

Magic Bullet Theory.

The magic bullet theory (also called the hypodermic needle theory) suggests that *mass communication is like a gun firing bullets of information at a passive audience*. "Communication was seen as a magic bullet that transferred ideas or feelings or knowledge or motivations almost automatically from one mind to another" (Schramm 2).

Hypodermic Needle Theory, also known as Magic Bullet Theory (hypodermic syringe model or transmission-belt model) was promulgated by Harold Laswell in 1920s. It was written in the book "Propaganda Technique" in the World War.

The "Magic Bullet" theory graphically assumes that the media' it suggests that the media injects its messages straight into the passive audience. This passive audience is immediately affected by these messages. The public essentially cannot escape from the media's influence, and is therefore considered a "sitting duck". This suggests that the public is vulnerable to the messages shot at them because of the limited communication tools and the studies of the media's effects on the masses at the time. It means the media explores information in such a way that it injects in the mind of audiences as bullets. message is a bullet fired from the "media gun" into the viewer's "head".

Theory :

The media (magic gun) fired the message directly into audience head without their own knowledge. The message cause the instant reaction from the audience mind without any hesitation is called "Magic Bullet Theory". The media (needle) injects the message into audience mind and it cause changes in audience behavior and psyche towards the message. Audience are passive and they can't resist the media message is called "Hypodermic Needle Theory".

Both theories deal with impact of media messages in audience mind and how audience react towards the message without any hesitation.

Example :

In 1930, Newly formed mercury theater and Orson Wells join together and created a fake news bulletin about aliens invasion in American city called Grover's Mill, New Jersey. They broadcast this news bulletin in between the radio program called "The War of the Worlds". The "Panic Broadcast" was reached merely 12 million American people and one million were seriously believed. Due to this broadcast the whole country was in chaos.

The theory is a linear model of communication and talks about media's power on audience. The message, in this theory, is said to be like a magic bullet which enters the minds of audience and

Ethics and Sustainability in Digital Cultures Thomas Taro Lennerfors, Kiyoshi Murata, 2023-10-09 Digital technologies now ubiquitous around the world can promote positive values as well as support those that are less socially acceptable To better understand such technologies impact on ethics and sustainability this book situates digital technologies within a cultural context arguing that the technology is received differently in different cultural contexts The book contains chapters on state of the art digital technologies such as artificial intelligence from various countries including Japan and Sweden to highlight the multifarious ways in how ethical and sustainability issues are being manifested in certain cultural contexts The book contributes to furthering understandings on the similarities and differences between digital technology implementations in different cultures promoting a cross cultural dialogue on desired values and how they are promoted or downplayed by such technologies The book is divided into two parts the former focuses on how individuals relate to new digital technologies and the latter focuses on those who develop digital technologies The book targets scholars businesspeople and policymakers interested in the interconnection between digital technologies ethics and sustainability from various cultural viewpoints It provides new case studies on a range of digital technologies and discussions about digital technology implementations in cultural contexts

Who killed John F. Kennedy and Why? Kevin Quinn, This is an Enhanced E Book Edition with videos and pictures President John F Kennedy tried to Warn us of the secrete Shadow Government that has taken control of our country There is a plot in this country to enslave every man woman and child Before I leave this high and noble office I intend to expose this plot In a speech three weeks before he was murdered John F Kennedy asked the American people for their help in this tremendous task of informing and alerting the American people For I have complete confidence in the response and dedication of our Citizens whenever they are fully informed Because he knew that he could not defeat this secrete society of corporate demons on his own But I am confident that with your help man will be what he was born to be Free and Independent Kennedy realized as do many American s today that the CIA possessed entirely too much power and was placing our Nation in grave danger acting on their own starting war after war after war without the consent or authority of either the President Congress or the American people Kennedy angrily vowed to splinter the CIA into a thousand pieces and scatter them to the winds Twice the CIA flatly refused to carry out the President s orders concerning Vietnam and their planned invasion of Cuba because the agency disagreed with him Kennedy likened the CIA S growth to a malignancy which he was not sure even the White House could control any longer The agency represents a tremendous power and total unaccountability to anyone Kennedy went on to say that If the United States ever experiences an attempt at a coup to overthrow the Government it will come from the CIA John F Kennedy tried to end the Wars and do away with the Federal Reserve Banksters that control our government and a month later they blew his brains out into a thousand pieces and scattered them to the winds

