EG-ICE 2020 Workshop on Intelligent Computing in Engineering Ungureanu, Lucian Constantin, Hartmann, Timo, 2020-06-30
The 27th EG ICE International Workshop 2020 brings together international experts working at the interface between advanced computing and modern engineering challenges. Many engineering tasks require open world resolutions to support multi actor collaboration coping with approximate models providing effective engineer computer interaction search in multi dimensional solution spaces accommodating uncertainty including specialist domain knowledge performing sensor data interpretation and dealing with incomplete knowledge. While results from computer science provide much initial support for resolution adaptation is unavoidable and most importantly feedback from addressing engineering challenges drives fundamental computer science research. Competence and knowledge transfer goes both ways. Der 27.
