autonomy was primarily based on the claim that they were ethnically distinct from the majority Bengali population of Bangladesh and thereby needed to protect their unique identity This book challenges the general perception within existing scholarship that indigenous claims coming from the Tracts are a recent and contemporary phenomenon which emerged with the founding of the Bangladesh state By analysing the processes of colonisation in the Chittagong Hill Tracts the author argues that identities of distinct ethnicity and tradition predate the creation of Bangladesh and first began to evolve under British patronage It is asserted that claims to indigeneity must be understood as an outcome of prolonged and complex processes of interaction between hill peoples largely the Hill Tracts elites and the Raj Using hitherto unexplored archival sources *Indigenous Identity in South Asia* sheds new light on how the concepts of territory and of a people indigenous to it came to be forged and politicised By showing a far deeper historical lineage of claims making in the Tracts it adds a new dimension to existing studies on Bangladesh s borders and its history The book will also be a key resource for scholars of South Asian

history and politics colonial history and those studying indigenous identity