David Ferrie Judyth V. Baker, 2014-10-01 Of the all the people surrounding the

assassination of President Kennedy few are more mysterious and enigmatic than David William Ferrie of New Orleans Author Judyth Vary Baker knew David Ferrie personally and worked with him in a covert project in New Orleans during the summer of 1963 and this book examines his strange and puzzling behavior both before and after the assassination At the time of the assassination Ferrie was a 45 year old New Orleans resident who was acquainted with some of the most notorious names linked to the assassination Lee Oswald Clay Shaw Guy Banister Jack Ruby and Carlos Marcello He possessed assorted talents and eccentricities he was at one time a senior pilot with Eastern Airlines until he was fired for homosexual activity on the job he was also a hypnotist a serious researcher of the origins of cancer an amateur psychologist and a victim of a strange disease alopecia which made all of his body void of hair His odd lifestyle was embellished with an equally bizarre appearance featuring a red toupee and false eyebrows This is the first book focused solely on David Ferrie and his alleged involvement in the conspiracy to assassinate President John F Kennedy

Thinking Critically About the Kennedy Assassination Michel Jacques Gagné, 2022-03-27 Thinking Critically About the Kennedy Assassination uses the tools of critical thinking historical research and philosophical inquiry to debunk the many myths and conspiracy theories surrounding JFK s shocking and untimely death As we approach the 60th anniversary of the violent public assassination of President John F Kennedy over half of all Americans surveyed continue to believe that he was killed by a conspiracy involving multiple assassins Through its reasoned and detailed analysis of the content and evolution of JFK conspiracy narratives this book also serves as a comprehensive case study of paranoid reasoning and modern mythmaking The book s opening chapters lay out the official academic consensus concerning the Kennedy assassination better known as the Lone Gunman Theory and discuss the origins of popular interpretations of Kennedy s life and death such as the nostalgic myth of Camelot the unsympathetic Irish Mafia narrative and the many conspiracy theories critical of both Subsequent sections scrutinize the alleged motives of leading conspiracy suspects the ballistic forensic and medical evidence related to JFK s murder and the most popular proofs of an enduring government cover up The book concludes that no clear evidence exists to suggest that JFK was the victim of a conspiracy and ends with a discussion of the causes and consequences of paranoid thinking in contemporary public discourse This volume will appeal to students of history politics psychology and cultural and media studies and to a broader audience interested in American history critical thinking and conspiracy thinking

Arlen Specter Evan Laine, 2021-04-20 From his early work as a lawyer on the Warren Commission investigating the assassination of President John F Kennedy to his days as Philadelphia s district attorney to his thirty year career as a United States Senator from Pennsylvania Arlen Specter found himself consistently in the middle of major historical events During his five terms as senator Specter met with the likes of Palestine Liberation Organization leader Yasser Arafat and Cuban Prime Minister Fidel Castro and made significant contributions during the fallout of both the

Iran Contra scandal and the Clinton impeachment His work had a profound influence on the configuration of the United States Supreme Court the criminal justice system LGBTQ rights and stem cell research Photographs from Specter s personal collection highlight many of these key moments revealing the rich narrative not only of one man s political career but how it helped shape a nation While it will probably be long debated whether Specter s complex and controversial political legacy merits mainly praise or criticism Arlen Specter sheds new light on the life of a man who fought to make a difference

