Illustrations included. A more well-known story. One of the best books to read. Extremely well formatted. Matte Attractive cover. *David Copperfield* is the eighth novel by Charles Dickens. The novel's full title is *The Personal History, Adventures, Experience, and Observation of David Copperfield the Younger of Blunderstone Rookery Which He Never Meant to Publish on Any Account*. It was first published as a serial in 1849-50 and as a book in 1850. The novel features the character David Copperfield and is written in the first person as a description of his life until middle age, with his own adventures and the numerous friends and enemies he meets along his way. It is his journey of change and growth from infancy to maturity as people enter and leave his life, and he passes through the stages of his development. It has been called his masterpiece, the triumph of the art of Dickens, which marks a turning point in his work, the point of separation between the novels of youth and those of maturity. Though written in the first person, *David Copperfield* is considered to be more than an autobiography, going beyond this framework in the richness of its themes and the originality of its writing, which makes it a true autobiographical novel. 4.5 In the words of the author, this novel was a very complicated weaving of truth and invention. Some elements of the novel follow events in Dickens's own life. It was Dickens' favourite among his own novels. In the preface to the 1867 edition, Dickens wrote, like many fond parents, I have in my heart of hearts a favourite child, and his name is David Copperfield. **David Copperfield** Charles Dickens, Jeremy Tambling, 1999-12-02 A scholarly edition of a work by Bernard Mandeville. The edition presents an authoritative text together with an introduction, commentary, notes, and scholarly

apparatus **Dickens and the Imagined Child** Peter Merchant, Catherine Waters, 2016-04-22 The figure of the child and the imaginative and emotional capacities associated with children have always been sites of lively contestation for readers and critics of Dickens In *Dickens and the Imagined Child* leading scholars explore the function of the child and childhood within Dickens's imagination and reflect on the cultural resonance of his engagement with this topic Part I of the collection examines the Dickensian child as both characteristic type and particular example proposing a typology of the Dickensian child that is followed by discussions of specific children in *Oliver Twist* *Dombey and Son* and *Bleak House* Part II focuses on the relationship between childhood and memory by examining the various ways in which the child's eye view was reabsorbed into Dickens's mature sensibility The essays in Part III focus upon reading and writing as particularly significant aspects of childhood experience from Dickens's childhood reading of tales of adventure they move to discussion of the child readers in his novels and finally to a consideration of his own early writings alongside those that his children contributed to the *Gad's Hill Gazette* The collection therefore builds a picture of the remembered experiences of childhood being realised anew both by Dickens and through his inspiring example in the imaginative creations that they came to inform While the protagonist of *David Copperfield* that favourite child among Dickens's novels comes to think of his childhood self as something which he left behind upon the road of life for Dickens himself leafing continually through his own back pages there can be no putting away of childish things Textual Translation and Live Translation Fernando Poyatos, 2008-09-17 After the many interdisciplinary perspectives on nonverbal communication offered by the author in his previous seven John Benjamins books which have generated a wide range of scholarly applications the present monograph is dominated by a very broad concept of translation This treatment of translation includes theater and cinema enriching our intellectual sensorial experience of both reading act and viewing act and offers among other topics sensorial intellectual emotional pre and post reading interactions with books mute or audible oralization of texts the translator's linguistic and nonverbal cultural fluency and implicit textual paralanguage and kinesics translating functions of pictorial illustrations the blind's text and film perception the foreign reader's cultural background and circumstances theater and cinema spectators total sensory intellectual experience of plays and films beyond staging or projection the multiple interrelationships between cinema and theater performers spectators and their environments of special interest to all those involved in the theater and the translator's challenging textual perception of sounds and movements Over 800 literary quotations and two virtually exhaustive English inventories of sound and movement denoting words with many examples offer serious students of translation language or literature a rich reference and drill source **Making Time** Carolin Gebauer, 2021-04-19 2023 Perkins Prize of the International Society for the Study of Narrative ESSE Book Award for Junior Scholars for a book in the field of Literatures in the English Language Responding to the current surge in present tense novels *Making Time* is an innovative contribution to narratological research on present tense usage in narrative fiction Breaking with the tradition of conceptualizing the present tense purely as a deictic category

