Underwood, 2021-04-13 Despite his celebrity and his fame a series of literary feuds and the huge volume of sources have until now precluded a satisfying biography of Allen Tate Anyone interested in the literature and history of the American South or in modern letters will be fascinated by his life Poetry readers recognize Tate whom T S Eliot once called the best poet writing in America as the author of some of the twentieth century s most powerful modernist verse Others know him as a founder of *The Fugitive* the first significant poetry journal to emerge from the South Tate joined William Faulkner and others in launching what came to be known as the Southern Literary Renaissance In 1930 he became a leader of the Southern Agrarian movement perhaps America s final potent critique of industrial capitalism By 1938 Tate had departed politics and written *The Fathers* a critically acclaimed novel about the dissolution of the antebellum South He went on to earn almost every honor available to an American poet His fatherly mentoring of younger poets from Robert Penn Warren to Robert Lowell and of southern novelists including his first wife Caroline Gordon elicited as much rebellion as it did loyalty Long awaited and based on the author s unprecedented access to Tate s personal papers and surviving relatives *Orphan of the South* brings Tate to 1938 It explores his attempt first through

politics and then through art to reconcile his fierce talent and ambition with the painful history of his family and of the South Tate was subjected to and also perpetuated fictional interpretations of his ancestry He alternately abandoned and championed Southern culture Viewing himself as an orphan from a region where family history is identity he developed a curious blend of spiritual loneliness and ideological assuredness His greatest challenge was transforming his troubled genealogy into a meaningful statement about himself and Southern culture as a whole It was this problem that consumed Tate for the first half of his life the years recorded here This portrait of a man who both made and endured American literary history depicts the South through the story of one of its treasured ambivalent and sometimes wayward sons Readers will gain a fertile understanding of the Southern upbringing education and literary battles that produced the brilliant poet who was Allen Tate

The Pursuit of Oblivion Richard Davenport-Hines,2012-11-29 The most important study on this subject in years perhaps ever Phillip Knightley SUNDAY TIMES A history of drug taking telling the story across five centuries of addicts and users monarchs prime ministers great writers and composers wounded soldiers overworked physicians oppressed housewives exhausted labourers high powered businessmen playboys sex workers pop stars seedy losers stressed

adolescents defiant schoolchildren the victims of the ghetto and happy young people on a spree It is also the history of one bad idea prohibition You ll find almost everything you ever wanted to know about drugs in this work except how to get hold of them Simon Garfield FINANCIAL TIMES Everyone with any influence on government policy should read this book and wake up before it is too late Phillip Knightley SUNDAY TIMES **A Talent for Living** Barbara L. Bellows,2006-06-21 Josephine Pinckney 1895 1957 was an award winning best selling author whose work critics frequently compared to that of Jane Austen Edith Wharton and Isak Dinesen Her flair for storytelling and trenchant social commentary found expression in poetry five novels Three O Clock Dinner was the most successful stories essays and reviews Pinckney belonged to a distinguished South Carolina family and often used Charleston as her setting writing in the tradition of Ellen Glasgow by blending social realism with irony tragedy and humor in chronicling the foibles of the South s declining upper class Barbara L Bellows has produced the first biography of this very private woman and emotionally complex writer whose life story is also the history of a place and time Charleston in the first half of the twentieth century In A Talent for Living Pinckney s life unfolds like a novel as she struggles to escape aristocratic codes and the ensnaring bonds of southern ladyhood and to embrace modern freedoms In 1920 with DuBose Heyward and Hervey Allen she founded the Poetry Society of South Carolina which helped spark the southern literary renaissance Her home became a center of intellectual activity with visitors such as the poet Amy Lowell the charismatic presidential candidate Wendell Willkie and the founding editor of the Saturday Review of Literature Henry Seidel Canby Sophisticated and cosmopolitan she absorbed popular contemporary influences particularly that of Freudian psychology even as she retained an almost Gothic imagination shaped in her youth by the haunting tragic beauty of the Low Country and its mystical Gullah culture A skilled stylist Pinckney excelled in creating memorable characters but she never scripted an individual as engaging or intriguing as herself Bellows offers a fascinating exhaustively researched portrait of this onetime cultural icon and her well concealed personal life **PGI CHANDIGARH**

SUPPLEMENT NOV-2017 Mr Manoj Chaudhary,2018-03-16 PGI Chandigarh Supplement Nov 2017 *Empire, Politics and the Creation of the 1935 India Act* Andrew Muldoon,2016-05-06 The 1935 Government of India Act was arguably the most significant turning point in the history of the British administration in India The intent of the Act a proposal for an Indian federation was the continuation of British control of India and the deflection of the challenge to the Raj posed by Gandhi Nehru and the nationalist movement This book seeks to understand why British administrators and politicians believed that such a strategy would work and what exactly underpinned their reasons It is argued that British efforts to defuse and disrupt the activities of Indian nationalists in the interwar years were predicated on certain cultural beliefs about Indian political behaviour and capacity However this was not simply a case of Orientalist policy making Faced with a complicated political situation a staggering amount of information and a constant need to produce analysis the officers of the Raj imposed their own cultural expectations upon events and evidence to render them comprehensible Indians themselves

played an often overlooked role in the formulation of this political intelligence especially the relatively few Indians who maintained close ties to the colonial government such as T B Saprú and M R Jayakar These men were not just mediators as they have frequently been portrayed but were in fact important tacticians whose activities further demonstrated the weaknesses of the colonial information economy The author employs recently released archival material including the Indian Political Intelligence records to situate the 1935 Act in its multiple and overlapping contexts internal British culture and politics the imperial information order in India and the politics of Indian nationalism This rich and nuanced study is essential reading for scholars working on British Indian and imperial history
