Is Your Faith Up to the Challenge? Robert L. Jackson,2008-03 Can you justify your faith To put it simply this is a book of questions designed for two purposes One to challenge the integrity and convictions of one s religious faith And two to give people of faith the opportunity to explain to people without why their beliefs are sane rational and justifiable Think of this as the ultimate self help book for learning to critically think about the reasons why you choose to believe in a God This book is dedicated to YOU whoever you may be and regardless of whatever you may or may not believe in This book is dedicated to all of us as an intellectually maturing society and a globally united species If dedication to unbiased compassion is honestly our goal and we are indeed here for the happiness well being and benefit of our fellow man then I hope this book will be considered an invaluable tool for destroying the barriers that regularly impede our ability and desire to openly communicate and relate to one another Is Your Faith Up to the Challenge is a mirror for the conscience and the intellect that will unrelentingly force the reader if they are confident enough to read it to acknowledge the honest reflection of their true beliefs Without a doubt this will be an experience that will be difficult for many to accept as it will most assuredly shake the very foundations of the most fundamental ideas about faith and religion that millions of people build their lives on I would imagine that it would be no understatement to say that your faith is likely to be irrevocably diminished if you have the

courage to address these questions honestly and in their entirety not because of any piece of information contained within these pages but rather because of the answers I suspect most of us already believe in our hearts to be true To the best of my knowledge this book in conjunction with its related web site www.justifyyourfaith.com is a one of a kind effort designed to inspire people of all religious faiths to share the personal reasons for their beliefs and to think with their own natural intelligence and good common senses as well as their heart in order to postulate the most productive honest and complete views of the world they live in There is no doubt such a work will generate a fair amount of contention I only wish that we can find the common decency in ourselves to treat our inevitable disagreements with compassion and maturity [Give Me a Reason](#) A.