denoting synchronicity between a narrative event and its presentation the study redefines present tense narration as a fully fledged narrative strategy whose functional potential far exceeds temporal relations between story and discourse The first part of the volume presents numerous analytical categories that systematically describe the formal structural functional and syntactic dimensions of present tense usage in narrative fiction These categories are then deployed to investigate the uses and functions of present tense narration in selected twenty first century novels including Hilary Mantel s *Wolf Hall* Margaret Atwood s *Oryx and Crake* Ian McEwan s *Nutshell* and Irvine Welsh s *Skagboys* The seven case studies serve to illustrate the ubiquity of present tense narration in contemporary fiction ranging from the historical novel to the thriller and to investigate the various ways in which the present tense contributes to narrative worldmaking **Outlandish English Subjects in the Victorian Domestic Novel** T. Carens, 2005-10-19 Victorian domestic novels routinely detect a savage otherness lurking within the English state and subject *Outlandish English Subjects in the Victorian Domestic Novel* charts the development of this irony within evangelical and anthropological discourses and studies its emergence in the major works of Charles Dickens Charlotte Brontë Wilkie Collins and George Meredith Each of these writers disrupts the certitudes of imperial ideology by appropriating the language of ethnography and using it to describe the social domestic field Providing fresh readings of both canonical and neglected novels this original volume will be of interest to students and scholars of Nineteenth Century literature and Postcolonial studies **The Realist Novel** Dennis Walder, 2005-08-18 This book guides the student through the fundamentals of this enduring literary form By using carefully selected novels the authors provide a lively examination of the particular themes and modes of realist novels of the period **Phenomenological Perspectives on Shame** William S. Hamrick, 2024-10-12 This book utilizes Maurice Merleau Ponty s fascinating philosophy of embodiment to cast further light on the incredibly rich and complex phenomenon of shame The philosopher himself made only scattered references to shame but both his early phenomenology and his later phenomenological ontology do provide unique illumination of the phenomenon The book demonstrates how Merleau Ponty s work is relevant to those of certain other thinkers in the analytic tradition **Newgate** Stephen Halliday, 2007-12-31 There have been more prisons in London than in any other European city Of these Newgate was the largest most notorious and worst Built during the twelfth century it became a legendary place the inspiration of more poems plays and novels than any other building in London It was a place of cruelty and wretchedness at various times holding Dick Turpin Titus Oates Daniel Defoe Jack Sheppard and Casanova Because prisons were privately run any time spent in prison had to be paid for by the prisoner Housing varied from a private cell with a cleaning woman and a visiting prostitute to simply lying on the floor with no cover Those who died inside and only a quarter of prisoners survived until their execution day had to stay in Newgate as a rotting corpse until relatives found the money for the body to be released Stephen Halliday tells the story of Newgate s origins the criminals it held the punishments meted out and its rebuilding and reform This is a compelling slice of London s social and criminal history **Tuberculosis and the Victorian**

Literary Imagination Katherine Byrne, 2011 This book examines representations of tuberculosis in Victorian fiction giving insights into how society viewed this disease and its sufferers

The One vs. the Many Alex Woloch, 2009-02-09 Does a novel focus on one life or many Alex Woloch uses this simple question to develop a powerful new theory of the realist novel based on how narratives distribute limited attention among a crowded field of characters His argument has important implications for both literary studies and narrative theory Characterization has long been a troubled and neglected problem within literary theory Through close readings of such novels as *Pride and Prejudice* *Great Expectations* and *Le Père Goriot* Woloch demonstrates that the representation of any character takes place within a shifting field of narrative attention and obscurity Each individual whether the central figure or a radically subordinated one emerges as a character only through his or her distinct and contingent space within the narrative as a whole The character space as Woloch defines it marks the dramatic interaction between an implied person and his or her delimited position within a narrative structure The organization of and clashes between many character spaces within a single narrative totality is essential to the novel's very achievement and concerns striking at issues central to narrative poetics the aesthetics of realism and the dynamics of literary representation Woloch's discussion of character space allows for a different history of the novel and a new definition of characterization itself By making the implied person indispensable to our understanding of literary form this book offers a forward looking avenue for contemporary narrative theory

Charles Dickens, A Tale of Two Cities and the French Revolution C. Jones, J. McDonagh, J. Mee, 2009-05-26 *A Tale of Two Cities* has always been one of Dickens's most popular texts Using a variety of disciplinary approaches this new collection of essays examines the origins of Dickens's vision of the French Revolution the literary power of the text itself and its enduring place in British culture through stage and screen adaptations

The Romantic Legacy of Charles Dickens Peter Cook, 2018-08-29 This book explores the relationship between Dickens and canonical Romantic authors Blake Wordsworth Coleridge Byron Percy and Mary Shelley and Keats Addressing a significant gap in Dickens studies four topics are identified Childhood Time Progress and Outsiders which together constitute the main aspects of Dickens's debt to the Romantics Through close readings of key Romantic texts and eight of Dickens's novels Peter Cook investigates how Dickens utilizes Romantic tropes to express his responses to the exponential growth of post revolutionary industrial technological culture and its effects on personal life and relationships In this close study of Dickensian Romanticism Cook demonstrates the enduring relevance of Dickens and the Romantics to contemporary culture
