## **Wild An Elemental Journey:**

**Wild** Jay Griffiths, 2007-05-31 WINNER OF THE ORION BOOK AWARD Part travelogue part manifesto for wildness as an essential character of life Wild is a one of a kind book from a one of a kind author Undefined untameable profound and extraordinary Observer \_\_\_\_\_ I took seven years over this work spent all I had my time money and energy Part of the journey was a green riot and part a deathly bleakness I got ill I got well I went to the freedom fighters of West Papua and sang my head off in their highlands I met cannibals infinitely kinder and more trustworthy than the murderous missionaries who evangelize them I found a paradox of wildness in the glinting softness of its charisma for what is savage is in the deepest sense gentle and what is wild is kind In the end a strangely sweet result I came back to a wild home Wild describes an extraordinary odyssey courageous and sometimes dangerous It is by turns funny touching and harrowing and offers a poetic consideration of the tender connection between human society and wildlands \_\_\_\_\_ Easily

**Beyond Climate Breakdown** Peter Friederici, 2022-10-11 The importance of telling new climate stories stories that center the persistence of life itself that embrace comedy and radical hope How dare you asked teenage climate activist Greta Thunberg at the United Nations in 2019 How dare the world s leaders fiddle around the edges when the world is on fire Why

is society unable to grasp the enormity of climate change In *Beyond Climate Breakdown* Peter Friederici writes that the answer must come in the form of a story and that our miscomprehension of the climate crisis comes about because we have been telling the wrong stories These stories are pervasive they come from long narrative traditions sanctioned by capitalism Hollywood and social media and they revolve around a myth that the nation exists primarily as a setting for a certain kind of economic activity Stories are how we make sense of the world and our place in it The story that the economy takes priority over everything else may seem foreordained but Friederici explains actually reflect choices made by specific people out of self interest So we need new stories stories that center the persistence of life rather than of capitalism stories that embrace contradiction and complexity We can create new stories based on comedy and radical hope Comedy never says no hope sprouts like a flower in cracked concrete These attitudes require a new way of thinking an adaptive attitude toward life that slips the narrow yoke of definition

**Weaving Words into Worlds** Caroline Durand-Rous, Margot Lauwers, 2023-10-10 *Weaving Words into Worlds* comes as the third spinoff of the international ecopoetics conference organized in Perpignan in 2016 Reflecting upon how the many stories we tell directly influence the world we live in each of the contributions in this international volume directs our attention to the constant ecopoetic weaving of word to the world at work via the many entanglements between mind matter and meaning whether on a local or a global scale It encapsulates how the words stories and concepts we humans articulate as we try to make sense of the world we inhabit give part of its shape to the web of ecological relations that we depend on for survival It seeks to cast light on the disenchanting and reenchancing powers of stories and poesis in general as stories retain the power to make us either become oblivious to and destroy or to feel and honor the many complex ties between the multitudinous nature cultures intertwined within the fabric of a multispecies world always in the making This book offers a total of fourteen articles written by international scholars in ecocriticism and ecopoetics who by their analyses of literature and or films and the political subtext they thus render visible aim at showing how the study of environmentally minded media may renew our attention to the entangled agencies of the human and the more than human realm Thus this work offers to counter a reproach ecocriticism has often been met with namely the over presence of US scholars and the lack of diversity in subjects in the field since the articles presented provide a wide variety of approaches and topics with examples of UK and Native American literature Polynesian myth graphic novels or haiku In doing so the book expands on the fields of ecocriticism and ecopoetics adding to this branch of study and enriching it with high quality academic studies

conservation      **Oak and Ash and Thorn** Peter Fiennes, 2017-09-07 A Guardian Best Nature Book of the Year The magic and mystery of the woods are embedded in culture from ancient folklore to modern literature They offer us refuge a place to play a place to think They are the generous providers of timber and energy They let us dream of other ways of living Yet we now face a future where taking a walk in the woods is consigned to the tales we tell our children Immersing himself in the beauty of woodland Britain Peter Fiennes explores our long relationship with the woods and the sad and violent story of how so many have been lost Just as we need them our woods need us too But who if anyone is looking out for them      *Virginia Woolf and the Natural World* Kristin Czarnecki, Carrie Rohman, 2011-06-01 Edited collection from acclaimed contemporary Woolf scholars exploring Virginia Woolf's complex engagement with the natural world an engagement that was as political as it was aesthetic      *Nature Prose* Dominic Head, 2022-08-15 Nature Prose seeks to explain the popularity and appeal of contemporary writing about nature This book intervenes in key areas of contemporary debate about literature and the environment and explores the enduring appeal of writing about nature during an ecological crisis Using a range of international examples with a focus on late twentieth and early twenty first century writing from Britain and the US Dominic Head argues that nature writing contains formal effects which encapsulate our current ecological dilemma and offer a fresh resource for critical thinking The environmental crisis has injected a fresh urgency into nature writing along with a new piquancy for those readers seeking solace in the nonhuman or for those looking to change their habits in the face of ecological catastrophe However behind this apparently strong match between the aims of nature writers and the desires of their readers there is also a shared mood of radical uncertainty and insecurity The treatment and construction of nature in contemporary imaginative prose reveals some significant paradoxes beneath its dominant moods moods which are usually earnest sometimes celebratory sometimes prophetic or cautionary It is in these paradoxical moments that the contemporary ecological crisis is formally encoded in a progressive development of ecological consciousness from the late 1950s onwards Nature prose fiction and nonfiction is now contemporaneous with a defining time of crisis while also being formally fashioned by that context This is a mode of writing that emerges in a world in crisis but which is also in some ways in crisis itself With chapters on remoteness exclusivity abundance and rarity this book marks a turning point in how literary criticism engages with nature writing
