Managing Sport Facilities Gil Fried, Matthew Kastel, 2025-03-19 For many sports fans, attending a sporting event is about more than just watching the action unfold. It's a chance to immerse themselves in the sights, sounds, and smells of the venue. Whether it's a multibillion-dollar stadium or a high school gymnasium, each facility's success is a result of meticulous planning, innovative design, strategic marketing, diligent maintenance, and effective management of operations and human resources. When all these factors align, fans leave with cherished memories regardless of the game's outcome. *Managing Sport Facilities*, Fifth Edition, with HKPropel Access, exposes students to the many duties of sport facility managers and primes them for the responsibilities of the job. Merging historical and theoretical foundations with real-world challenges, the text features insights from a diverse group of professionals who offer perspectives on a variety of topics, spanning systems and operations, maintenance, and environmentally friendly practices. Endorsed by the Stadium Managers Association, this updated edition is now in full color and places a greater emphasis on what facility managers and staff do on a daily basis and how venues are managed. To this end, a new chapter on systems management has been added, covering critical infrastructure such as plumbing, electrical systems, fire protection, life safety, communications, sound, and security. Additionally, a new chapter focusing on technology used in sports venues addresses lighting systems, scoreboard operation, concessions, and electronic ticketing. The fifth edition offers students expanded opportunities for hands-on application of the material. Related online resources delivered via HKPropel include new and updated projects and case studies encouraging students to apply fundamental concepts in real-world scenarios. An updated case study, Gil's Sportsplex, incorporates strategic planning, construction, financial analysis, and more. End-of-chapter assignments combine to form a semester-long project related to the construction or renovation of a sports facility. A crowd management certification can be obtained by watching a series of videos on this crucial skill and passing a short quiz. Day in the Life bonus content asks students to create a day planner for an event. A catalog of YouTube videos provides virtual tours and instructive information for students. Other learning aids include flash card activities to review key terms. Within the text
