Digital Business Models Bernd W. Wirtz,2019-04-02 The spread of the Internet into all areas of business activities has put a particular focus on business models The digitalization of business processes is the driver of changes in company strategies and management practices alike This textbook provides a structured and conceptual approach allowing students and other readers to understand the commonalities and specifics of the respective business models The book begins with an overview of the business model concept in general by presenting the development of business models analyzing definitions of business models and discussing the significance of the success of business model management In turn Chapter 2 offers insights into and explanations of the business model concept and provides the underlying approaches and ideas behind business models Building on these foundations Chapter 3 outlines the fundamental aspects of the digital economy In the following chapters

the book examines various core models in the business to consumer B2C context. The chapters follow a 4 C approach that divides the digital B2C businesses into models focusing on content, commerce, context and connection. Each chapter describes one of the four models and provides information on the respective business model types, the value chain, core assets and competencies, as well as a case study. Based on the example of Google, Chapter 8 merges these approaches and describes the development of a hybrid digital business model. Chapter 9 is dedicated to business to business B2B digital business models. It shows how companies focus on business solutions such as online provision of sourcing, sales, supportive collaboration and broker services. Chapter 10 shares insight into the innovation aspect of digital business models, presenting structures and processes of digital business model innovation. The book is rounded out by a comprehensive case study on Google Alphabet that combines all aspects of digital business models. Conceived as a textbook for students in advanced undergraduate courses, the book will also be useful for professionals and practitioners involved in business model innovation and applied researchers.

Organisational Behaviour: Engaging People and Organisations Ricky W. Griffin, Jean M. Phillips, Stanley M. Gully, Andrew Creed, Lynn Gribble, Moira Watson, 2023-10-01. Organisational Behaviour: Engaging People and Organisations is the only Organisational Behaviour text in the ANZ market to deliver a unique integrated learning model for the discipline and incorporate a critical perspective to a mainstream approach. The integrative model takes a robust approach by encompassing five levels of analysis: environment, individual, groups, leadership and organisation, and demonstrating how each relates to one another. It teaches a contemporary approach to Organisation Behaviour that aims to understand rather than control human behaviour in organisations. This EPAA award winning resource explores the critical perspective in Organisational Behaviour, providing a more authentic learning experience for students. Instructor Resources include instructor manual, PowerPoints, Testbank and student solution manual. **Consumer Protection, Automated Shopping Platforms and EU Law**

Christiana Markou, 2019-09-10. This book looks at two technological advancements in the area of e-commerce which dramatically seem to change the way consumers shop online. In particular, they automate certain crucial tasks inherent in the shopping activity, thereby relieving consumers of having to perform them. These are shopping agents or comparison tools and automated marketplaces. It scrutinizes their underlying processes and the way they serve the consumer, thereby highlighting risks and issues associated with their use. The ultimate aim is to ascertain whether the current EU regulatory framework relating to consumer protection, e-commerce data protection and security adequately addresses the relevant risks and issues, thus affording a safe shopping environment to the e-consumer.
