Dynamics Of Entrepreneurship:

Dynamics of Entrepreneurship Karen Booyesen, 2015 *The Dynamics of Entrepreneurship* Maria Minniti, 2011-07-28

Learning about entrepreneurship has major implications for the way we understand economic change and progress. At a time when governments all over the world look to entrepreneurship as a way to increase the wealth and well being of their countries, *The Dynamics of Entrepreneurship* examines the causes of differences in entrepreneurial propensity between individuals, the factors that explain variations in the type and quantity of entrepreneurship at the aggregate level, and the macroeconomic implications of entrepreneurship. Using Global Entrepreneurship Monitor (GEM) data, the book brings together contributions from leading scholars to provide a comprehensive overview of current scholarship on entrepreneurial activity. Discussed topics include entrepreneurial motivation, gender and migration, entrepreneurial financing, urban entrepreneurship, growth-oriented entrepreneurship, economic growth, and regional entrepreneurship policies. The book concludes by summarizing its contribution to existing literature, with particular attention paid to the policy implications and the ongoing debate on entrepreneurship.

Handbook of Entrepreneurial Dynamics William B. Gartner, 2004-06-21. Provides a forum for scholars to generate a different theory, identify promising research directions, and present important insights to a wide audience of scholars in entrepreneurship. In order to study individuals as their businesses take shape, this book locates and studies nascent entrepreneurs in the process of building their enterprises.

The Dynamics of Entrepreneurial Ecosystems Allan O'Connor, Colin Mason, Morgan P. Miles, David Audretsch, 2021-12-26. This book aims to provide new approaches to analysing and thinking about how entrepreneurial ecosystems develop and evolve over time, as well as shed light on the relatively unexplored area of entrepreneurship ecosystem dynamics. The concept of entrepreneurial ecosystems has emerged as a framework to understand the nature of places in which entrepreneurial activity flourishes. Time is fundamental to the analysis of the dynamics of an entrepreneurial ecosystem. New firm creation, survival, growth, and demise all occur within a temporal context that is over and within time. Systems approaches to research invariably model the influential effects of the actors and elements that shape, re-shape, maintain, shift, and change the system itself. An entrepreneurial ecosystem point of view therefore is inherently time-dependent and provides an analytical framework that reveals how the number and diversity of entrepreneurial actors situated in a place and time influence the creation of new firms, their survival, growth, and ultimately the stability of markets and industry in a time and place. Whether for better or worse, the historic and present time dimensions underpin the functioning and trajectory of entrepreneurial ecosystem performances and how they are shaped over time. Each chapter in this edited volume outlines a particular perspective and/or a unique case drawn from a range of countries that collectively reveal the dynamics of an ever-changing entrepreneurial ecosystem. The chapters were originally published as a special issue of the journal *Entrepreneurship and Regional Development*.

Exploring the dynamics of entrepreneurship Aleksander Surdej, 2010 *Dynamic Entrepreneurship* Katja Rusinovic, 2006 Annotation The nature of immigrant entrepreneurship is changing in Dutch society Nowadays many immigrant entrepreneurs start businesses in producer and personal services instead of more traditional sectors such as retail or hotel and catering At the same time a growing number of second generation immigrants are setting up their own firms in the Netherlands These second generation immigrants born and or raised in the receiving country are following different trajectories in comparison with first generation immigrant entrepreneurs indeed displaying a move away from traditional immigrant niches Yet studies on second generation immigrant entrepreneurs remain limited in both the Dutch and international literature on this subject This study presents one of the first explicit comparisons between first and second generation self employed immigrants The embeddedness of immigrants in local and transnational networks and the dynamics of the markets in which these entrepreneurs are active are examined based on in depth interviews with immigrant entrepreneurs in Dutch cities In doing so this study provides a vivid longitudinal view of first and second generation immigrant entrepreneurs their incorporation into Dutch society their businesses and business development s This title can be previewed in Google Books <http://books.google.com/books/vid/ISBN9789053569726> This title is available in the OAPEN Library <http://www.oapen.org>
