Veltman,2006 This book outlines the development currently underway in the technology of new media and looks further to examine the unforeseen effects of this phenomenon on our culture our philosophies and our spiritual outlook      *Die Bewertung von Content-Anbietern unter besonderer Berücksichtigung von Web 2.0* Alexander Fox,2010-04-27 Die Diskussion über bewertungsrelevante Charakteristika von Content Anbietern erfolgte in der Vergangenheit meist nur oberflächlich im Zusammenhang mit Internetunternehmen Alexander Fox analysiert die Anwendbarkeit verschiedener Bewertungsansätze anhand allgemeiner und Content Anbieter spezifischer Kriterien und untersucht den Einfluss aktueller Entwicklungen im Internetbereich Hierbei zeigt er auf dass kein Unternehmensbewertungsverfahren problem und bedenkenlos einsetzbar ist und analog jeder branchenspezifischen Bewertung auch bei Content Anbietern bestimmte Besonderheiten zu berücksichtigen sind      **The Internet Encyclopedia** Hossein Bidgoli,2004 Publisher Description      *The Internet Encyclopedia, Volume 1 (A - F)* ,2004-11-11 The Internet Encyclopedia in a 3 volume reference work on the internet as a business tool IT platform and communications and commerce medium      *Digital Business* Eloise Coupey,2016-09-16 As businesses adapt to the realities of the digital world and build on the hard won insights of the digital business pioneers increasing importance is placed on the need to understand how traditional concepts of business strategy and implementation are influenced by the Internet and to identify the novel aspects of business that are made possible by the Internet That is why this book was written How do you succeed in the digital business environment How do you make the transition from offline to online What aspects of your business will be affected and how should you manage them Digital Business Concepts and Strategies will help you develop the skills necessary to understand and integrate Internet technology and characteristics into business activity for attaining strategic objectives      **Behavioural Targeting** Alice Klever,2009-08-28 Consumers today are in the focus of a wide range of companies in a more and more global world all of which implies an increase of marketing activities and hence an increase of advertising effort Hundreds or even thousands of advertising messages are put in front of consumers every day through various media channels However every targeted customer has a very limited ability of perceiving advertising messages and

even a smaller percentage of what has been recognized is considered as being relevant Therefore consumers quite often feel harassed and overloaded by the mass of information the quality of advertising and the context in which it is shown and react protective towards advertising especially when they do not belong to the target group of the advertised product or service This implies a great amount of budget wastage and a potential damage to brand images since too many consumers are targeted with the wrong advertising message Furthermore media consumption has changed over the years while the consumption of TV for instance remains stable the internet consumption increases dramatically in the younger target groups it has already outgrown the TV consumption and therefore an attenuation of this trend can be expected This means more and more prospective consumers will spend more and more time online and are therefore important potential targets for advertising campaigns Keeping in mind the negative consequences of the irrelevant and too intense advertising the question arises if there is a way to avoid the drawbacks of offline media and use the opportunities offered by online media The necessity of defining the right target group for an advertising campaign is as undoubted as the difficulties implied in that process the end product being able to target the right persons online Behavioural targeting might offer a way to analyse online media and therefore to contribute to the requirements for optimal media planning in order to achieve a high degree
