Decentralization And Public Service Delivery In Asia:

Decentralization and Public Service Delivery in Asia Giorgio Brosio, 2014 This paper assesses how decentralization can contribute if proper political and fiscal institutions are present to improving service delivery in Asia In other words decentralization is an opportunity and a challenge at the same time The paper presents the salient characteristics of decentralized government in Asia and then focuses on the analysis of critical issues leading to partial decentralization that is common to most models Consideration is also given to the emerging challenges common to most Asian systems Finally the paper addresses the issue of decentralization in the education sector This is a crucial sector in terms of costliness and of impact on national growth and individual opportunities where however the outcomes of decentralization are difficult to assess *Decentralization, Local Governance, and Localizing the Sustainable Development Goals in Asia and the Pacific* Bruno Carrasco, Hanif A. Rahemtulla, Rainer Rohdewohld, 2022-10-12 Since its adoption in 2015 the 2030 Agenda on Sustainable Development has shaped not only international development cooperation but also the design of national trajectories for social and economic development In tandem with other global agendas adopted that year such as the Paris Agreement on Climate Change and UN Habitat's New Urban Agenda it remains the global and regional blueprint for sustainable development despite the COVID 19 pandemic The term localizing the Sustainable Development Goals SDGs has been used to capture the importance of subnational governments for achieving national SDG agendas However there is little deeper analysis of the required nexus between fiscal political and legal arrangements for SNGs their involvement in national policy arenas which discuss and decide on national SDG strategies and the need for locally disaggregated data systems on the one hand and effective SDG localization strategies on the other hand It is this aspect which the present publication explores in greater detail by using country examples and conceptual analyses The text will be of interest to policymakers scholars students and practitioners in public policy and public administration decentralization and sustainable development with a focus on the Asia and Pacific region The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivative License CC BY NC ND 3 0 IGO

Emerging Practices in Intergovernmental Functional Assignment Gabriele Ferrazzi, Rainer Rohdewohld, 2017-06-26 Attaining the benefits of especially fiscal decentralization in government remains an enduring challenge in part because the re arrangement of public functions across levels of government has often been carried out poorly This book aims to provide a firmer conceptual basis for the re arrangement of public functions across levels of government In doing so it offers practical

Decentralization Policies in Asian Development Shinichi Ichimura, 2009 This book explores the important topic of fiscal decentralization in Asian countries and focuses on how government finance and administration are being reformed to bring budgetary decisions closer to voters The focus on Asia is especially important because all countries in this region have been undergoing serious fiscal reforms in the past decade They include one of the biggest decentralization reforms in Indonesia significant reforms in democratic Philippines and Vietnam which are in transition and Japan whose fiscal reconstruction program is covered extensively India and China which are also covered are very special cases because of their size and because their policies must fit decentralization into a significant economic growth scenario

Asian Cities in an Era of Decentralisation Michelle Ann Miller, Tim Bunnell, 2016-03-16 This book critically engages with the idea of decentralization as empowering cities and their residents to act innovatively and creatively The contributions thus highlight how the term empowerment in the context of decentralization regimes masks a competing array of intentions and agendas Who and what are empowered given a voice and allowed to participate via the processes and structures of decentralization and to what ends are too frequently assumed in normative conversations about bringing government closer to the people and community driven development Creating an illusion of a shared language and common set of priorities therefore obscures more complex realities particularly when there is a disconnect between the official goals of decentralization and civil society aspirations that reinforces politics of exclusion at the grassroots Equally official processes of decentralization can and often are accompanied by less visible processes of recentralization through the

reassertion of central state control over putatively autonomous jurisdictions Through studies in six Asian countries India the Philippines Indonesia Bangladesh Thailand and Japan the essays in this book examine cases whereby a range of urban actors and institutions have been empowered via decentralization and how this realignment of local power relations impacts upon the dynamics of urban governance albeit not always in socially progressive ways This book was published as a special issue of Space and Polity