Adopting Information Systems Perspectives from Small Organizations Özgün Imre, 2017-12-08 Why do organizations adopt information systems Is it just because of financial reasons of concerns for efficiency Or is it due to external pressures such as competitor pressure that an organization adopts an information system And how does the adoption take place Is it a linear process or is the process one of conflicts Does a specific person govern this process or do we have multiple parties involved What happens if these conflicts occur among those involved How does the organization move on and achieve a successful information system adoption By investigating two organizations one international academic journal and one South American manufacturing company this thesis aims to investigate the whys and hows of information system adoption and aims to contribute to the discourse on information system adoptions in small organizations an often underrepresented segment in information system adoption literature By adopting different theoretical lenses throughout the five research papers included this body of work suggests that even when seemingly simple information system adoptions can become rather complex The cases reveal that the role of information systems and issues related to information system adoptions are often not well thought out in the early days of the organization The actors understandings of adoption and consequences mature and the information systems become more intertwined Common use of stakeholder theory introduces general stakeholders and their interaction with the focal organization The cases reveal that the adoption process involves multiple actors even within what would initially appear as a stakeholder and that those actors can be in conflict with each other These conflicts often lead to negotiations and the cases reveal that these negotiations are opportunities of learning the actors engage with the information system and with each other gaining new knowledge about the issues at hand The dissertation argues that there are various social worlds in information system adoptions and various factors ranging from organizational structure to social norms that often affect why and how the organization undergoes an adoption process The multiple power relations and divergent interests of stakeholders in these adoption processes and how information systems affect other parts of the organization reinforce the need for a well thought out flexible and reflexive approach to information system adoptions

Notizen zur jüngeren Weltgeschichte Lars Schall, 2022-04-12 Die in diesem Buch versammelten Aufsätze gehen unter anderem folgenden Fragen nach: Wer den berichtigten Paragraphen 231 des Versailler Vertrags schrieb, ob US-Firmen von der Kriegsmaschinerie Nazi-Deutschlands profitierten, welche Bank das Privatvermögen des Schahs von Persien handhabte, wohin der Kampf von Martin Luther King Jr. kurz vor dessen gewaltsamen Tod strebte, welche elitäre Gruppe dem Euro auf die Beine half, ob der Goldpreis manipuliert wird wie die Gewinner der US-Finanzkrise heißen und ob es die Geldschöpfung ex nihilo gibt.

Treason From Within Donald T. Phillips, 2023-10-03 The First Comprehensive Treatment of the Kennedy Assassination The US government lied to the American people about President Kennedy's death. But ironically it was the American people who solved the crime. Over the past half century hundreds of researchers investigated one or more parts of the murder, often using their own expertise such as photography, computers, science, medical expertise and analytical skills. Taken together their detailed work illuminated what really happened. Author Donald T. Phillips has been following the Kennedy assassination since it happened. This book begins at the end of World War II and concludes when the Warren Commission was formed. Revealed along the way is the truth about the Bay of Pigs, the Cuban Missile Crisis, the ambush in Dealey Plaza and JFK's fraudulent autopsy. During his two years and eight months in office, President Kennedy prevented the US government from instigating a war that could have involved nuclear weapons in Vietnam, Laos, Berlin, the Soviet Union and Cuba. He was leading the nation away from armed conflict, ending the Cold War and setting the stage for a lasting peace with all nations. In doing so, however, JFK was threatening long established power structures within the government. So on November 22, 1963, in broad daylight, they shot him in the back and blew his brains out. It was a premeditated, deliberate, willful act of murder with malice aforethought. And they got away with it. No one who participated in the crime was ever brought to justice. Treason From Within answers the questions: Who killed President Kennedy? Why was he killed? How was he killed? HIT or Miss for the Student Jonathan Leviss, 2019-05-31 HIT or Miss for Student: Lessons Learned from Health Information Technology Projects presents and dissects a wide variety of HIT failures so that the students can understand in each case what went wrong and why and how to avoid such problems without focusing on the involvement of specific people, organizations or vendors. The lessons may be applied to future and existing projects or used to understand why a previous project failed. The student also learns how common causes of failure affect different kinds of HIT projects and with different results. Cases are organized by the type of focus: hospital care, ambulatory care and community. Each case provides analysis by an author who was involved in the project plus the insight of an HIT expert. This book presents a model to discuss HIT failures in a safe and protected manner, providing an opportunity to focus on the lessons offered by a failed initiative as opposed to worrying about potential retribution for exposing a project as having failed. Access expert insight into key obstacles that must be overcome to leverage IT and transform healthcare. Each identified case study includes an analysis by a group of industry experts along with a

counter analysis Cases include a list of key words and are categorized by project e g CPOE business intelligence Each chapter or case contains test questions and study suggestions for the student Answers are provided as an appendix to the book Whether you re a graduate student in a health administration or health IT program or attending training sessions sponsored by their healthcare organization this valuable resource for all who want to understand the dynamics of HIT projects and why some fail and others succeed
