Goulet, Liam D. Murphy, Anastasia Panagakos, 2015-12-01 This insightful three volume set examines faith through the social and cultural perspective of anthropology sociology and religious studies shedding light on the role of religion in the human experience Why is human suffering and the existence of evil part of the human experience How does religious doctrine establish one's identity In what ways does religion interact with and shape the social order This thought provoking work ponders these questions and explores the concept of religion from various perspectives as a tool for self and community based spiritual awareness as a set of practices that translates faith into interaction with others and as a cornerstone of society for those who seek to harness or hinder its influence Written in accessible and inviting language each volume focuses on a particular dimension of religion The first book examines religious experience in the modern world and explores suffering in religious faiths the second volume centers around ritual and pilgrimage and the last book analyzes the controversial relationship between religion and societies The content features such thought provoking topics as death and green burials sexuality and sex trade and how and why evil manifests in the human experience **The Gathering** Katherine Genet, 2020-09-10 The veil between the worlds is shredding The old gods are calling Erin inherits a cottage in a remote village from a grandmother she's never met Considering how much she longs to get away from the unexciting life stretching out in front of her this might be a dream come true Except that it's a village full of witches and Druids practicing an ancient religion passed down through the centuries and the priestess leading it is the calm uncanny death worker Morghan Wilde Life is different in Wilde Grove with ownership of the cottage coming with a non negotiable condition and it's one Erin's not sure she can meet or even if she should She must choose to believe in the unbelievable and then learn how to do magic too Only then will she be able to claim her inheritance It's an inheritance that is so much more than a cottage in the woods Coming from a world that doesn't believe in magic can she change her mind in time to claim her true identity and begin walking the path of her ancient ancestors The Gathering is the first book in Katherine Genet's new Wilde Grove mythic fiction series If you like mythology real life witchcraft and have ever wondered what's behind the veil to the Otherworld you'll love
