Decision Making In Plastic Surgery:

Oxford Textbook of Shared Decision Making in Healthcare ,2025-08-21 Healthcare systems around the world are placing increasing importance on the relationship between patient choice and clinical decision making with many countries having shared decision making as a central theme in their healthcare policy developments The concept of shared decision making SDM in healthcare is simple clinicians and patients work together when solving problems and making decisions However the context and implementation are more challenging Written by a global team of experts the Oxford Textbook of Shared Decision Making fourth edition examines from both theoretical and practical perspectives what comprises an effective decision making process looking at the benefits and potential difficulties that arise when patients and clinicians share healthcare decisions The first sections cover the theory methods and implementation of SDM Later sections examine SDM from the viewpoints of different clinical and surgical specialities and allied disciplines such as nursing pharmacy and midwifery Each chapter contains reflections from a patient partner with lived experience of SDM giving a truly diverse and collaborative account of how SDM can work between patients families carers and healthcare professionals Authoritative evidence based and grounded in clinical practice the Oxford Textbook of Shared Decision Making explores a very important paradigm shift in the delivery of healthcare providing thoughtful consideration and key strategies for its successful implementation

Decision Making in Plastic Surgery Jeffrey Marsh,Chad Perlyn,2010-04-30 Decision Making in Plastic Surgery edited by Drs Jeffrey L Marsh and Chad A Perlyn is destined to become a favorite with all students of plastic surgery whether residents in training or experienced practitioners It provides essential tools for clinical problem solving for a wide range of aesthetic and reconstructive problems The unique format composed of algorithms with supporting text provides the reader with a virtual roadmap for navigating the decision making process that characterizes the management of plastic surgery clinical problems Comprehensive Coverage Divided into three parts with numerous subsections and chapters this book s coverage ranges from head to toe and from reconstructive to aesthetic The first part discusses fundamentals and includes chapters on upper and lower facial lacerations acute ear trauma acute burns frostbite pressure sores and scars Part II Reconstructive Surgery includes comprehensive subsections on skin head and neck congenital anomalies dentoskeletal malocclusion craniofacial trauma neoplasms and reconstruction breast and trunk and upper and lower extremities And Part III Aesthetic Surgery contains sections on skin scalp brow and periorbital area face nose breast body contouring and body contouring after massive weight loss Expert Editors and Contributors Drs Marsh and Perlyn are talented educators and expert surgeons They have gathered an impressive group of rising stars and recognized leaders in plastic surgery to write chapters and share their expertise in patient management strategies for different clinical problems Unique Format The decision making format provides information in a convenient and accessible manner Readers can compare their approach to that of the experts as they trace the decision trees outlining treatment options for different clinical problems The design and

organization of the book permits quick and easy reading On the right hand page the reader finds an algorithm to indicate the problem surgical interventions and endpoints surgical and nonsurgical options and the hierarchy of what options work best for different situations On the left hand page is descriptive text that is keyed into the algorithms so the reader can easily follow the different steps being described Legends introduce each section providing a key to the colored boxes bullet points and arrows that point to the different treatment options This book is essential reading for all students of plastic surgery It provides a needed life boat when planning any surgical intervention Hot Topics Body contouring Facial aesthetic surgery Hand trauma Facial fractures Limb reconstruction Breast surgery Surgical Decision Making Rifat Latifi, 2016-04-30 This text provides a comprehensive and state of the art overview of the major issues specific to the surgical decision making process These include patient s anatomy and pathophysiology as well as the magnitude of the injury at hand the surgeon s own physiologic and mental status training and experience and many other factors such as creativity leadership skills and overall biochemistry of the environment The text reviews theoretical as well as objective information that surgeons use to make intraoperative decisions in situations often with very limited data decisions that will decide between a patient s living or dying such as in trauma surgery and other complex surgeries How surgeons choose one technical approach over another in these situations is covered This book fills a critical need for resource materials on these topics and includes both theoretical as well as practical presentations of many typical patients seen in operating rooms around the world Surgical Decision Making Beyond the Evidence Based Surgery is written by academic and clinical practicing surgeons that face intraoperative decision situations on a daily basis and therefore provides a unique and valuable resource in the field for surgeons currently in training and for those already in clinical or research practice *Outcomes Measures in Plastic Surgery, An Issue of Clinics in Plastic Surgery* Kevin C. Chung, Andrea L Pusic, 2013-04-28 Outcomes familiar in medicine fields but only in recent decades becoming more of an issue for surgeons the highly subspecialized nature of the surgical profession and breadth of procedures along with variance in patient population creates a challenge in achieving useful informative outcomes Here in this issue of Clinics in Plastic Surgery the focus is on evidence based practice and outcomes in plastic surgery spanning the major areas of cosmetic and reconstructive surgery Outcomes as guidance for the surgeon s decision regarding approaches and techniques for procedures is the approach Some of the topics covered are Measuring Outcomes in Aesthetic Surgery Measuring Outcomes in Craniofacial and Pediatric Surgery Measuring Outcomes in Hand Surgery How to Link Outcomes Data to Quality Initiatives in Plastic Surgery along with How to Use the Outcomes Questionnaire Pearls and Pitfalls among others Guest Editors Kevin Chung and Andrea Pusic lead this review Dr Chung is involved with structuring evidence based practice and research in hand surgery to derive the best evidence to guide treatment for upper extremity conditions and he developed the Michigan Hand Outcomes Questionnaire Dr Pusic developed the BREAST Q which measures satisfaction and quality of life outcomes among breast reconstruction patients Out of the

BREAST Q has come the FACE Q which provides a clinically useful patient reported outcome measure of satisfaction and quality of life following elective surgical and non surgical facial rejuvenation

An Introduction to Medical Decision-Making Jonathan S. Vordermark II, 2019-10-16 This volume presents novel concepts to help physicians and health care providers better understand the thought processes and approaches used in clinical decision making and how we develop those skills as we transition from being a medical student to post graduate trainee to independent practitioner Approaches presented range from simple rules of thumb pattern recognition and heuristics to more formulaic methods such as standard operating procedures checklists evidence based medicine mathematical modeling and statistics Ways to recognize and manage errors and how our decision making can be improved are also discussed An Introduction to Medical Decision Making presents several innovative techniques to allow the reader to use the principles presented and integrate the ethical humanistic and social aspects of decision making with the pragmatic and knowledge based aspects of clinical medicine It also highlights how our thinking processes emotions and biases affect decision making This invaluable resource will allow students and physicians to evaluate and critically discuss their decisions objectively to become more efficient and effective and maximize the quality of care they provide
