The Technopolitics of Communication in Modern India Pragya Dhital, 2024-12-12 This book offers a groundbreaking

account of the role of media technologies in Indian nationalism and democracy From the Brexit referendum in 2016 to the phenomenon of Trumpism there has been much speculation about the role played by new media in an apparent return of illiberal politics and primordial identities Dhital argues these developments could best be understood by not taking identity for granted as a static and exclusive form of affiliation She also emphasises how the technical and material are interwoven into human thought and action rather than acting upon them externally She accordingly focuses on the technopolitical means by which groups have been ventriloquised during critical periods in Indian political history across various media from newspapers and magazines to radio broadcasts speeches and online platforms Chapters cover prison writing produced during the emergency of 1975 77 regulation of public speech during the 2014 general election and the Citizenship Amendment Act protests of 2019 20 Through these case studies Dhital works towards an alternative more reflexive basis for popular representation one that does not sacralise the people and assume power in their name Islamophobia in European Cities Francesco Trupia,2025-03-31 The demise of socialism in Southeast Europe coincided with the breakout of wars and genocidal violence against local Muslim populations After being displaced and forced to migrate to different European countries those former socialist citizens quickly developed institutions of sociability and unobtrusively enacted postulates of solidarity This book brings a spotlight on the generations after born to Balkan Muslim families whose repatriation could not take place due to the continuous political instability and insecurity in their homelands It investigates the new modes of these second generations to respond to the current crisis of liberal democracy and rampant Islamophobia in their places of residence By relating spatial issues to broader religious and political questions this study shines a light on the civic engagement religious practices and political sensitivities of young Muslims with Balkan roots in Belgium Germany Italy and Poland The book will be of interest to academics researchers and policy makers working in the areas of Islamic Studies Migration Studies Anthropology of Religion and Memory Studies **India, Empire, and First World War Culture** Santanu Das,2018-09-13 Based on ten years of research Santanu Das s *India Empire and First World War Culture Writings Images and Songs* recovers the sensuous experience of combatants non combatants and civilians from undivided India in the 1914 1918 conflict and their socio cultural visual and literary worlds Around 1 5 million Indians were recruited of whom over a million served abroad Das draws on a variety of fresh unusual sources objects images rumours streetpamphlets letters diaries sound recordings folksongs testimonies poetry essays and fiction to produce the first cultural and literary history moving from recruitment tactics in villages through sepoy traces and feelings in battlefields hospitals and POW camps to post war reflections on Europe and empire Combining archival excavation in different countries across several continents with investigative readings of Gandhi Kipling Iqbal Naidu Nazrul Tagore and Anand this imaginative study opens up the worlds of sepoys and labourers men and women nationalists artists and intellectuals trying to make sense of home and the world in times of war *Routledge Handbook of Autocratization in South Asia* Sten Widmalm,2021-12-30 This handbook offers a

comprehensive analysis of the processes and actors contributing to autocratization in South Asia. It provides an enhanced understanding of the interconnectedness of the different states in the region and how that may be related to autocratization. The book analyzes issues of state power, the support for political parties, questions relating to economic actors and sustainable economic development, the role of civil society, questions of equality and political culture, political mobilization, the role of education and the media, as well as topical issues such as the Covid pandemic, environmental issues, migration and military and international security. Structured in five sections, contributions by international experts describe and explain outcomes at the national level in India, Pakistan, Bangladesh, and Sri Lanka. The final section analyzes conditions for democracy and autocratization and how they are affected by the interplay of political forces at the international level in this region: India building an ethnic state, Pakistan the decline of civil liberties, Bangladesh towards one party rule, Sri Lanka the resilience of the ethnic state. How to comprehend autocratization in South Asia: three broad perspectives. This innovative handbook is the first to describe and to explain ongoing trends of autocratization in South Asia, demonstrating that drivers of political change also work across boundaries. It is an important reference work for students and researchers of South Asian Studies, Asian Studies, Area Studies, and Political Science. December 2021 Young Muslim Digest Syed Iqbal Zaheer, 2021-12-05. Among the major publications of IQRA Publications is the popular Islamic monthly in English, the Young Muslim Digest, arguably among the foremost in this type of publishing in India. This magazine is being brought out regularly by IQRA Publications since the past 36 years. The magazine carries authentic Islamic material for the Western educated and/or West-influenced youth presented in a creative manner while yet highlighting the beliefs of the earliest predecessors and an understanding of the Qur'an and Sunnah on the pattern of the great majority of Islamic scholars of the past and of those prominent down to the present age. In view of the authentic nature of its contents, the magazine has been awarded license for distribution in Saudi Arabia. Besides the regular monthly production of the Young Muslim Digest, IQRA Publications has quite a few other Islamic titles to its credit. Each one of these books offers authentic material and covers topics that are not normally covered by other publishers. It is perhaps for this reason that they are popular even outside the country. Malaysia, for instance, imports many of IQRA's titles regularly.

Viral Critique Hannah Richter, 2023-09-25. This book brings together papers that employ postfoundational theory to critically investigate the social, political, economic, and ecological dynamics and power structures that shaped Western democracies, non-Western societies, and international politics during the COVID-19 pandemic. The COVID-19 pandemic disrupted not only social relations and personal lives across the globe but also the landscape of postfoundational theory. Giorgio Agamben, one of its most prominent figures, attracted harsh criticism for his suggestion that the pandemic was nothing but an invented tool of state power. In the face of a collectively experienced emergency, it seemed tempting to forgo critical questioning in favour of

taking action on a manifestly real viral threat Resisting this temptation this volume makes the case that COVID 19 has rendered postfoundational critique urgently necessary The chapters collected here use postfoundational theory to unpack the pandemic s global social event beyond dominant narratives of unprecedentedness exception and necessity The authors explore where the pandemic has actually altered political social and economic dynamics But they also highlight where divisions inequalities and expropriation continued unchanged or even reinforced throughout and after the COVID 19 event The chapters apply scrutinise and re work the writings of postfoundational thinkers from Jacques Derrida Roberto Esposito and Gilles Deleuze to Jasbir Puar to both offer a better understanding of the pandemic s social reality and to draw from it visions for a different post pandemic future Viral Critique will be a key resource for academics researchers and advanced students of Philosophy Political Science Sociology Economics and Cultural Studies The chapters included in this book were originally published as a special issue of Distinktion Journal of Social Theory
