Introduction
What do I mean by city gardening you may ask
There was a time when people had large open areas just outside their door steps in the town or in the country and all they had to do was fence it off and try to tame it
But as more and more people started migrating to cities the available space for gardening began to be lessened
That was because concrete jungles came up where once we had green fields
Suburbs on the outskirts of cities still had lots of land where gardens could grow but for all those living uptown downtown and Midtown in Flats or in closed blocks limited spaces and detached and semi detached houses one had to make do with imaginative and constructive ideas with which they could still be in touch with greenery around them
Boxes and plant containers on windowsills have been a part of city gardening
You as a city gardener know that you have just limited resources in terms of space
That is why you have been to know how to adapt these limited resources to gain the satisfactory end you desire that to have a garden in your house or just outside your window sill or in a room or in your backyard
People are afraid to experiment in looking at all the options open to them when they want to make a city garden in limited space
So they keep to potted geraniums some sad looking chrysanthemums and other seasonal flowering plants and possibly a little creeper
On the other hand if you have been brought up in the country and have spent a major portion of your life surrounded by plants it is possible that you are instinctively going to have a knowledge of plants and their needs
And you are going to bring this knowledge along with you to the city
This knowledge does not come innately you need to be surrounded by gardeners
Also trial and error on your part and advice from experienced experts who in their time have tried and erred and then imparted that knowledge to you for your benefit is going to help you make a really nice city garden
This book is for all those beginners who are dreaming of their own garden in which to relax and also for experienced gardeners who want some extra tips and techniques with which they can improve their gardens
