draws on ten years of close observation to delve into the individual histories of select members of this community while also relating the cumulative story of Vancouver dance production and performance as it has unfolded in the past decade The voices of other invested participants interpolate this rich history and chapters are interspersed with a series of movement intervals that reflect key moments in Dickinson s history as a spectator scholar and collaborator In innovative ways Dickinson suggests that when we pay attention to the larger social topography of dance practice the sites that give rise to it the labour that goes into it and the professional friendships it engenders we can properly understand dance s contributions to civic life
